Motion by Mr. Durant and seconded by Mr. Barry that the roll of the House members as prepared and furnished by the State Election Board and that the names thereon be considered prima facie evidence of their election and entitle them to their seats. Motion carried. After which the oath of office was administered by Chief Justice M. J. Kane to all those present.

The Chair announced that nominations were in order for Speaker.

Mr. Petry (of Jackson) placing in nomination Honorable Paul Nesbitt of Pittsburg County, said:

"Mr. Chairman and Gentlemen of the Sixth Legislature of the State of Oklahoma: "As we are about to enter upon our duties as members of the Sixth Legislature of the State of Oklahoma, we face a serious responsibility. The priciples and practice of government by parties is so entrenched in our institutions that it is necessary that the members of the majority party accept the responsibility in the larger measure for what is done and to discharge that responsibility with credit. In order to do this we must layaside all personal embitions erase from our minds all party jealousies and thoughts of sectional interests, and rise so high upon the tide of patriotism the horizon of our vision will broaden, that we may see nothing less than the greatest good, confident at all times of the ultimate fact that whatever is for the general good is for the the good of the majority party. And that no party has the right to exist except as an istrument of service.

"At this session we must have the harmonious co-operation of all the members. Not that harmony resulting from the dominance of one mind, one man or one office of the deliberations of this session, nor the subservient or servile harmony, but that harmony resulting from the sincere and friendly co-operation of unselfish men.

"This body must stand up with virile responsibility as the deliberative thinking head of the State Government. In order to achieve these results which I have so briefly suggested, it is necessary that we have a man for speaker who is no novice at statecraft, a man whose integrity and aggressiveness is known and undoubted. A man who has been educated in the school of experience and whose courage has been tested in the fire of criticism.

"As embodying these principles I have the honor and the pleasure to present for your consideration as candidate for Speaker of the House of Representatives of the Sixth Legislature of the State of Oklahoma, the name of Honorable Paul Nesbitt of Pittsburg County."

Mr. Neal, seconding the nomination of Mr. Nesbitt, said: "Mr. Chairman and Gentlemen of the Sixth Legislature:

"I feel that I would do less than my duty to you and the people of this State if I do not rise to second this nomination of Mr. Nesbitt.

"We are from adjoining counties, the mountain country of this State, and we people there among our pines are yet so close to nature as to love those men who are true and good and pure like Nesbitt. We love him as a finished specimen of the western manhood, whose heart and life beats true to the great hearts of humanity; his life is a monument of integrity. The greatest destiny of a man and a legislator is to sow that others may reap. I trust that each of us of every political faith desire to so act here as to sow well and truly the seed of orderly government to the end that the people of this great new state may be lifted to higher and purer planes of right living and, in my judgment, no better man is among us to lead and direct to this end than Paul Nesbitt. I therefore very respectfully second his nomination."

Further seconding, Mr. Hodges said:

"Mr. Chairman:

"When I came to Oklahoma City a few days ago I did not

know Paul Nesbitt personally, but I knew him by reputation. Since we have been here together in this most friendly race for the Speakership I have come to know him fairly well, because in a contest of this kind the true character develops. I do not believe that I can be successfully contradicted when I state that in all probability there is not another man in this splendid array of democratic war horses or in the great State of Oklahoma that has done more for the cause and in the interest of democracy and in the support of the things that have made Oklahoma a leader in the progress of this nation. He will have no more earnest and willing supporters than the candidates who opposed him in the race. It is a pleasure, indeed, to me to have the opportunity to second the nomination of Mr. Nesbitt for Speaker of the House of Representatives of the Sixth Legislature of this State.

Further seconding, Mr. Hultsman said:

"Mr. Chairman, Fellow Democrats, Members of the Sixth General Assembly of the Great State of Oklahoma:

"Gentlemen: I feel honored for the privilege of assembling as a member of the Legislature in this magnificent building that has been beautifully pictured by Mr. Petry of Jackson County.

"Gentlemen: We are all parts of a mighty system. Natural philosophy teaches that action and reaction are equal, for illustration: You may take a pebble from the earth and cast it into a placid lake, it creates a wave there. That wave is not put out by coming in contact with another wave, it simply adds its force, and it goes on and on until it makes its report.

"Gentlemen: Mysteries may arise during our labors here, but I believe all these mysteries will be easily handled, if begun in the right spirit and watchful care.

"I have been studying Paul Nesbitt for two years as an old blue stocking Virginia Democrat. I consider him one of the purest men in our ranks—a man with a great piety, zeal and executive ability, fully equipped with experience to make one of the best executives that the State has ever had, if he shall have the co-operation of the members of this great body. Therefore I seconded the nomination of Paul Nesbitt of Puttsburg County, Oklahoma, as Speaker of the House."

Mr. Acton placed in nomination Honorable A. E. Craver of Washington County.

The roll being called, resulted as follows:

Nesbitt: Adams, Baker, Barker, Barry, Beatte, Berry, Blackard, Bobo, Bond, Butterfield, Cartwright, Chapman, Cheatham, Christopher, Collums, Craver, Dickinson, Disney, Dolan, Draughon, Durant, Fitzgerald (of Kiowa), Fitzgerald (of Pittsburg), Fox, Gibson, Gish, Graves, Haile, Hamilton, Hartenbower, Harper, Hendrickson, Hensley, Hicks, Hinds, Hodges, Houston, Hultsman, Humble, Hunter, Hurst, Johnson, Jones, Kelly, McCollister, Mansur, Mayfield, Meacham, Miller, Morgan (of Creek), Morgan (of Jackson), Neal, Neff, Newman, Nicholson, Northcutt, Norvell, Petry, Platt, Pugh, Riley, Robertson, Rowland, Scott, Sheegog, Shirley, Shores, Speer, Stevenson, Thomas, Thurmond, Ticer, Treadway, Vaden, Walden, Waldrep, Warren, Welch, West, Wheeler, Wimbish, Woodard. Total ,84.

Craver: Acton, Bardsley, Beck, Butler, Campbell, Condon, Eakins, Elder, Everhart, Ewing, Garetrt, Grubb, Harris, Harvey, Hartenbower, Headley, Hill, Keegan, Marsh, Olmstead, Pardoe, Smith, Wismeyer, Woods. Total, 21.

Total absent, 5.

Not voting. 1.

The Chair announced that Mr. Nesbitt, having received a majority of the votes of the members elected to the House of Representatives, he was declared elected Speaker of the House of Representatives for the ensuing term.

On motion of Mr. Acton the election of Mr. Nesbitt was made unanimous.

The Chair appointed Messrs. Beatte, Welch and Craver to escort the Speaker-elect to the Chair.

Mr. Nesbitt made the following remarks:

"Mr. Chairman and Gentlemen of the Sixth Legislature:

"I assure you, gentlemen, it affords me gratification to stand here today by the unanimous vote of the Democratic caucus, and by the unanimous vote of this House.

"I do not believe in speaking for the purpose of painting word pictures, but as a family gathered together and representing the interests of Oklahoma, I want to talk to you as a member of this family.

"We are just now starting out on a work that we have only in mind in an irregular way and undefined, but we do know that we have before us the interests of this State, and as questions arise, we must meet them and decide in our minds which is the right side and in the interest of the State. My experience in Legislatures has taught me that one of the great difficulties is in the manner in which we operate. Great business institutions which reach out all over the country, have organizations, and those organizations have definite objects. Everything that is done is contemplated before hand. They work in straight lines and that is the way they accomplish what is done.

"Gentlemen, we must work with some defined purpose in this assemply. In the Fifth Legislature, after looking over the situation early in the session, I suggested that we appoint a committee to act with a like committee from the Senate, and meeting the Governor of this State, outline those measures which we believed should be acted upon, then dividing the work up between the two Houses in order to accomplish that work with some definite and outlined purpose. It worked well, and so I say in this session, let us, through the committees of the two Houses, working in harmony with the administration of the State, strive to reach an agreement on all things that should be acted upon and carry them out in an intelligent manner. I have no great number of suggestions to offer. I know that this great State is varied in interests and productions. I know that those who are gathered here today for this session will have great difficulty in harmonizing and bringing together into one law the ideas of the various counties of the State, and mould them into one, as mould we must. A great part of the legislative work is to find that common ground upon which we may all stand, which will be to the interests of the greatest number in the State.

"I shall not detain you further, but before I close there is something that I wish to speak about. I probably will not speak of it again, but today, and tomorrow, and every day of this session, gentlemen, what I say now I shall mean with all the fervor of my heart and soul. The gentlemen who stood on the floor a few moments ago and told you he was once a Speaker of the House of Representatives in my native State, told you the truth, for I sat in that House as a boy, and there was instilled into me the first poison of politics. I saw there as I have seen ever since, that legislators and legislatures have been held lightly in the estimation of my people. Many times I have

sought to ascertain why that was so. In many commuities it is not a great credit to be a Representative. But I feel, gentlemen, that this is largely due to the men and their acts.

"I am going to call upon you men today to be representatives in every sense, in the strictest definition of that word. You are not representing the worst elements, but the best elements, that are for the upbuilding and best interests of your several communities. When you stop to think of the men, of the women, of the boys and girls in your community who pick up the papers and read of your acts here in the assembly, does it not impress upon you that you should be very careful of your conduct? And I am not talking, gentlemen, of your acts in this Legislative hall as much as I am of the moral conduct of the session. I want you to remember, gentlemen, that what you do, and the manner in which you work are being followed by the people of the State. I want you to conduct yourselves so that when you are going about the city, and about the legislative work, the purest woman in your community might accompany you as you go. I want your acts to be such that the youngest man in whom you have the greatest interest might take you by the arm and walk by your side.

"Let our acts be such that the people of Oklahoma will recognize that you are Representatives in very truth. I hope you will feel the responsibility of being representatives and conduct yourselves so as to inspire confidence, that when a man offers himself for this position, it will be, in the estimation of the people, for one of the highest offices, instead of the most ignoble.

"I thank you again, and beg to say when you are aggrieved at me, when I do things you think I ought not to do, come and talk to me about it, for I am only one and there are one hundred and ten of you. Be charitable with me and I will do the very best I can for you, without reference to political lines—or previous condition of servitude."

The oath to the Speaker was then administered by District Judge Edwards of the Supreme Court Commission, who also administered the oath to the following members:

Blackard, Houston, Hughes, Hunter, Powell, Rogers, Turlington and Wheeler.

The Speaker announced that he had selected for Chief Clerk,

Hon. C. C. Childers, of Garfield County, with whom he had served in the Fifth Legislature. The selection was confirmed by the House, and the Speaker administered the oath of office.

The Speaker announced that nominations for Speaker Pro Tempore were in order.

GOVERNOR'S MESSAGE.

To the Senate and House of Representatives of the State of Oklahoma:

Having assembled to consider the condition of the State, attention should be first drawn to those circumstances which mark the goodness of Him from whose favor they flow, and the thankfulness we owe for His bounty.

Another biennium having passed, we find ourselves blessed with peace and prosperity; our burdens, though ligteneded yet our income is sufficient for the reasonable public wants, and the produce of the year just passed great beyond example.

The Sixth Legislature having organized, it becomes my duty to communicate to you the condition of the commonwealth and recommend such matters as may be judged expedient.

FINANCIAL CONDITION.

STATE BONDS:

On March 6, 1908, (Chapter 7, Article 1, pp. 156-159, Session Laws, 1907-9), the First Legislature passed an Act entitled::

> "Providing for funding the outstanding warrants and other indebtedness of the State of Oklahoma, and the issuing of bonds therefor; providing for the payment of the same and making an appropriation therefor, and declaring an emergency."

Section One authorized the funding of the outstanding legal warrant contract and appropriation indebtedness of obligations incurred, moneys expended and the expenditure of annual appropriations begun by the Territory of Oklahoma and subse-

quent indebtedness created by the State of Oklahoma, as hereinafter enumerated, to-wit:

Indebtedness of the Territory of Oklahoma prior to Statehood, and annual appropriations beginning under Territorial government:

General Revenue	$ 685,561.78
Central State Normal School	61,662.00
Northwestern State Normal	51,200.86
Northwestern State Normal School building fund	40,971.32
University	100,450.98
Southwestern State Normal School	42,873.56
Colored A. and M. University	31,923.39
Normal	18.08
Library, State	91.40
University Preparatory School	40,658.97
Agricultural and Mechanical College	25,000.00
Board of Education, State	389.80
Deaf and Dumb School	21,840.40
Penitentiary Contract	50,580.00
Care of Insane	73,500.00
Territorial Militia Deficiency	1,500.00
Total	$1,228,222.54

The foregoing amount plus interest constituted the outstanding warrant and contract indebtedness of the Territory of Oklahoma, which the State assumed by the terms of the Enabling Act.

The following State items were included in said indebtedness:

The payment of the mileage and per diem of the members and contingent expenses of the First State Legislature	$100,000.00
For salary of State officers and contingent expenses with the beginning of statehood	25,000.00
For salaries of Justices of the Supreme Court and contingent expenses of said County until January 1909	32,700.00
Total	$157,700.00

The total Territorial indebtedness in the sum of $1,228,822.54, and that of the State in the sum of $157,700.00, with accrued interest constituting the $1,460,000.00, which was taken

up by said bond issue, in series running from ten to twenty years in ten equal installments; the first to become due on August 1, 1918 and the last, ten years after that date.

In 1913 funding bonds were issued to cover deficiencies theretofore accrued in the sum of $2,907,000.00 in ten equal installments, the first to become due ten years after October 15, 1913, and the last twenty years from that date. The 1908 bond issue bears interest at the rate of four per cent. and that of 1913, at four and one-half per cent.; these two issues constitute all outstanding state indebtedness.

PUBLIC BUILDING BONDS:

Warrants, calded public building bonds, were issued against the public building land and its proceeds derived from the sale of the same, in the sum of $2,451,500.00, the same not being liabilities of the state, but resting for their security solely upon the lands and the proceeds thereof. The obligation of the State is merely that of trustee, to faithfully execute its trust. Of this issue $372,500.00 has been paid, leaving outstanding the sum of $2,000,079.00. These securities were issued by virtue of Act of February 18th, 1910 (Session Laws, 1910, Chapter 76, p. 21), and the amendatory Act of March 15th, 1911, (Session Laws, 1910-1911, Chapter 89, pp. 184, 199).

Exhibit "A" hereto attached contains an itemized statement as to said securities.

The following statement and estimate as to the resources securing said building warrants were made by the State Examiner and Inspector (see report, State Examiner and Inspector, September 10, 1915, file No. 5030, Record No. R-122) to-wit:

RESOURCES:

Cash on hand, June 30, 1915.....		$ 609,828.85
Deferred payments on notes now on hand that will not have matured	$1,971,748.40	
Interest that will have accrued on notes now on hand	2,510,740.72	4,482,489.12
Initial payments that will have been received on the unsold lands..	37,918.03	
Deferred payments on notes that will have been received for unsold land (19 payments, allowing 1 year to complete sale)...	342,210.14	

Interest that will have accrued on notes received for unsold and	521,870.53	901,998.70
Total		$5,994,316.67

LIABILITIES:

Principal of bonds and warrants, (all outstanding June 30, 1915) will have matured	$2,153,000.00	
Interest that will have accrued on bonds and warrants	1,254,225.00	3,407,225.00
Surplus, cash that will have accrued		2,587,091.67

Said surplus in the sum of $2,587,091.67, as shown by said statement, has been reduced in the sum of $750,000.00, that sum having been transferred by Act of the Fifth Legislature to be used in the construction of the State Capitol building, which leaves an officially estimated net surplus in the sum of $1,837,-091.67, excluding the lien on the State Capitol lands, and a pledge by the State to reimburse said fund in the sum of $400,-000.00.

Exhibit "B" hereto attached, embraces a statement of the property owned by the State under date of October 31, 1916, under a system of accounts established by the State Examiner and Inspector under authority of law.

DEFICIENCIES.

PENITENTIARY AT MCALESTER:

On April 5, 1916, on application and showing made by the State Board of Public Affairs, ex-officio Board of Control of the Peniteniaries, a deficiency in the sum of $100,000.00 for the fiscal year closing June 30, 1916, was consented to in writing and certified to in writing by me. Itemized statement of said claims will be furnished by said board.

The Warden of the Oklahoma Penitentiary at McAlester, under date of December 22, 1916, wrote the State Board of Affairs, as follows:

> "Our records show that available funds for the support and maintenance of the Penitentiary for the fiscal year ending June 30, 1917, will have soon been exhausted. In fact, there will very probably not be funds sufficient to

pay for more than the outstanding accounts at the present time. I therefore suggest that you call this condition to the attention of his Honor, the Governor, and ask him to authorize a deficiency for the support and maintenance of this institution until such a time as the State Legislature, now about to convene, may see fit to make a deficiency appropriation for the balance of this fiscal year. This condition exists on account of several reasons, the principal ones I wish to call your attention to, as follows:

"First: The Fifth session of the Legislature made an appropriation of $180,000 for the support and maintenance of the Penitentiary for the present fiscal year. This appropriation was made, as I understand it, on the basis of 1,100 population at 43.7 cents each per day. I find from the records that the population during the present fiscal year has average more than 1,400 population and that the average cost of support and maintenance at the time this appropriation was made, instead of being 43.7 cents, was actually 63.3 cents, so you will see that the estimate on which the present appropriation was made was in error, both as to cost per capita and the average number of inmates in attendance.

"Second: The $25,000 appropriated by the extra session of the Legislature in 1916, for the support and maintenance of convicts while at work on the public roads was exhausted on July 1st. Since that time this entire expense of maintaining these camps, other than the small amount received from the counties for the difference in the cost of food, has been necessarily paid from this maintenance appropriation. While the Legislature provided that the counties should pay the difference in the cost of food, they did not take into consideration the fact that it requires three men: Namely, one foreman, $100 per month; one steward, $60 per month, and one night watchman or guard, $60 per month, for each camp, and these camps have averaged about twenty-two men. Had these prisoners been in the walls or on our farm this guard hire would not have exceeded one-third of the amount it has cost on the roads. I call your attention to the fact that a greater percentage of escapes occur while the prisoners are away from the walls and out on the roads than occur while in the walls or on the prison farm. Our records show that it costs on an average of $48.45 to return these escapes.

"Third: The cost of provisions, clothing, etc., has increased from 25 to 50 per cent. since the appropriation was made in 1915.

"Fourth: Your Board, in order to make a saving by buying before dry goods, clothing, leather, etc., had made further increase, which was inevitable, purchased almost enough of these items to last us during the present fiscal year. This was good business on your part, but it has caused our available funds to be exhausted, of course, sooner than they would have been otherwise.

ESTIMATE OF APPROPRIATION NECESSARY FOR THE SUPPORT AND MAINTENANCE FOT THE BALANCE OF THE FISCAL YEAR.

"At prevailing prices I do not believe that these prisoners can be properly maintained for less than 65 cents per capita. This, you understand, means the entire support and maintenance, including all expenses, food, clothing, medicine, guard hire, salaries of officials, reward and expense for the return of escapes, feed for teams and necessary repair of building and equipment. On this basis and an average population of 1,400, it will require $169,225 for the six months remaining in the present fiscal year. I estimate that $18,900 of this is already invested in clothing, shoe-leather and dry goods, that will be used during the present fiscal year, $169,225 less $18,900 will leave $140,325. This amount I feel will be necessary and I therefore recommend that a deficiency of $140,325 be authorized by the Governor and that the Legislature be advised of said deficiency so that it may give said deficiency such consideration as it may deem necessary."

The State Board of Public Affairs, under date of December 30, 1916, writes me as follows:

"We are transmitting you herewith letter from Sam L. Morley, Warden, State Penitentiary.

"Upon receipt of this letter we checked the accounts of the Penitentiary and find that the statements set forth in Mr. Morley's letter to be correct. We also find that he has expended from the maintenance fund, for the benefit of the road camps, $43,953.31. This amount was for supplies, maintenance and support of the road camps, exclusive of

the amount he expended for additional guard hire and the expense of returning the escaped convicts from the road camps.

"The statement made by the former warden of 43.7 cents per day for maintaining the prisoners, to the last Legislature, was an error. We have checked this ourselves and find that the actual cost, when the former warden made his statement, was 63.3 cents, as shown by Warden Morley's letter, and we recommend that this matter be transmitted to the Legislature for their consideration.

"The matter of expenditure of $18,900.00 for dry goods and leather, was made with the full knowledge of the Board that the market would advance, and these purchases were made to save the increased cost of this charatcer of goods, which has advanced from 20 per cent. to 50 per cent. since purchases were made.

"Therefore, we recommend the appropriation of $140,-325.00, as suggested by Warden Morley's letter."

That the expenditures of the Penitentiary be made according to law, I consent to the deficiency to be created in writing as contemplated by Chapter 231, Session Laws, 1915. I ask that the proper committee investigate this matter and verify as to errors as to conflict in reports as to the cost of maintenance.

This deficiency is in addition to the one certified to by me on April 5, 1916, hereinbefore referred to.

STATE BOARD OF EDUCATION.

On May 20, 1916, Leslie T. Huffman, Secretary of the State Board of Education, advised me that the appropriation made for the per diem and expenses of said board was exhausted, and I found that a deficiency was necessary, and consented to the same in the sum of $1,000.00. Claims covering the per diem and expenses of the members of said board, under said certificate, are as follows:

John N. Shepler, per diem and expenses, May 7, 8, 9, 10, 11, 14, 17, 1916 $68.95
F. B. Fite, per diem and expenses, June 19, 20, 21, 22, 1916 24.60

John N. Shepler, per diem and expenses, June 20, 21, 22, 1916 27.00
J. G. Ralls, per diem and expenses, May 10, 12, 14, 15, 16, 1916 42.35
Robert Campbell, per diem and expenses, June 19, 20, 21, 22, 1916 28.89
J. M. Sandlin, for per diem and expenses, June 17, 19, 20, 21, 22, 23, 1916 35.96
Davis Hill, per diem and expenses, March 4, 5, 6, 7, 8, 1916 46.07
Davis Hill, per diem and expenses, April 23, 24, 25, 26, 27, 28 1916 47.51
Davis Hill, per diem and expenses, May 14, 15, 16, 17, 1916 33.22
Davis Hill, per diem and expenses, June 18, 19, 21, 22, 1916 43.02
S. F. Parks, State Agent of Oklahoma State Home, expenses, May 4, 10, 28, 1915 5.20
S. F. Parks, State Agent of Oklahoma Home, per diem, May 1, 4, 10, 20, 28, 31, 1915 30.00
S. F. Parks, State Agent of Oklahoma State Home, expenses, June 3, 7, 17, 1915 2.08
S. F. Parks, State Agent of Oklahoma State Home, per diem, June 3, 7, 8, 9, 19, 21, 26, 1915 25.00

$459.85

STATE UNIVERSITY.

On July 19, 1916, on application of the President of the State University, a deficiency in the sum of $13,500.00 for the fiscal year beginning July 1, 1916, for the medical department of said university, was consented to and certified to by me in writing. Also on the same date I certified to a deficiency in behalf of the State University, in the sum of $19,792.00, as follows:

Furniture for old Science Hall$ 2,598.50
Alterations, old Science Hall building 15,151.50
For alterations and improvements in the library building 2,042.00

Making a sum total of$19,792.00

These certificates were made with the understanding that these items would be paid out of the University appropriation so as to be able to make the purchases and improvements in an actual cash basis, and save the six per cent interest. When

the deficiency appropriation for said items are made, it should be specifically provided that the same shall be available as to a part of the University appropriation for current expenses for the fiscal year closing June 30, 1917, or to pay such deficiencies, if the same have not been paid out of said regular appropriations.

Also on the same date, I certified to an additional deficiency in favor of the State University in the sum of $16,000.00 for the year beginning July 1, 1916, for maintenance to be used in paying the salaries for teaching, administration and general expenses, operation and maintenance of plant and permanent improvements. I found that there was then in the state depository to the credit of the State University, the sum of about $8,000.00, derived from fees and incidentals collected on account of the State University during the fiscal year ending June 30, 1916, and that there would probably be a like sum collected for the year beginning July 1, 1916, which would make a sum in cash available, amounting to $16,000.00, but not usable on account of not having been specifically appropriated or made as a part of revolving fund provided for the State University. Apropriations when made should be to reimburse the regular appropriation.

SECRETARY OF STATE.

On August 19, 1916, on application, I approved a deficiency which covers expenditure made by the Secretary of State, as to the following items:

August 23d, check, Claude Weaver	$2,500.00
Sept. [illegible]h, check, Claude Weaver	58.76
Sept. 2th, check, Western Bank Supply	8.44
Sept. 6th, check, Reliable Storage Co.	52.75
Sept 24th, check, Underwood Typewriting Co.	9.60
Sep 24th, check, Underwood Typewriting Co.	5.00
Sep. 24th, Oklahoma Paper Co.	7.20
	$2,641.75

These items were paid by the Secretary of State out of his contingent fund. On request of mine, these pamphlets were published and mailed out as the law contemplated, the Secretary of State declined to make this expenditure out of his contingent fund until I certified to this deficiency, and so I report on this deficiency for your consideration for appropriation. In connection therewith, however, I desire to call your attention to the

fact that the Fifth Legislature made the following appropriation for the Secretary of State's office for the fiscal year closing June 30, 1917:

Secretary of State	$2,500.00
Assistant Secretary of State and Corporation Clerk	2,000.00
Corporation Record Clerk	1,500.00
Recording Clerk	1,200.00
Stenographer and Assistant Recording Clerk	1,000.00
Printing	1,500.00
Contingent fund, postage, freight, express, telephone, books, special services, supplies and office furniture	6,000.00

(Session Laws, 1915, page 456.)

In the report made to the Governor of the State for the expenses of the fiscal year ending June 30th, 1916, by the Secretary of State, as required by Chapter 19, Session Laws 1913, from the Contingent fund appropriation for that fiscal year being the same sum as that made for the fiscal year closing June 30th, 1917, I find the following items of expenditure therefrom.

August 2, 1915, Carl Rogers, extra service	$125.00
August 2, 1915, T. S Chamblin, extra service	75.00
August 2, 1915, Seth Ledbetter, extra service	5.00

July 1, 1916, T. S. Chamblin, extra service 75.00
July 1, 1916, H. S. Ross, extra service 100.00

And I also find:

June 24, 1916, Bessie Milhollan, salary$16.50
June 24, 1916, Julia Haswell, salary 7.50
June 24, 1916, Don McCafferty, salary 9.00
June 24, 1916, Leta McConaughy, salary 13,50
June 24, 1916,M. Morris, salary 13.50
June 24, 1916, Florence Muratet, salary 13.50
June 24, 1916, Clara Parker, salary 18.00
June 24, 1916, Eva Selzer, salary 18.00
June 24, 1916, Nora Haldaby, salary 18.00
June 24, 1916, Kate Mosing, salary 18.00
June 24, 1916, R. M. Nyleen, salary 15.00
June 24, 1916, Jane Shaw, salary 16.50
June 24, 1916, Bernice Benton, salary 16.50
June 24, 1916, Willie Rose, salary 11.00
June 24, 1916, Gerald Mobley, salary 16.50
June 24, 1916, Margaret Chenault, salary 4.50

The Act of March 31, 1913 (Session Laws 1913, pp. 221) provides that if such contingent fund has been expended for anything furnished, the quantity and price; and if there are any services rendered, the nature of such service rendered and time employed, and the paticular occasion or cause, in brief, that rendered such necessary, should be set out in this report. The report of the Secretary of State failed to comply with the statute in that respect. I suggested that he might withdraw it and amend it, so as to have it comply with the statute. This he declined to do. For that reason, I ask you to investigate these items of expenditure to determine whether like items of expenditure should exist during the fiscal year closing June 30, 1917, in order to determine whether an appropriation to cover this certificate of deficiency, should be made to reimburse his regular contingent fund for the year closing June 30, 1917. I further suggest that you make this investigation also with a view toward

determining how much contingent fund should be appropriated for the office of Secretary of State for the fiscal years comprising the next biennium.

HIGHWAY DEPARTMENT.

On October 10, 1916, the Commissioner of Highways reported in detail, and after examination I found that a deficiency in the sum of $18,279.79 for the fiscal year closing June 30th, 1917, was necessary, and accordingly so certified; the appropriation to cover this deficiency to be made out of the funds in the State Treasury, placed there by the Highway Department. It appeared that more than that sum remained of the fund placed in the State Treasury by the said Highway Department, subject to appropriation for its expenses. The items covered by this certificate will be presented for your consideration by the Highway Department.

HEATING CAPITOL BUILDING.

On September 26, 1916, the State Capitol Commission presented to me for my consideration the question of certifying to a deficiency to provide for the heating of the State Capitol building, not only to protect said building on account of freezing, but also that it might be properly heated when the Legislature convened at its sixth regular session in January, 1917, and upon investigation I found that the following was necessary to be purchased and installed to provide adequate heating for said purposes:

1 Springfield internal fired boiler, 225 H. P. complete with all furnace castings for coal fire with the necessary openings in the boiler front for the attachment of gas burners (but not including the burners). Furnish and erect the necessary smoke-stack and breaching for temporary use, install boiler on foundation ready for steam or water connection (not furnished by them) for the net sum of $4,633. Boiler to be covered with magnesia covering.

Rent, deliver and erect at the capitol site, 1,100 h. p. boiler complete with stack and necessary breaching for steam or water connections (not furnished by them) for $1,200.00.

A. Boiler house and boxing in of pipes to main building; 1 sink with waste pipe to sewer, etc., $2,613.00.

B. Boiler house equipment, except piping, set, including foundations, $3,717.00.

D. Alternate to C—pipe work and pipe covering to piping in main building except for gas burners and gas piping connections to boiler and covering of steam pipes in boiler house, $4,107.00.

E. Gas burners and connections to boilers from gas company's pipe at boiler house wall, estimate cost, $877.00.

F. Covering all steam pipes in boiler house, estimated cost, $229.00.

I accordingly certified to a deficiency in the sum of $17,376.00. These items will be presented to you by the State Capitol Commission for consideration. It is to be noted that practically all of these items may be utilized in providing for the permanent heating of said Capitol building.

FURNISHING AND PREPARATION OF LEGISLATIVE HALLS.

On the 9th day of December, 1916, the State Board of Public Affairs submitted to me the question and necessity of certifying to a deficiency in order to put the Legislative halls and rooms in fit condition for its occupancy at its sixth regular session. On investigation I found that it was necessary to make the following outlays, expenditures or purchases:

Moving and repairing legislative furniture	$ 150.00
2,500 yards of carpet at $2.08	3,200.00
3,600 yards of paper for carpet, at 10c	360.00
11 desks for new members	115.50
11 chairs for new members	99.00
4 desks to replace broken ones	42.00
4 chairs to replace broken ones	36.00
48 No. 24 blue enamel inside steel cuspidors	42.00
122 No. 24 green enamel inside steel cuspidors	106.75
200 yards of coco matting for halls, 75c	150.00
2 cases of lamp globes	50.00
Incidental expenses to put rooms in order	150.00
	$4,501.25

I accordingly certified to a deficiency in the sum of $4,501.25. These items will be presented to you for your consideration through the Board of Affairs.

ADJUTANT GENERAL'S DEPARTMENT.

The Second Legislature (Session Laws 1909, p. 463, Section 1, Article 6,) is as follows:

"The Commissioners of the Land Office are hereby authorized and directed to make and enter into a lease for 10 year periods not to exceed 5 periods with the Adjutant General of the Natiional Guard of this State, the following described land and premises, to-wit: The South half of the Northwest quarter of Section 16, township 14 north, range 4 East I. M., in Lincoln county, State of Oklahoma, at an annual rental, payable annually, of not to exceed 5 percent of the appraised value, to be used as a camp and maneuver ground for the national guard of the state, and said rental shall be paid to said common school fund out of the general fund of the state not otherwise appropriated; provided, that the lessees now occupying such tracts of lands, shall receive and be paid the full value of their improvements, preference right and lease hold interest."

As to the South half and the Northwest quarter of said Section 16, Township 4, Range 4 East, Lincoln county, as a maneuvering ground for the National Guard, under the provisions of said transfer, by J. D. Norton, the original lessee, but it has been suggested that the Act itself is sufficient to operate as a transfer. I call this question to the attention of the Legislature. I am further advised that no rental has ever been paid on the Northwest Quarter since 1912, and that on the South half there is a small balance of rental due for 1912, and all of the rental for 1913 and 1914 are still due. The rentals for 1915 and 1916 appear to have been paid. The statements below will give the rentals for each year up to and including 1919, and the interest that will be due May 1st on all back payments. Statements now due and which will fall due up to 1919 are as follows:

NW¼.

1913 rent	$ 180.00
Interest	66.00
1914 rent	180.00
Interest	48.00
1915 rent	180.00
Interest	30.00
1916 rent	144.00
Interest	9.60
1917 rent	144.00
1918 rent	144.00

1919 rent	144.00
Total	$1,269.60

I respectfully recommend for your consideration the advisability of making an appropriation to pay the rentals to the Commissioners of the Land Office to become a part of the income from the trust fund under their management. There appears to be due to the Commissioners of the Land Office as rental on the Northwest Quarter, including interest to May 1, 1917, the sum of $837.60. On October 1, 1917, there will be due said Commissioners as rental for that year, the sum of $144.00.

The Adjutant General advises me that he has attempted to take care of the rent on the South Half by subletting it to the care-taker of the rifle range, but has been successful in collecting the rent, only for 1915 and 1916, which was paid to the Commissioners of the Land Office. The rent on the said South Half for the years 1912, 1913 and 1914, including interest to May 1, 1917, amounts to $398.28. On October 1st, 1917, the 1917 rent of $162.00 will be due. It is possible that the 1917 rent can be taken care of by sub-renting, but it is advisable to have an appropriation to cover same in order that the Commissioners of the Land Office may be promptly reimbursed if the sub-letting arrangement should not materialize.

These facts, as to this matter, will be presented to you by the Adjutant General.

During the month of May, 1913, in connection with the Officer's School at Guthrie, a bill was incurred with the A. T. & S. F. Railway Company for transportation issued to officers upon requests of Adjutant General Canton, in the sum of $114.58.

A similar bill was made with the St. Louis & San Francisco Railway Company in the sum of $51.87.

The Missouri, Kansas & Texas Railway Company has a claim in the sum of $5.44 for freight on Quartermaster's property shipped from Lansing, Kansas, to Captain Walter Veach on December 4, 1912, this property being shipped to Oklahoma after maneuvers at Fort Riley.

These claims appear to be valid and regular (See Session, 1913, Section 36 and 38, Chapter 134, pp. 362-363). The items in detail will be furnished by the Adjutant General.

I respectfully recommend for your consideration, the advisability of making appropriation to cover these claims with interest at the rate of 6 per cent per annum.

In account No. 7, Adjutant General's Department, known as "Troops Called Out Fund," there remains a balance of only about $750.00, the original amount being $3,000.00. The same was depleted on account of the necessity of furnishing transportation to new recruits and such enlisted men as were disqualified on physical examinations during the mobilization ordered under the call of the President on the 19th day of June, 1916. In view of the likelihood that the troops will be returned to their home state prior to July 1, 1917, it appears that this appropriation should be supplemented in the sum of $1,500.00 to meet the emergencies and the necessities that will arise when said troops are mustered out of the federal service and returned to their homes. When the troops are returned, the War Department will probably order a survey of all unserviceable property in the hands of the state, as well as property that has been lost. The expense of such survey must be borne by the state, and this requested additional or deficiency appropriation, should be made so as to cover that item also.

CONFEDERATE HOME.

On March 23, 1916, a deficiency certificate was certified to for the Confederate Home, in the sum of $4,550.00, for the construction of a sewage and ceptic tank and equipment for said home. This was done on application of the State Board of Public Affairs. An itemized statement of said claim will be furnished you by said Board. Further, I have certified to an additional deficiency in four of said homes in the sum of $662.21 for maintenance. These items will be furnished you in detail by the Board of Affairs.

I recommend that appropriations be made to cover these deficiencies.

FEEBLE MINDED INSTITUTE.

The State Board of Affairs, under date of December 30, 1916, writes me as follows:

> "Enid does not have a deficiency at this time, but two new dormitories were completed last July and the increase is about 140 inmates.

This additional increase and the character of the children that are committed to that institution, creates a necessity for extra help, and there are several more children of the same character that will be committed there between now and the first day of July, 1917.

"The appropriation that was made for the year 1916-1917, was $45,000.00 for maintenance and salaries. This appropriation is not sufficient to take care of the Institution, since the number of inmates has increased as they have at this time; and figuring on the same cost per capita for the increased help and increased inmates, it will be necessary to make an additional appropriation to carry them until the first day of July, of $15,000.00."

For fear that you may not be able to pass on this question before a deficiency actually arises, I hereby consent in writing for the deficiency in this sum for the Feeble Minded Institute for the fiscal year closing June 30, 1917, and submit the same to you for your consideration.

STATE CAPITOL BUILDING.

The following is a statement of the several appropriations made for State Capitol Construction purposes, with expenditures therefrom to December 28, 1916, as shown by report from the Auditor's office:

	Amt. Appropriated.	Amt. Expended.	Amt. Unexpended Bal.
House Bill 72—Laws 1913, balances from sundry funds....$318,287.19			
Oklahoma City bond 100,000.00			
Interest on bond money 6,667.72			
Balance due under Senate Joint Resolution No. 7..... 53,578.50			
Total	$ 478,533.41	$ 478,527.22	$ 6.19
H. B. 72 and S. B. 398, General Revenue appropriation	250,000.00	57,293.40	192,706.60
House Joint Resolution 28, 1915	15,000.00		15,000.00
Senate Bill 442, laws 1915	750,000.00	712,972.99	37,027.01
Senate Bill 17, laws 1916, appropriation to pay special taxes	6,432.29	6,432.29	
Totals	$1,499,965.70	$1,252,225.90	$244,739.80

Section 8 of Chapter 22, Session Laws 1913, purported to appropriate unexpended balances in sundry funds, aggregating $252,224.40. However, some of the items, representing special trust funds, were never transferred to the Capitol Building Funds, such as Condemnation Section items, arising from the condemnation of school and public building lands. By House Joint Resolution No. 26, passed by the 1915 Legislature such

items were authorized and directed to be withdrawn from the Treasury by the Commissioners of the Land Office, and this leaves a deficiency in the $1,500,000.00 appropriation for the Capitol in the sum of $1,035.00.

(Session Laws 1915, page 717; Session Laws 1913, p. 584.)

Also Resolution No. 28, passed by the Fifth Legislature in regular session (Session Laws 1915, p. 718) authorizes the Capitol Commission to construct additional piers at a cost not to exceed $15,000.00, but I do not construe this Resolution to amount to an appropriation, so it will be necessary for the Legislature to appropriate at this session, the sum of $15,000.00 to cover the amount authorized by said Resolution 28, and also the additional sum of $1,035.00, the sum the original capitol appropriation was depleted by virtue of said House Joint Resolution No. 26. Said Resolution being in words and figures as follows:

"Whereas, there is now in the Treasure of this State, the following funds: Condemnation section 33 fund, $2,707.57; condemnation school land fund, $21,620.73, making the total sum of $24,328.30, and which is a true fund, and by virtue of section 32 of article 6 of the Constitution, is subject to the management and control of the School Land Commissioners;

"Now, in order that said funds may be loaned under the provisions of section 6 of article 11 of the Constitution of this State;

"Be it resolved, that the Treasurer of this State is hereby ordered and directed to pay out said funds on vouchers drawn by and under the direction of the Commissioners of the Land Office through the intervention of the Office of the State Auditor, said vouchers to show the purposes for which said funds are drawn."

It seems to me that said condemnation section 33 fund items, in the sum of $2,707.57, was subject to an appropriation to be used for the construction of the State Capitol building and that it can still be made available for such purposes.

The amount of contract with James Stewart & Company, Inc., is $1,253,500.00. Amount expended by Commission in completion of the building to the mezzanine floor, where contractors were to take hold, $174,283.71; total, $1,427,783.71. Extras, as shown by sheet 1 attached to report of the Capitol Commission, filed with the Sixth Legislature, $91,184.68, less credits

or rebates, as shown by credit sheet No. 1, filed with the same report, $10,035.82, leaving $81,148.86. Add this to $1,427,783.71 and you have $1,508,932.57, the cost of the Capitol Building proper as now contracted.

Out of the sums appropriated for the capitol building proper, it was provided by the Act of the Legislature that the architects' fees, expense of the Capitol Commission, and all such incidental expenditures should be paid out of that appropriation. The total architects' fees contracted for, including plans and supervision by the architects, is $75,000.00; the expenses of the Superintendent, Edward P. Boyd, the Treasury Architect, who has acted as Superintendent, including what has already been paid, and his salary, based up to July 1, 1917, will be $12,044.00; miscellaneous construction expenses, as shown by report of the Capitol Commission, on file with you, $14,742.39. J. S. Wiley, boiler, $4,633.00, item therein contained, is included in deficiency certificate made on September 26th, 1916. When this item is appropriated, it should be provided—"To reimburse the original capitol appropriation in that sum and to be available for payment for the construction of the same." J. S. Wiley, rent on boiler, $1,200.00 is a like item and is likewise contained in the same deficiency certificate. I mention this, to guard against a duplicate appropriation. Salary of Capitol Commissioners, office employees and clerical help, $27,930.56. This sum it itemized in report of the Commissioners, on file with the Legislature. Office supplies, furniture and fixtures—$2,754.77; telephone, telegraph, freight, express and drayage—$1,964.20; traveling expenses, railroad fare, hotel bills and miscellaneous expenses, taxes, auto supplies and premium on bonds, and employees of the Capitol Commissioners, $13,292.88, total $153,561.80. All of these items have been or are to be paid out of the appropriation for the construction of the capitol building. This was authorized by the act originally creating the Capitol Commission, and providing for the construction of the building.

The Capitol Commission in the construction of this building, was limited in amount to $1,500,000.00, plus the additional $15,000.00 authorized by resolution of the Fifth Legislature. This limitation was restricted to the construction of the building proper. The Attorney General June 21, 1915, wrote as follows:

> "Receipt is acknowledged of your letter of June 21st, referring to your letter of June 9th, and to the opinion by Mr. Matson of this office on the 10th. You now ask whether certain items mentioned in your letter of this date should

be included within the limits of the sum of one and one-half million dollars which the legislature by the acts of 1913 and 1915 provided should be the cost of the capitol building proper.

"We have re-examined the different acts and different opinions rendered by this office concerning the construction of the state capitol, and without referring in detail to the same we conclude as follows:

"It was the intention of the legislature to provide a building for the state capitol which should cost and into which there should be expended the sum of $1,500,000.00, and it is our opinion that this amount was to be expended on the building itself.

"In the Act of March 18, 1915, Session Laws, 1915, Section 3, page 296, provision is made for the appointment of a practical builder, fixing his salary in the sum of three hundred dollars per month, and it is our opinion that this amount and the amount paid for the services of this official is not included within the sum of $1,500,000.00 for the construction of the building.

"Provision is also made by the said act for the contracting of additional services by architects, and which we conclude was not intended to be a part of the $1,500,000.00.

"In other words, it is our opinion that the overhead charges, such as architects' fees, fees for superintendent of construction, salaries of the capitol commissioners, secretary to the commission, quarters and incidentals to quarters, is separate and apart from the $1,500,000.00.

"By House Joint Resolution No. 28, page 718, Session Laws, 1915, the capitol commission was authorized to construct piers at a cost not to exceed fifteen thousand dollars, suffciently strong to carry a high dome.

"We conclude that this is an appropriation in addition to the $1,500,000.00 and no part of the said sum of $1,500,000.00, and increases the amount to be expended for the building proper to the sum of $1,515,000.00, but the $15,000.00 so appropriated by House Joint Resolution No. 28 cannot be used for any purpose except for the construction of piers sufficiently strong to carry a high dome."

We concluded after this advice from the chief law officer of the state that the items contained in the $153,561.80 sum as hereinbefore enumerated, were not intended to be a part of the amount prescribed as a limit for the construction of the building proper.

On account of such limitation we had not felt at liberty to have all of the sub-basement of the building placed in condition to be used. Portions of the sub-basement only have been placed in condition to be used. The south half of the east wing has been placed in condition to be used by the Highway Department, for offices and work room. It was contemplated that the south half of the west wing should be used as a storeroom for the Oklahoma National Guard, but this could not be done within the limitation as to expenditures of money, and for that reason the matter has been deferred. I recommend a sufficient appropriation to place the south half of the basement in the west wing in condition to be used as a storeroom for the milita National Guard Department. The Capitol Commission will secure estimates from the architects' superintendent and also the contractor and submit the same for your consideration as a guide in the amount to be appropriated, if, in your judgment, you should determine to make such appropriation.

CLAIM FOR CELLS IN THE STATE PENITENTIARY AT McALESTER.

It has been brought to my attention that, under the first state administration, the total contract price for the work of installing the cells in said penitentiary, was $4,785.00, which consisted of one contract with one item for $4,085.00, and another item for $700.00, making a total of $4,785.00.

The Pauly Jail Building Company claims that the $700.00 item has never been paid and is due on the Central Locking device which operates all doors in the rotunda from a central cage; that this could not be installed until the building was completed, and that when it was completed, the aprpopriation under which the contract was made, had expired. Messrs. Vaught & Brewer, attorneys of this city, represent the Pauly Jail Building Company, and presented this claim to the State

Board of Public Affairs, but there is no fund or appropriation out of which it may be paid. They also claim that another item in the sum of $408.50 is due on the original contract for receiving cells placed in the basement of the administration building at the State Penitentiary at McAlester; that these cells could not be placed until they were ordered in by the prison authorities or proper Board, and that when they were placed, and the company represented claims for payment ,the appropriation under which that contract was made, had expired.

I ask that you investigate these claims; and if you find such to be legal, just and valid claim against the State to that extent, whatever that may be up to the amount claimed, to make an appropriation therefor.

CLAIM OF FORMER PRESIDENT OF THE WOMEN'S COLLEGE AT CHICKASHA.

A claim is presented by J. A. Moore, former President of the Women's College at Chickasha, for unpaid salary, in the sum of $600.00. I ask that you investigate this claim and determine as to its validity and justness, and if you find that it is a valid and just claim against the State, to that extent, make an appropriation to discharge the same.

HOSPITAL FOR THE INSANE AT VINITA.

The State Board of Public Affairs writes me as follows:

"The Legislature of 1915, under Chapter 170, Senate Bill 369, made an appropriation which reads as follows:

"Section 1. There is hereby appropriated out of any money in the State Treasury not otherwise appropriated, the sum of $50,000.00 for the erection of a fire proof building for the East Oklahoma Hospital for the Insane, located at Vinita, Oklahoma, approved March 1915.

"We constructed this building in keeping with the appropriation, but you will note there was no appropriation made for equipment and other supplies to take care of the increased number of inmates. Before this building could be used, it was necessary to buy equipment and do other things necessary so that the building could be used. We furnish you herewith an itemized list of expenditures.

"The power plant being inadequate to supply power for

the additional new building, it was necessary for us to purchase a new boiler which we did, together with furniture equipment and other supplies as per list.

"Since the new building was completed July 1st, they have received 92 additional inmates, which will have to be provided for. Had the Legislature appropriated sufficient money or made their bill read 'Equipment for the new Building' same could have been used without using the support and maintenance fund. We purchased supplies and equipment as per list enclosed, and paid for same out of the support and maintenance fund.

"We recommend that an appropriation be made in the sum of $15,000.00 to reimburse the support and maintenance fund, in order to carry the institution up to July 1st, 1917.

"In 1915, the institution at Vinita was short of teams to cultivate their land. The penitentiary at that time had a surplus and they loaned the institution at Vinita ten mules and harness. In 1916, the surplus teams the penitentiary had were sent to the different counties for road working purposes, and the State purchased the farm at Aylesworth, which makes it necessary that the ten mules at Vinita be returned to McAlester to be used on the farm.

"It therefore becomes necessary that an appropriation be made to purchase ten mules and harness for the institution at Vinita, and we recommend that an appropriation be made in the sum of $2,500.00 to purchase the ten mules and harness."

I consent in writing to this as a deficiency, and recommend that appropriation be made to reimburse the support and maintenance fund.

COUNTY REGISTRARS.

The Extraordinary Session of the Fifth Legislature, in creating the office of County Registrar, made no provision for any compensation for him. The Act of February 26th, 1916, passed the same Session (Chapter 32, p. 88) provided that the County Registrar of each county should furnish to the Secretary of State a complete list of the names and post-office addresses of all legal voters in his county. This was a burden on these County Registrars. I requested that these lists be sent in

that the initiative publicity pamphlets might be mailed out to the voters of the state as contemplated by law, with the understanding that I would recommend to the Legislature an appropriation for them, for the work actually performed, and I so recommend.

SOUTHEASTERN STATE NORMAL.

The Fifth Legislature (Chap. 217, p. 444) under the head of Ed. S. Bennett, made appropriation for electric current furnished Southeastern State Normal, Durant, 1911 and 1912, Ed. S. Bennett being then Superintendent of the light plant owned by said city.

When this appropriation reached me I was under the impression that other towns and cities in the state had furnished the normal schools and the preparatory schools and the subordinate agricultural schools free lighting. Since then I have ascertained that such was not the fact. There is no other town or city where such institutions are located, that had a municipal lighting plant, but it has been the practice of such towns to furnish free water for such schools. The City of Durant has furnished free water to the Southeastern Normal. That being so, the Superintendent of the municipal light plant was entitled to have an appropriation made to cover the light items for the years 1911 and 1912. Since then the City of Durant has passed the following resolution, which I will have filed in the Secretary of State's office as a permanent record:

"Whereas, the City of Durant, Oklahoma, has a claim against the State of Oklahoma, in the sum of Fourteen Hundred ($1,400.00) Dollars, which was allowed by the Fifth Legislature of the State (Chap. 217, p. 444) under the head of Ed. S. Bennett, for electric current furnished Southeastern State Normal, Durant, 1911 and 1912, Ed. S. Bennett being then Superintendent of the Municipal Light Plant, owned by said City, and said item of appropriation having been disallowed by the Governor;

"Now, Therefore, Be it resolved by the City of Durant that; If the Legislature of said State will appropriate said item for the benefit of the Southeastern State Normal to be used for any purpose incidental to said institution and at the same time re-appropriate the unused portion of the appropriation for maintenance and otherwise for said institution for the biennium comprising the years 1916 and 1917, that the City of Durant hereby agrees to lease all further

claim against the State for said Fourteen Hundred ($1,400.00) Dollars, and authorizes the Mayor and City Clerk, after said appropriation has been made and used for the purposes herein indicated, to execute proper release in favor of the State of the consideration of One ($1.00) Dollar.

"Passed and approved by the Mayor and City Council of the City of Durant, Oklahoma, this 26th day of December, 1916."

I accordingly recommend that this appropriation be made for the sum of $1,400.00, the first half with interest at six per cent per annum from the 1st day of July, A. D. 1912, and the other half at the rate of six per cent per annum, from the 1st day of July 1913, the principal sum and interest to be available for any improvement or purpose incidental to the Southeastern State Normal.

As this is practically a grant and donation for the benefit of said school by said city, I recommend that the State appropriate an additional $1,400.00 to duplicate this donation, arising from the lighting claim. During the last year citizens of Durant purchased a tract of ground and caused it to be added to the original twenty acre site of the Southeastern State Normal, so as to enlarge the athletic grounds, for which the sum of $500.00 was paid, and this tract of land has been donated to the state. I recommend also that the Legislature appropriate $500.00 to duplicate that sum. I will recapitulate:

$700.00 for light for the fiscal year 1911, with interest from June 1, 1912 to Jan. 1, 1917, $192.50, Total	$ 892.50
$700.00 for light for the fiscal year 1912, with interest from June 1 1913 to January 1, 1917, $150.50, Total	850.50
Duplicate appropriation as to principal sum of	1,400.00
Duplicate appropriation for the land granted	500.00
Total	$3,643.00

Provided that no part of this appropriation shall be available to reimburse the city of Durant or any of the donors or any of the grantors of said fund or of said land, or that furnished the money to buy said land, but that said appropriations shall be available for equipment, improvements or any purpose incidental to Southeastern State Normal School.

I recommend that appropriation in said sum of $3,643.00 be accordingly made, and thus encourage the local enterprising and benevolent public spirit that characterizes the foregoing contribution for the benefit of this school.

Of the appropriation made for support and maintenance of the Southeastern State Normal for the fiscal year closing June 30, 1916, there was unexpended the sum of $2772.20. This was occasioned on account of the new President not being able to assume his duties until about the middle of June, just a few days before the closing of that fiscal year. The Acting President, after the election of the new President, left these funds to be expended by the new President for incidentals and equipment necessary for the school, intended in the making of the appropriations. Contracts for the expenditure of this fund for the necessary things, could not be well made before June 30, 1916.

I accordingly recommend that the said sum of $2772.20 be made available, appropriated by joint resolution, for equipment and incidental purposes of said school.

SUMMER NORMAL—UNEXPENDED BALANCES

Of the apropriations made by Senate Bill 389, of the Fifth Legislature (Session Laws, 1915, p. 134.) unexpended balances of such appropriations remain, to-wit:

Northwestern Normal	$1075.00
Central State Normal	1214.71
Northeastern State Normal	1320.00
Southwestern State Normal	1377.29
East Central State Normal	800.00
Southeastern State Normal	861.00

These sums were saved from the expenses of the 1915 summer normals for that year, but are needed to aid the 1917 summer normals. Accordingly, I recommend that such unexpended balance be by joint resolution, made available for such purpose.

STATE INSTITUTIONS

Hereto attached as Exhibit "B1," is report from the State Board of Public Affairs, under date of December 15th, 1916; also attached as Exhibit "C", is a supplemental report from the same Board. Exhibit "B1" contains reports from the Penitentiary at Granite, insane asylums at Norman, Supply and Vinita, Feeble Minded Institute at Enid, Colored Deaf, and Blind Institute at Taft, School for Blind at Muskogee, State Orphanage at

Pryor and Training School for Boys at Pauls Valley; also recommendations as to the Central State Normal at Edmond, College for Women at Chickasha, Northwestern State Normal at Alva, East Central State Normal at Ada, Southeastern Normal at Durant, Southwestern Normal at Weatherford, Northeast Normal at Tahlequah, School for Deaf at Sulphur, State Orphanage at Pryor, Boys Training School at Pauls Valley, Feeble Minded Institute at Enid, Colored Agricultural and Mechanical College at Langston, School for Blind at Muskogee, School of Mines at Wilburton, East University Preparatory School at Claremore, University Preparatory School at Tonkawa, State University at Norman, Colored Deaf, Blind and Orphans Institute at Taft, and the Insane Asylums at Supply, Vinita and Norman, the Confederate Home at Ardmore, and State Penitentiary at Granite.

Exhibit "C" refers to the Penitentiary at McAlester, which contains the report of the Warden and recommendations thereon. Attached as Exhibit "D" are reports and recommendations from the State Board of Education, as to the institutions under their jurisdiction. These reports and recommendations are incorporated as a part of this message, as they relate to the conditions of the affairs of the State.

Hereto attached is Exhibit "E" which is a communication from the President of the A. & M. College at Stillwater, submitting estimates and recommendations as to appropriations for the next biennium.

COMPARISON OF APPROPRIATIONS

Out of the revenues raised by taxation, the appropriations made by the Fifth Legislature for the fiscal year closing June 30th, 1916, are as follows:

State Departments	$1,424,899.67
State Institutions	1,830,051.94
Miscellaneous	79, 185.59

Additional appropriations made for the same period out of the trust funds for the support of the State Institutions 1916,

S. E. I.	$386,300.00
New College Fund	264,883.33
Total	$3,985,320.53

Appropriations made by the Fifth Legislature out of the funds arising from taxation for the fiscal year closing June 30th,

1917, are as follows:

State Departments	$1,252,953.47
State Institutions	1,956,009.34
Appropriations made for the same period out of the trust funds for the support of the State Institutions, S. E. I.	165,700.00
New College Fund	191,816.69
Total	$3,566,479.50

I recapitulate the appropriations recommended by the several Boards or Heads, for the fiscal years ending June 30th, 1918 and June 30th, 1919, for the following institutions:

	1917-18	1918-1919
University of Oklahoma, Norman	$400,000.00	365,000.00
Oklahoma College for Women, Chickasha	150,000.00	50,000.00
School of Mines and Metallurgy, Wilburton	23,980.00	23,980.00
East Central State Normal, Ada	46,593.66	43,655.36
Northwestern State Normal, Alva	50,200.00	47,100.00
Southeastern State Normal, Durant	46,593.00	43,655.00
Central State Normal, Edmond	80,000.00	80,000.00
Northeastern State Normal, Tahlequah	57,000.00	37,000.00
Southwestern State Normal, Weatherford	54,093.00	46,593.00

(Summer Schools.)

	1917-18	1918-19
Central State Normal, Edmond	$ 10,000.00	$ 10,000.00
East Central State Normal, Ada	5,000.00	5,000.00
Northwestern State Normal, Alva	5,000.00	5,000.00
Northeastern State Normal, Tahlequah	5,000.00	5,000.00
Southwestern State Normal, Weatherford	5,000.00	5,000.00
Southeastern State Normal, Durant	5,000.00	5,000.00
Eastern University Preparatory School Claremore	30,000.00	30,000.00
University Preparatory School, Tonkawa	94,701.16	50,750.00
School for the Blind, Muskogee	39,142.24	84,142.24
School for the Deaf, Sulphur	61,850.00	76,650.00
State Orphan's Home, Pryor	75,208.00	52,568.00
State Training School for Boys, Pauls Valley	65,100.00	42,700.00

Institution for Feeble-Minded, Enid	113,000.00	88,000.00
Colored Institute for Deaf, Blind and Orphans, Taft	86,656.00	50,656.00
Colored A. & M. University, Langston	50,497.00	41,497.00
Total	$1,559,614.06	1,288,946.60

The following appropriations are for institutions under the the jurisdiction of the State Board of Education.

	1917-18	1918-19
Hospital for Insane, at Supply	$ 134,000.00	$ 99,000.00
Confederate Home, at Ardmore	32,500.00	22,500.00
Oklahoma Hospital, at Norman	329,218.75	172,536.00
East Oklahoma Hospital for Insane, at Vinita	178,397.00	142,000.00
Penitentiary at Granite	220,400.00	94,500.00
Penitentiary at McAlester	649,500.00	332,000.00
Total	$1,544,015.75	862,536.00

The foregoing institutions are under the jurisdiction of the Board of Affairs, only.

A. & M. College, Stillwater	$453,348.00	$303,348.00
Medical College and Hospital	100,000.00	100,000.00

The total appropriations recommended by the several Boards or Heads, for the fiscal years closing June 3th, 1918, aggregate $3,656,977.81; for the fiscal year closing June 30, 1919, $2,554,830.60. For each year add $1,500,000.00 for expense of state government, and you would have right around $5,000,000.00 appropriated for the year closing June 30, 1918, and $4,000,000.00 for the year closing June 30th, 1919, if appropriations are made in accordance with the said recommendations.

CASH BASIS.

As to all current expenses, the State is now on a cash basis and has funds in the State Treasury, or available through levied taxes, to continue the same on such basis, including the reasonable expense of this Legislature. It is essential that such condition continue to exist. During the first six months of the year 1914, interest was paid by the State on outstanding warrants, because the funds were not in the Treasury to pay the same when presented, in the sum of $60,062.45; from January 1, 1916, to July 1, 1916, the sum of $7,313.69 was paid by the State on account of funds not being in the State Treasury to

pay the same when presented. Since July 1, 1916, the State has been altogether on a cash basis.

ESTIMATED REVENUE.

The estimated income for the fiscal year ending June 30th, 1917, other than ad valorem taxes, was $2,110,259.54. The total assessed valuation by counties and the amount of taxes charged to each for the same period, aggregate $2,497,623.44, making the sum total of $4,607,882.98, and it is estimated that, after all current expenses for said period have been met, there will be a surplus of at least $300,000.00.

It is earnestly desired by me that the ad valorem assessments shall not exceed two mills. In addition will be one-fourth of a mill for highways, and one-fourth of a mill for common schools, aggregating one-fourth of a mill to be apportioned back to the counties. It is my earnest desire that the appropriations to be made and the fixed charges to be made on the tax-payers shall be kept with a single purpose of keeping it within these limits.

UNION VETERANS AND SPANISH WAR VETERANS HOME.

The Grand Army of the Republic of the Department of Oklahoma, at its Twenty-sixth annual Encampment, held at Tulsa, Oklahoma, in May, 1916, passed the following resolutions:

"Whereas, Many of our comrades in this State, and the widows of some- have answered the last roll call, have reached an age where they can no longer care for themselves and have no relatives or friends upon whom they can depend, and

Whereas, it has been the policy in our neighboring States of the Nation, to build and maintain homes for such soldiers and their wives and widows, and

Whereas, our own State has provided for the Confederate veterans and their wives and widows, now, therefore,

Be it Resolved, that we respectfully ask of the Governor and the next Legislature, that provisions be made for the erection and maintenance of a home for Union Veterans and Spanish War Veterans, and their wives and widows, and

Be it further Resolved, that a Legislative Committee of three each from the members of the G. A. R. and the Span-

ish-American war veterans, to be appointed to prepare a bill and urge its passage at the next session of the Legislature."

(See Annual Journal, page 37)

I most respectfully recommend that provision be made for the establishment and maintenance of such Home, and that adequate appropriation be made for the continuance and support of the same.

I suggest that you consider the advisability of converting one of the existing State Institutions into such home.

CONFEDERATE HOME.

At the regular Fifth Session of the Legislature of this State, by joint resolution, the trustees of the Confederate Home authorized to sell a certain tract of land belonging to the Home, which was located in the City of Ardmore, but not contiguous to the Home. This has been done, and the money converted into the Treasury. The Home needs more land immediately contiguous, on which farming and agriculture may be carried on, to aid in its support. I accordingly recommend that you authorize the State Board of Public Affairs to purchase the thirty acres of land on which the Home is located, and appropriate the sum of $3,000.00 to be expended for such purpose. I further recommend for your consideration an appropriation in the sum of $72,000.00 annually during the next biennium, to be used as pensions for Confederate soldiers.

STATE HOME FOR THE AGED, INFIRM AND INDIGENT.

It is equally as high a duty for the State to look after its unfortunate, the infirm, the sick, afflicted and down and out, as much so as it is essential to educate the mind. The question of the care of the poor all through Anglo Saxon government and development has been a matter of local or municipal concern, but in modern development and efficiency in some states it is also being done through State agencies. In Massachusetts the matter of caring for the poor is of municipal or township concern, yet Massachusetts has a State Home for the aged, poor and infirm. In New York, it is a matter of municipal or county concern, yet New York has a State Home for the aged, poor and infirm. Through the agency of the State, a State Home can be maintained with adequate hospital facilities and other necessary facilities, at a less per capita cost as a rule, than by counties, except where large cities are located in such counties. It should

be provided that hereafter the counties are prohibited from maintaining poor farms, but permit the counties to make their allowance or give their assistance to the needy poor, where it is not necessary to take charge of them. But when a person is dependent in such a town, that he or she must be entirely provided for and maintained, let the county send that poor person to the State Home; a charge against said county to be provided. This plan is in accord with the modern plan of efficiency and humane treatment.

I recommend that you consider the advisability of establishing such a Home and of converting some State institution that is already existing into such a Home. The State can have its farm and its hospital and all the agencies to make such a Home a success without so much expense per capita as is occasioned by counties.

WEST OKLAHOMA ORPHANS' HOME.

The State Home or Orphanage, now located at Pryor, is full to its capacity. An orphans' home, in its work, is local in its nature. The office of this Home is not only to gather up dependent orphans and maintain them, but also to find a home for them among the citizenship of the State, when practical, and this can only be done in an efficient and practical way within a certain limited area adjacent to such Home. My observation is that this Home has never been in touch with the distant parts of the State, like the Northwest and the Southwest part of the State.

I recommend that you consider the advisability of converting some of the existing State institutions on the west side of the State that are not reasonably needed for the purpose for which they were originally intended, into an orphanage, to be known as the West Oklahoma State Home.

TITLE OF SCHOOL OF MINES.

On file in the Secretary of State's Office are certain instruments relative to the title of the School of Mines. One dated October 18, 1909, by J. W. Allen and W. C. Allen, wife and husband, conveying to the State of Oklahoma, for the consideration of $500.00, the west half of the southwest quarter of the southwest quarter of Section 8, Township 5 North, Range 19 East. Another from J. Poe and his wife, Audra A. Poe, made on December 31, 1908, wherein it conditioned that there shall be erected and maintained a school of Mines and Metallurgy on these lands by the State of Oklahoma, and the failure

by said State to erect and maintain perpetually a school of mines and metallurgy thereon, then in that event, said lands and all improvements, fixtures and appurtenances thereunto belonging, shall revert to C. O. Moore, W. H. Royce and E. F. Lester, who are therein named as trustees.

LAW ENFORCEMENT.

PROHIBITION AND GAMBLING LAWS.

The question of the enforcement of the laws, as to the violation of the prohibition and gambling laws of the State, is one that calls for the best of attention. Grave difficulties are encountered under the existing laws providing for such enforcement.

On April 25th, 1915, which was four months after the beginning of this administration, the following instructions were given to the Attorney General:

> "As to the enforcement of the prohibitory and gambling laws, you are hereby directed when such matters come to your attention, to make investigation, and to aid the local prosecuting attorneys in the enforcement of the same; and when you deem it necessary, in order for the faithful and proper enforcement of the laws, to appear in the county and district courts, for the purpose of enforcing the prohibitory and gambling laws of the State, you are hereby so authorized and directed, and this shall be ample authority for your appearance for such purposes."

This authorization has never been revoked. Under this direction, together with other specific directions, the Attorney General's office has held investigations before grand juries in the district courts of Payne, Creek, Tulsa, Nowata, Rogers, Seminole, Jefferson, and other counties, and aided in the prosecution in many criminal cases.

In the efforts made on the part of the Attorney General's office to vindicate such laws, it has been conclusively demonstrated that the present machinery provided for the removal of county and municipal officers, for failure to enforce the prohibitory and gambling laws of the State, is inadequate, especially in counties where the sentiment is againt the enforcement of the prohibition and gambling laws.

I most respectfully recommend for your consideration the lodging with the Supreme Court, original concurrent jurisdic-

tion with the district and other courts having such original jurisdiction.

HIGHWAY DEPARTMENT.

FEDERAL AID ROAD ACT.

On December 20, 1916, the Secretary of Agriculture wrote as follows:

"The Department has carefully considered the question whether the State of Oklahoma has, under its laws, a highway department within the meaning of that term as used in the Federal Aid Road Act. It appears that provision is made, by Chapter 173 of the Laws of 1915, for the creation of a Department of Highways, with authority to supervise all matters relating to State roads and highways, including the establishment of a State road system; prepare standard plans and specifications for the construction of roads and bridges, to be furnished without cost to any road official in the State; establish standards for the construction and maintenance of highways and bridges in the various counties, and perform certain other duties of an advisory nature. It is also authorized to co-operate with the Federal government in matters pertaining to the improvement of public highways, and all funds appropriated by Congress for the improvement of the public highways of the State are to be expended under the supervision of the Commissioner of Highways, who is made, by the statute, the executive head of the department.

While the Department of Highways seems to have supervision over the establishment of a system of State roads, it apparently lacks authority to select particular projects for improvement and to control the construction work. It is essential, among other things, that the State highway department have authority to agree with the Secretary of Agriculture upon the roads to be constructed under the Act and to exercise direct supervision over their construction. The department is, therefore, inclined to the view that, in the absence of legislation conferring additional authority upon the Department of Highways in these particulars, it will be impossible to undertake co-operation with the State of Oklahoma under the provisions of the Act. In this connection it is suggested that it would seem desirable to give the Department of Highways exclusive author-

ity to let the contracts for the construction of roads to be built in co-operation with the Federal Government since this would seem to facilitate its control over the work.

As it appears from your letter of July 24 last, that the State Legislature meets next month, it may be well to let you know at this time, in order that you may consider the advisability of appropriate recommendations in the matter, that it is the view of the Department, that each State assenting to the provisions of the Act obligates itself to provide funds for construction purposes sufficient at least to meet the total apportionment which will be made to it from the Federal appropriation for the full five-year period, and also to make adequate provision for the proper maintenance of the roads as required by the Act. It may be that the Legislature will feel restricted by constitutional provisions or custom from making appropriations for so long a period in advance, but it should at least, in assenting to the Act, pledge the faith of the State to carry out its share of the program of co-operative highway construction which has been authorized by Congress."

I respectfully recommend that the State, by proper joint resolution or Act, assent to the terms and conditions of the Federal Aid Road Act, and pledge the faith of the State to carry out its share of the program of cooperative highway construction, which has been authorized by Congress by said Act.

The said Act for federal aid in the construction of post roads, provides an appropriation available to the State of Oklahoma for the fiscal year ending June 30th, 1917, in an amount of $118,250.00, and for the fiscal year ending June 30, 1918, in the sum of $236,500. The Act provides that the Department of Agriculture of the United States is authorized to retain, for administrative purposes, an amount equal to three per cent of the entire appropriation, which reduces the fund available for the fiscal year ending June 30, 1917, to the amount of $114,702.50, and for the fiscal year ending June 30, 1918, to the amount of $229,405.00 The total sum being available for the biennium ending June 30, 1918, amounts to $344,107.50. This federal fund for the purpose of aiding in the construction of roads within this state can only be procured through the State Highway Department, and an equal amount has to be furnished to meet such amount as the

federal government supplies out of this fund to aid in road construction.

I respectfully recommend for your consideration, the appropriation of the sum of $344,107.50, to be expended through the Highway Department of this state under the supervision of the State Board of Public Affairs, in connection with the federal government in building roads in and through the State. I suggest that a part of this appropriation, to-wit: $114,702.50 be made immediately available, and that the $229,405.00 be made available after July 1, 1917. The net amount of said appropriation under said federal aid act apportioned to this state for the fiscal year ending June 30, 1919, is $344,107.50.

Attention is directed to the fact that the employes and help for the Highway Department, other than the offices of Commissioner of Highways, State Engineer, Assistant State Engineer, and one stenographer, have not been specifically provided for by statute, the additional necessary help being provided by a lump appropriation. In my judgment, as far as practicable, the necessary help should be provided by statute, and the salaries fixed by statute. I accordingly recommend the following additional help for said department:

1 Chief Clerk at a salary of $125.00 per month.

1 Chief Bookkeeper at a salary of $125.00 per month.

1 additional stenographer at a salary of $83.33 per month.

2 additional stenographers, each at a salary of $75.00 per month.

1 Enforcement Officer and Clerk at a salary of $100.00 per month.

2 additional clerks, each at a salary of $83.33 per month.

1 Draughtsman and designer at a salary of $100.00 per month.

The automobile tags for 1917 will be manufactured and furnished by the Oklahoma State Penitentiary at McAlester, but it will be necessary to make an appropriation to cover the cost of these tags, so that the Highway Department may pay the Penitentiary Department for the same. In addition, I recommend that you make reasonable appropriation for contingent and incidental expenses for the Highway Department.

The total vehicle tax collected between the dates from July 1, 1915, the date on which such provision became effective, to

October 1, 1916, was $656,688.63; amount disbursed to various counties representing 90 per cent of total Motor Vehicle tax collected $591,019.77, so the total amount earned by the Department of Highways and credited to the State general fund from July 1, 1915 to October 1, 1916, was $65,668.86. The total amount expended during such period by said department was $34,505.37, leaving an excess earned by it during said period of $31,163.49, which is available to be appropriated to bear the expenses of this department.

PRISONERS—WHERE SENTENCED.

Attention is called to the fact that the reformatory at Granite is a penitentiary just as much so as the prison at McAlester. Frequently prisoners are sentenced from counties on the inside of the State, to be confined at Granite and vice versa. This occasions unnecessary expense in the transportation of prisoners. It is respectfully recommended that a statute be provided so that the Judge will be required to sentence the prisoner to the nearest penitentiary.

SERIAL BONDS.

Under Section 26, Article 10 of the Constitution indebtedness may be created for a period of twenty-five years. Under this provision, the indebtedness may be evidenced by serial bonds maturing in amounts annually or at periods.

The Fifth Legislature of this State, in extraordinary session, (see Session Laws 1916, Chapter 22, page 30) with reference to bonds issued for the purpose of building bridges and roads, provided that they should be payable in equal annual installments, the first of which not more than one year, and the last, not more than twenty-five years from date of issuance. Such provision should be made to extend to all county, township and municipal bonds. Such bonds are more marketable and bring the higher premium in the financial markets. In addition, no sinking funds accumulate to bear less interest than the bonds, or to be liable to be dissipated. I respectfully recommend that provision be made to require all county, township and municipal bonds to be issued in the serial form.

TOWNSHIP BONDS.

The question as to the validity of township bonds has arisen on account of two distinct methods of government in townships,

in force in this state, the contention being made that in many instances the townships had been improperly abolished. In order to obviate these questions and remove all possible doubt as to the validity of township bonds, I suggest that statute be enacted providing that wherever the electors, by granting of authority of the Constitution and Statute of this state, vote and issue bonds in townships, under the person or boards at that time acting under color of authority, and without contest and possession of office and exercising the powers and performing the duty conferred by law on a board of township directors, whether such board be county commissioners acting for and on behalf of the township, or be a board composed of trustees and treasurer, that such elections are valid, and that the bonds issued pursuant thereto shall be incontestable, as to the point that they were not issued by the proper board. The Fifth Legislature in extraordinary session (see Session Laws 1916, Chapter 21) omitted to obviate this objection. The title of the act reads:

> "An Act entitled an act, validating the issuance and sale of township bonds, and declaring an emergency."

The contention has been made that the title is not broad enough to cover the future bond issues; that the title covers bonds theretofore issued, and not those to be issued in the future. I suggest that a comprehensive act be passed to remove this matter from the realm of doubt, so that such township bonds may be passed on as valid, and bring their highest price in the financial markets.

FUNDING OF COUNTY AND MUNICIPAL INDEBTEDNESS TO BE CONTINUED.

The practice in this state of issuing funding bonds to cover deficiencies by counties, townshps, and other municipalities, should be discontinued. By repeal of such authority, county, township and municipal officers would have placed upon them the double necessity of keeping the county, township or other municipality within the budget or tax levy. Then, if they did not, the necessity would arise the next year, to levy a tax to cover the deficiency and the taxpayer thus early apprised of the fact of the deficiency occuring the year before. Under the present practice, these deficiencies are covered up by funding bonds, and the busy taxpayer is frequently not aware of the fact that the county, township and municipal governments are run-

ning behind, and thereby causing to be placed mortgages upon such sub-divisions.

I recommend that such provision be repealed.

TAXES ON STATE CAPITOL LANDS.

As to lots one (1) to twenty-six (26) block five, Culbertson's East Highland addition, I find there are due as special taxes, the sum of $860.71. (See report of audit of records showing paving and sewer taxes on State Capitol property by State Examiner and Inspector, November 27th, 1916, file No. 4101-2, Record No. R-155.)

As to sewer taxes on lots (1) to twenty-six (26), block five (5), above referred to:

Amount of principal installment	$369.37
Amount of interest certified on principal installment	98.26
Delinquent interest at 8 per cent, 12-31-16	91.94
Penalty at 18 per cent to 12-31-16	301.14
Total	$860.71

I recommend that appropriation be made, by joint resolution, so as to stop this penalty. The fact that the sewer tax has not been paid on this land only recently came to my attention. The warranty of the grantors would not cover a special tax and the state will have to bear the same.

The Fifth Legislature, at the extraordinary session (see House Journal 1916, page 67, Senate Journal, page 73), made an appropriation to cover the paving taxes, including penalty on lots one (1) to twenty (20), Winan's Highland Terrace addition to Oklahoma City, including all payments due to July 1, 1917. I am advised that the amount of the principal installment of paving taxes due July 1, 1917, will be $521.88; amount of interest on same, $143.29; total necessary to pay 1917 paving taxes July 1, 1917, $655.17; amount of principal installment for 1918, $521.88; amount of interest on same, $107.59; total necessary to pay 1918 paving tax July 1, 1918, $629.47.

I recommend that an appropriation be made to cover these paving taxes so as to prevent penalties ensuing.

REVOLVING FUNDS

The Fifth Legislature, in extraordinary session, created revolving funds for the penitentiaries at McAlester and Granite. (Session Laws of Oklahoma, 1916, Chapter 37, p. 98, Chapter 40, p. 110).

These acts were passed after special recommendations made as to such matters, and are now in successful operation. (House Journal Extraordinary Session Fifth Legislature, p. 44; Senate Journal Extraordinary Session, p. 45.)

The Attorney General under date of June 7, 1916, construed both acts and held the same valid. (See opinion of Attorney General to the State Examiner and Inspector March 29, 1916; opinion of Attorney General to the Governor, June 7, 1916.)

When an amount is set aside as a revolving fund and thus impressed with a trust, it may be utilized in carrying on of such business, otherwise the proceeds from the sales therefrom, as for instance, dairy products, farm products of the different industries of the state must be converted into the State Treasury and cannot be drawn out except by act of the legislature. At the Women's College at Chickasha, a dormitory is being maintained. It is essential that a revolving fund be established for said dormitory purposes, that the proceeds derived therefrom may be utilized in the conducting of that dormitory business. The same applies to the hospital, maintained by the Medical Department of the State University in Oklahoma City, and the laboratory of the Chemical Department of the State University at Norman, and the dairying plants, farming and livestock enterprises carried on by the A. & M. College at Stillwater. The State Home at Pryor, the Institute for Feeble Minded at Enid, the Insane Hospitals at Norman, Vinita, and Supply; the Boys' Training School at Pauls Valley; School for the Deaf at Sulphur, Blind at Muskogee, and the Colored Orphans' Home, and Deaf and Blind Institute at Taft, and other institutions where enterprises are carried on where products are sold and the proceeds thereof are relied upon for maintenance and carrying on the business. To my mind, the only way that such enterprise can be carried on legally is by means of a revolving fund, otherwise the proceeds of the sales must be converted into the State Treasury and drawn out only by separate acts of the legislature.

I recommend for your consideration, the question of pro-

viding revolvong funds for institutions where industries are intended to be carried on.

DORMITORIES.

A boys' and girls' dormitory is at the A. & M. College at Stillwater, and a girls' dormitory at the Women's College at Chickasha. It has been recommended that an additional dormitory be provided at Chickasha. Free dormitories cannot be provided for every boy and girl in the state. To furnish free dormitories to a few at the expense of the taxpayers would be a discrimination. The theory of maintaining dormitories at the expense of the taxpayers can only be justified on the ground that these dormitories are intended for girls who have no high school facilities at home, but have to go away from home to have such advantages and on account of their tender age, their parents prefer them to be in dormitories where they can be under supervision that they could not otherwise have. That being so, a rental should be charged for each inmate so as to make the net aggregate equal to six per cent on the state's investment. To guarantee that this shall be paid, a general statute ought to be passed on this subject, providing that this dormitory rent shall be taken out of the annual appropriation for the institution and converted into the Treasury, as interest on the dormitory investment. This general statute should also provide that the dormitory capacity in state dormitories should be apportioned to the counties in accordance with their populaton, same to be applied for under the rules and regulations to be provided. It should be further provided that those should have first opportunity at the dormitory space who resided at places where they did not have high school advantages.

GEOLOGICAL DEPARTMENT.

The head of the State Geological Department asks for the following appropriations for the biennium beginning July 1, 1917:

	Year ending June 30, 1916.	Year ending June 30, 1919.
Office and incidental expenses	$ 2,000.00	$ 2,000.00
Printing	3,000.00	3,000.00
Field work	7,800.00	7,800.00
Salary of clerk and stenographers	1,680.00	1,680.00

Salary of director	2,500.00	2,500.00
Salary of assistant director	1,500.00	1,500.00
Salary of chemist	1,200.00	1,200.00
Salary of laborer	800.00	800.00
Salary of draftsman	1,200.00	1,200.00
Contingent expenses, postage, telephone, telegraph, freight and express	3,000.00	3,000.00
	$24,680.00	$24,680.00

This is an increase over the outgoing biennium of over $4,000.00. However, I recommend that the appropriation be made as requested by him. The great development that is going on in oil and gas and other minerals in this state renders that department one of the most important ones, and I do not regard his request as being unreasonable, and therefore recommend that the appropriation be made as requested by him.

The Fifth Legislature appropriated for the outgoing biennium $2,500.00 for each year for compiling, publishing and distribution of records of dry holes. The purpose of this appropriation was not called to my attention, and I was not sufficiently informed about the matter and when the general appropriation bill came to me for consideration, I disapproved every item about which I had any doubt. I resolved every doubt in favor of the tax-payer. Had I had the information that came to me some six or eight months later, I would have approved this appropriation. I now respectfully recommend for your consideration, the advisability of making such appropriation, but that the printing and distributing of the same to be put in the hands of the Geological Department of the State.

I recommended to the Fifth Legislature, the consideration of the question of devising ways and means of creating a marketing system through the Board of Agriculture. I so recommend again. (See House Journal, Regular Session, Fifth Legislature, Oklahoma 1915, p. 236; Senate Journal page 146.)

HOME OWNERSHIP FUND.

The Fifth Legislature enacted what is known as the Home Ownership Law. I recommend, for your consideration, the question of amending this law so as to permit the borrowers to pay off any part of said loan at any annual interest period, and that

the rate of interest be reduced to five per cent, making it the same as the first mortgage securities and the common school fund.

COMMISSIONERS OF THE LAND OFFICE.

The title and legal business of that Department has grown beyond expectation. Two Assistant Attorney Generals have been giving their entire time toward the legal work and title work of that Department, but were unable to keep up with such work. On December 29th, the Commissioners of The Land Office unanimously passed the following resolution:

> "Whereas, the Sixth and Seventh Attorney Generals have given all of their entire time toward the title and legal work of the Commissioners of the Land Office but because of the increased volume of business arising in said Department, and which has yielded a revenue to the state through the examination of titles by the Attorney General's Department, and which has been converted into the State Treasury for examining abstracts for the calendar year, 1916, amounting to $15,215.00, being the sum of $1267.50 per month, whilst the salaries of said two assistants per month amounts to only $425.00.
>
> Now, Therefore, We, the Commissioners of the Land Office, in order that the title and legal work of said department may be more expeditiously done and kept nearer up to date, ask the Attorney General to put on an extra man as Assistant in the Legal and Title work for the Commissioners of the Land Office, the same to be paid out of his contingent or incidental fund."

It will be observed that the revenue brought in by virtue of these two Assistants has been three times the outlay for salaries paid by the tax-payers.

I therefore recommend that you create an additional Special Assistant Attorney General's office to aid the Sixth and Seventh Assistants in the work for the School Land Department. It may be urged that the Attorney General has several Assistants, but it must be remembered that the Eighth Assistant is the Pardon and Parole Office, and when that office was created the office of Pardon and Parole Officer in the Governor's Office was abolished. It must be further borne in mind that when the Sixth and Seventh Assistant Attorney Generals were created, that three places consisting of two title examiners and a protest clerk, were

abolished in the School Land Department. At that time these two assistants were equal to the legal and title demands of that Department. Now the volume of business has increased so that an additional assistant is necessary, and for that reason, the recommendation is made.

NORMAL SCHOOLS.

There appears to be a tendency to convert the normal schools into colleges. The purpose of the normal schools is to educate teachers and prepare them for work as teachers, and that is what the land grant and trust fund were created for. Provision should be made to confine the attendance at normal schools to such purpose, other than to provide a training and kindergarten normal school of that district, including the summer term, unless department, to train the teachers. The theory of having six normal schools in the State, is with a view of meeting the needed training of teachers by districts. That being so, the districts should be created by legislative act for each normal school and persons residing in such districts should be required to attend the a transfer is granted by the State Board of Education. By this means the State will avoid the unnecessary expense occasioned by the activities of the different normal school Presidents sometimes invading the other's territory, seeking students from such territory of other normal schools, to show greater enrollment.

Normal schools should be equipped to meet the needs of their districts and duplication in equipment and buildings will then be avoided. This conduces to a complete normal school system, educated by normal school districts, with a finishing, when desired, in the Department of Education at the State University at Norman, or at the A. & M. College at Stillwater.

SUMMER NORMAL.

By Act of May 22, 1913 (Session Laws 1913, Article 11), normal institutes and teachers' training courses are provided to be held by the county superintendents of public instruction, annually in their respective counties, for term of not less than two weeks nor more than four weeks, ending on the last Friday of June, July or August.

Section 2 of said Act provides that where such county superintendent deems it to be to the best interest of the schools of the

county, the county normal institute may be dispensed with, and there shall be substituted in lieu thereof, a teachers training course of not less than two weeks and not more than four weeks in which special training shall be given for the teachers of such county, by persons specially prepared for such instruction.

Section 5 provides that:

> "To defray the expenses of such institute session, the county superintendents of public instruction shall require the payment of a uniform fee of not less than one dollar, nor more than three dollars, by each person entering said institute and enrolling; they shall further require the payment of a fee of two dollars by each applicant for a teachers' certificate; and in addition to such sum, the county commissioners shall, upon recommendation of the county superintendent of public instruction, allow a sufficient sum, not to exceed two hundred dollars for each institute to be paid out of any funds of the county not otherwise appropriated."

At each of the six normal schools of the State a summer normal and training course is conducted for the benefit of the teachers of the State. The summer term is pre-eminently a teachers' term, just as every other term of a normal school should be, and in the great majority of the counties of the state, the county normal courses have been discontinued, and the teachers taken this work at the courses maintained at the several normal schools. It appears to me that it would be wise and best to repeal that part of Section 5, which authorized and directs the county commissioners to allow a sum not to exceed $200.00 for each institute to be paid out of the county funds not otherwise appropriated, and to make a direct state appropriation for the maintenance of the summer normals at the several normal schools. With the normal schools districted and ample provision made for the maintenance of the summer normals for the attendance of teachers where they can have proper training courses, the object for which normal schools were founded, will be attained.

At the same time the appropriation from the county treasurer to maintain county normals, being eliminated, we can have concentrated efficiency in the summer normal work at the various normal schools of the state, with very little additional cost to the tax-payers.

I respectfully recommend for your consideration, the advisability of making such provision.

TERRACE WALL AND GROUNDS AT STATE CAPITOL.

It will be necessary to improve and terrace the Capitol Grounds. To accomplish this, terrace walls out of granite must be constructed. Every cent, reasonably possible should be saved in doing this. Every dollar saved in making this improvement is needed for building additions to eleemosynary or educational institutions. If we save sums of money by using convict labor in the building of these terraces and terrace walls, we will have that money saved, available to construct buildings at the eleemosynary and educational institutions, which will give other labor employment. Mr. S. A. Douglas of the Capitol Commission and M. L. Cunningham, State Engineer, have made investigation and report to me that the quarries at the State Penitentiary at Granite are available for getting out stone to build the terrace wall at the Capitol Building, in sufficient quantity of uniform and suitable color to make or finish the entire wall, and enough more of lighter color to finish the trimming the area of walls as to match the granite used in the Building proper. The Penitentiary at Granite is equipped and is being equipped for such work. The plant there gets out crushed granite for concrete and road work, and granite for building the east wing of the penitentiary, and the walls around the penitentiary, which are in process of construction.

I respectfully recommend that you consider the question as to constructing such terrace walls on the Capitol by means of convict labor and utilization of the granite from the State quarries at Granite, Oklahoma, for the purpose of building these granite walls. Every dollar that we are able to save in this improvement by using convict labor, can be utilized in constructing buildings at the eleemosynary and educational institutions, which are badly needed. The state finances are not now in condition to permit appropriations for constructing all the buildings needed and required at these various state, eleemosynary and educational institutions. So every dollar saved by utilization of convict labor, will be needed in building other institutions where other labor must be employed. In addition we will be evolving the plan for the ultimate purpose of putting the penal institutions in this state, in such condition, that the state will be able to pay the convicts when they labor, a partial compensation for their work, and enable them to accumulate something upon which to come back again, after their discharge to support their families or those dependent upon them while confined.

CAPITOL COMMISSION EXPENSES.

Hereinbefore I have called your attention to the necessity for a deficiency appropriation in the sum of $153,561.80 to replenish the appropriation for the construction of the Capitol Building. That covered items up to the 29th day of December. It appears to me that it would be advisable to make a straight appropriation for the expense of the Capitol Commission and its incidentals, and to discontinue the practice of paying such expenses out of the appropriation for the Capitol Building proper. It appears now certain that the Capitol Building will be completed and delivered to the State by July 1, 1917. When that is done, the term and tenure of the Capitol Commission ceases by operation of law, but until that time the Commissioners draw per diem and expenses when called into service. I have called the Commission in session to keep them here available and on duty to inspect the construction of the building, perform all necessary duties, and also await the meeting of the Legislature to give the Legislature or any of its committees, desired information. For that reason, I recommend the an apropriation, say in the sum of $5,000.00 be made to meet the expenses of the Capitol Commission to be available to reimburse the original Capitol appropriation for any expenses or incidentals drawn on that fund for the Capitol Commission after December 28th, 1916.

RENT APPROPRIATION DISCONTINUED.

On account of the completion of the Capitol Building, July 1, 1917, no appropriation is necessary for rents for state offices. All that is obviated and saved to the state.

TAXATION.

INCOME TAX.

The Fifth Legislature (Session Laws 1915, Chap. 164) enacted an income tax statute which provided that, on or before the first day of March of each year, each person liable for an income tax under said provisions, should file with the State Auditor a sworn return of his net income for the year ending December 31, last preceding, upon blanks to be prescribed and furnished by the State Auditor; and, further, that, upon failure, refusal or neglect to make such return as required, should be punished by a penalty of $100.00. The Act further empowers the Auditor to prescribe and promulgate rules and regulations to carry out the provisions of the Act.

This Act should empower the Auditor to examine persons, under oath, after notice, as to their incomes and examine papers and other witnesses deemed expedient as to such matter.

Income taxes are not in force in half of the States of the Union, and it is insisted that the present graduated rate has had the effect of causing persons with large incomes to take up their residence in States where no income taxes are levied, or, at least, where they are, very low rates prevail.

I respectfully recommend for your consideration the advisability of amending the tax law, to provide definite machinery and procedure for ascertaining who are liable for such income taxes, and also to consider the advisability of reducing the graduated maximum rate.

I also recommend for your attention, that the revenue laws be amended, so as not to tax stocks of foreign corporations owned by residents of this state, when taxed in the place of the domicile of such corporation.

ROBBERY BY MEANS OF FIRE ARMS AND EXPLOSIVES.

On account of the agency of the modern high power automobile, the criminal has been enabled to swoop down upon communities in this State, hold up citizens and rob banks and other places and burglarize such places at night, fire arms, nitro glycerine and high explosives being used to accomplish such ends, to such an extent that it becomes a menace to the state.

I recommend that the maximum punishment for a conviction in such instance be fixed by law at imprisonment for life or death by electrocution, to be left to the determination of the jury, the minimum punishment to remain as it now is.

Further, it is respectfully recommended that the same appropriation be made for offering rewards, as has been made for the biennium closing June 30, 1917, and that, in addition thereto, an appropriation of $5,000.00 be made to be available on warrants drawn by the Governor, by which he may employ secret service men to apprehend such criminals.

FISH AND GAME.

During 1915 and 1916, earnest efforts have been made through that Department to enforce the fish and game laws. We

feel warranted in saying that marked progress has been made in that respect.

Two fish hatcheries have been located and established through that department, one at Medicine Park. This consists of twenty acres of land in fee owned by the State, and forty acres on the military reservation, use for that purpose being granted by the federal government. This hatchery will consist of sixteen ponds, and will be ready for the distribution of fish during the fall and winter of 1917. The other hatchery is located on the Blue River, near Armstrong. This hatchery consists of sixty acres owned in fee by the state; fourteen ponds completed. It is contemplated and expected that between 200,000 and 300,000 fish will be available to be distributed from that hatchery during the fall and winter of 1917. These hatcheries were not located until after the places had been inspected and approved by the Superintendent of the federal fish hatchery at Neosho, Mo., as suitable and proper sites; he having been assigned by the Bureau of Fisheries at Washington, for that purpose, on my request. It is the purpose of the game and fish department

in the early spring to inaugurate a campaign to get the farmers in the State to prepare ponds and artificial lakes for the propagation of fish, with the assurance that the State will be ready to supply and distribute to them fish for such purposes under rules and regulations which should be prescribed by law. In addition, the Fish and Game Department will be ready then to distribute fish in the streams over the State to propagate fish and replenish these waters where, in many instances, they have become almost depleted.

I recommend also that the sum of $2,000.00 be appropriated from the fish and game fund, as available to offer rewards for the apprehension of game and fish violations.

STATE HOSPITAL

The Medical Department of the State University, is now located in rented quarters. The University Hospital is rented at an annual rental of $6,000.00 (House Journal, Extraordinary Session, 1916, p. 169, Senate Journal, p, 184) and the Emergency Hospital from Oklahoma City, at an annual rental of $1,800.00, making in all $7,800.00. The Medical College is now in the B-Class, and in order for it to be in the A-Class, which is the

class desired, it is necessary for the State or College to own its own building or hospital.

I quote the following editorial from the Journal of the Oklahoma State Medical Association, January, 1917. No. 1, Vol. 10:

"Among the important items Governor Williams will suggest to the Legislature, is an appropriation of $200,000.00 for the purpose of building a state hospital to be controllled by the Medical Department of the State University. It is said that a part of the fund will be used for building, the remainder for equipment. Incidental to the appropriation is contingent an offer of Oklahoma City to deed to the University the University Emergency Hospital, a modern structure already in occupancy and use.

Governor Williams takes the view, and in that he has the hearty agreement of all thinking persons, that an important part of a university is its ability to train people in all proper branches of endeavor, that medical education is one of the important functions of the state and its university, that if we are to have a medical department, it should be the best our energy, brains and money can create, and that we should not take a secondary place in medical education, any more than in legal, agricultural or other education.

We should not forget the plight of the graduates of our school in certain events or what the State owes the graduate in the way of standard, efficient education and training.

The grading of the medical schools has been a slow and laborious process, and has finally come to the point that the term 'Class A, B', etc., is a positive fixing of class, observed and respected by practically all the State Boards of Examiners of the Union, in fact, the class is nearly definitely recognized and specifically mentioned in many state laws, if not mentioned in name, other description is given, whch means the same.

Oklahoma has long been assigned to 'Class B', an assignment not relished by high-spirited, finely equippped members of our profession and the proposal to build a state hospital for the school is a definite move to get out of that class. One of the requirements for a college to enter class 'A' is that the school should directly control and operate a hospital of not less than one hundred beds. If this appro-

priation passes, our University will have such a hospital, and in that achievement will have overcome the greatest obstacle, in fact, the only real one left to meet.

"It should be understood that this proposed hospital will not be for the benefit of any particular locality, but for the good of all the people of the State. As has been aptly pointed out by Governor Williams, it will be an important investment—an investment that will pay priceless dividends through the preservation of the health of our citizenship; through the development and the practical application of means looking to the prevention of disease, and through the tremendous conservation of energy and of life itself by taking care of our indigent sick.

Oklahoma City has a number of hospitals, with great capacity, equipment and ability, but the institutions are not heavily endowed and are in the creative state, more or less. The City of Oklahoma itself, willing and ambitious to excel in all things, has a great bonded indebtedness to care for; necessary extensions in all directions must be made, so far as their local improvements call for, and looking at it from that standpoint, the people should hardly expect them to carry all the burden of maintenance of an institution which will be maintained for the double purpose of caring for the needy poor who will be referred to it for treatment from any secton of the state, and at the same time maintained as a center of constantly growing worth and necessity for the higher medical education of our youth.

The clinical advantages of such an institution to our student body cannot be overestimated, on the other hand, the very great advantage accruing to our indigent and worthy sick, cannot be estimated. As the matter now stands, they are treated by every system imaginable, by the competent and incompetent, mostly the latter.

The medical profession should know that Oklahoma appropriates, compared to other states, a very small sum of money per capita, for support of education. We have lately had the enviable distinction of being pointed out as the worst example of a state failing to give her university the support deserved--in the comparative lists we stand at the very bottom. With this we should not forget that of the

sums appropriated, the lion's share goes to work along other lines than medical education.

We cannot conceive of a more favorable time for the advancement of healthy conditions than that immediately before us. The state administration is unequivocally committed to it, and considers the establishment of a strong medical department of the State University, the first fundamental step in that direction. Would the people---not to say the medical profession--of Michigan be willing to give up Ann Arbor? Would Massachusetts do away with Harvard? Would the people of Maryland be willing to see Johns Hopkins destroyed. At this moment we have the opportunity to lay the foundation of an institution such as these. We have but to stretch forth our hands and grasp it. Up, therefore, each one, and to his whole duty in this undertaking which means much for the future weal of our commonwealth."

In accordance with the recommendations of the State Board of Education, I submit for your consideration, the advisability of appropriating $200,000.00 to provide permanent quarters and adequate hospital facilities for the medical Department of the State University, conditioned that Oklahoma City will grant to the State, the Emergency Hospital and the land upon which it is located for a nominal but valid consideration. This $200,000.00 may be appropriated one-half to be available for the fiscal year closing June 30, 1918, and the other half for the fiscal year closing June 30th, 1919. The first half can be used for the construction of building and hospital, and the other half be utilized for equipment and laboratory. This hospital building should be built on state land now owned by the State, located in the City. With such a hospital and with such a laboratory, together with that of the Emergency Hospital, the Medical Department of the State University would have a plant worth $300,000.00. The Medical School would be recognized everywhere as being in the First Class, and on an equal footing with Tulane, Johns Hopkins, University of Chicago, Columbia and the other great schools of our country.

I recommend this for your consideration.

HOME FOR INCORRIGIBLE GIRLS.

The State owns no institution or home at the present time for wayward white girls. Such charges are now being taken care of under contract. That is not satisfactory. The State

ought to own such an institution and control it. I therefore recommend that suitable provision be made for the establishment of such institution and suggest the consideration of the question of converting some of the present state institutions that may be found not necessary, into such a home, so that such building may be utilized for such purpose without placing additional charges upon the tax-payers, other than the question of maintenance.

I recommend that you consider this matter.

TRAINING SCHOOL FOR NEGRO BOYS AND NEGRO GIRLS.

The Fifth Legislature provided for the location of a Training school for Negro Boys at McAlester. The question arises as to whether or not it is best for the State to keep them there. The building that was built for them, is needed for the convicts known as trusties at the McAlester Penitentiary. I herewith attach as Exhibit "F", report from J. H. Lilley, Superintendent.

The State Board of Affairs, under date of January 2nd, writes as follows:

> "We have recommended that an appropriation be made in the sum of $25,000.00, for building, and support and maintenance for the negro boys to be moved to Taft, as we believe that is the proper place for them."

Said Board has also recommended that provision be made to prepare a place at Taft (where the other eleemosynary institutions for the negroes are located), for a training school for the incorrigible negro girls. The State Board of Public Affairs thinks that efficiency and economy will be brought about by this arrangement; that the boys can be used to cultivate the farm attached to the institution for the negro orphans and deaf and blind. This view is reached, both with a view of getting efficiency and economy. The fixed charges for superintendent and supervisor will also be proportionately less.

ELECTIONS.

Our primary election laws should be overhauled, and a system adopted by which the voters may be permitted to express their choice in such a way that the party nominee shall be the choice of the majority of such voters.

In the course of this session you shall receive all the aid which the law contemplates I shall give in the dispatch of the public business, and all the information necessary for your deliberation, which is available at my hands.

From time to time I shall communicate to you, information and recommendations as matters may arise and the occasion requires.

REPORT OF THE STATE BOARD OF PUBLIC AFFAIRS TO THE GOVERNOR.

December 28, 1916.

Hon. R. L. Williams, Governor, State of Oklahoma,

Oklahoma City, Okla.

Dear Sir:—Herewith we hand you three copies of our report of the Institutions coming under our management. with the exception of McAlester, which report we will work up today and submit to you.

One copy of this report is for your office, one for the Speaker of the House of Representatives, and one for the President of the Senate.

Yours very truly,

STATE BOARD OF PUBLIC AFFAIRS.

By J. M. AYDELOTTE,
Chairman.

A. N. LEECRAFT,
Secretary.

A. N. WILCOX,
Vice-Chairman.

JMA—STR

Oklahoma City, Okla., Dec. 15, 1916.

To His Excellency, The Governor,
Oklahoma City, Oklahoma.

Dear Sir: We, the members of the State Board of Public Affairs, beg leave to submit the following report of services rendered the State since our appointment on the State Board:

We have devoted our entire time to the duties of this office in an endeavor to give the State a business administration, and in this we have been aided materially by the co-operation of the heads of the various departments coming under our jurisdiction.

Realizing the condition of the market of the various commodities used by the State, we were convinced that there was to be an advance in the price of all character of merchandise used by the State. We commenced buying goods for future shipment last January, realizing the market an exceedingly difficult one to operate upon, the price of all kinds of goods advancing almost daily. When we take into consideration also the highly unusual industrial conditions in the United States, the situation becomes even more complicated. The United States is experiencing the greatest commercial boom in its history, the foreign countries taking all the merchandise they could buy, and this has stimulated home demand. The result has been great prosperity furthered by low interest rates in the East. There is really no safe prediction as to the future as long as the war lasts—the present situation will probably continue to exist, and many think that even after the war our inflated market will not be decreased for a considerable period of time. Furthermore, the known shortage in the cotton crop to be used in the coming year means, definitely, that there will be no low prices of manufactured products from the present raw material before a new crop is grown.

Last January, such well known firms as Ely-Walker Dry Goods Company, Rice-Stix Dry Goods Co., Simmons Hardware Co., Samuel Cupples Woodenware Co., Smith-McCord Townsend Dry Goods Company and Sanger Brothers, commenced buying all character of goods for future delivery. We used the above-named firms as barometers to go by, knowing they kept high salaried men in the Eastern markets the year around to purchase goods for their institutions. We desired to profit by their long experience in the mercantile business, and we give you a few items that we purchased for future shipment:

The first purchase was 6,000 blankets at $1.70 each for October and November deliveries. Anticipating the condition of the market we tried to buy additional quantity of the same blanket, or more of the same quality on December 2nd for shipment next October and November. The lowest bid we received was $2.30 each on the same quality of blanket. The purchase made at that time gave the State a profit of $3,600.00, which was more than one year's salary for any one member of the Board on this one purchase. Had we waited, as has been the custom heretofore, to purchase when requisitions were sent in, we would not have been able to make this purchase and get the goods delivered.

We also purchased 50,000 yards of overall goods for March and April deliveries. These goods advanced, within thirty days

before goods had been delivered, 3 cents per yard, or a profit of $1,500.00.

We also purchased 2,800 pair of shoes for September and October deliveries. Before delivery was made these shoes had advanced 70c. a pair, or a profit of $1,960.00 to the state.

On June 5th and 6th we purchased leather for shoes for nine month's supply at the Penitentiary, McAlester. On November 1st, the time of delivery, the State had a profit of $3,560 by the advance in leather.

On June 5th we contracted for 5,000 dozen thread at 42c. per dozen. Thread had advanced by November 1st to 52c. per dozen, a profit of $500.00.

June 5th and 6th we purchased 215,532 yards of various kinds of goods for clothing for the various institutions, for October and November deliveries. These purchases were made on the basis of the cotton market on June 5th and 6th, which was 11c. When goods were delivered in October and November the cotton market was 18 1-2c. to 19c. and we had a profit of $4,845.21.

At the same time we made purchase of various kinds of merchandise, such as underwear, discharge suits and winter clothing for October and November deliveries. Before these goods were delivered the advance in the market gave the state a profit of $10,977.69.

We have contracted for 295,000 yards of various kinds of dry goods to be delivered commencing in May, 1917, and ending July 1, 1917. Since this contract was made the same grade of goods has advanced to where the state has a profit of $7,630.50.

These purchases and contracts have been made with reliable firms and confirmed by the manufacturers, so there will be no question of deliveries being made between May and July, 1917.

Space will not permit us to show all of the items,—could fill a book with them, so have just given you a few.

We have purchased all the groceries and provision for three months' supply.

The system we have put into effect, of purchasing goods, has been very satisfactory, and has been a great saving to the state.

Under our management we find the following results:

Comparative Statement of per capita cost and support and Maintenance of Penal and Eleemosynary Institutions, for fiscal years ending June 30, 1914, *and June* 30th, 1916.

The buildings and grounds of this Institution were bought on appropriation of the Fifth Legislature, for $100,000.00, whereas, the contract, prior to that time was $200,000.00 annually.

If this property was owned by a corporation on an investment of $100,000.00 the amount of dividends, annually, would be 40 per cent, and which now goes to the benefit of the tax payer.

NOTE:—In 1916, 185 inmates at lower cost to the state than 119 inmates in 1914.

Summary.

Of nine institutions covered in this statement, on basis of number of inmates in such Institutions for fiscal year ending June 30, 1916, we find a saving in cost of maintenance of $240,-717.48 and an increase in cost of maintenance of one Institution over the year 1914, of $14,080.22, leaving a total of saving to the tax payers of the State, for the fiscal year ending June 30th, 1916, over the fiscal year ending June 30th, 1914, of $226,637.26.

This saving has been brought about in the face of greatly increased cost of living and increased number of inmates in the Institutions; is the result of earnest effort on the part of those in control, to produce on our own premises, as much produce and food as possible, for both man and beast. Another great source of revenue is the good stock with which the various Institutions have been equipped. The Hospital for Insane at Norman, boasts of the finest herd of Jersey cattle in the State, having in same

the champion cow of Oklahoma, who in 12 months furnished milk 13 1-2 times her own weight and 678 pounds of butter.

Orphan's Home, Pryor.

Cow barn, bake shop and new store building, $2,580.00.

Southwestern Normal School, Weatherford.

General repairs on building, $7,000.00.

The experience of one member of the Board in connection with the steel manufacturers, before he was appointed on the Board, taught us to believe that the steel market would advance—which it has.

We made contracts for re-inforced steel for the buildings for which the Legislature made appropriations. The contract price for re-inforced steel was .0245 per pound, and before delivery was made the market had advanced to .0394, an advance of .0149 per pound in less than 60 days.

At the same time we contracted for all classes of machinery, electric motors and, in fact, all kinds of equipment made from steel, iron, brass and copper, which has advanced all the way from 40 to 100 per cent since the contracts were made. Had we waited until we needed the material, we would have had to pay the advance in price, and besides, wait from six to ten months for delivery. The steel and iron market is such that the manufacurers will not make a contract and specify the date of delivery. A concrete example of what we are up against is this: In May we bought machinery for making automobile tags for October 1st delivery. The manufacturer made shipment Nov. 5th. This condition prevails in all kinds of goods manufactured from steel, iron, brass and copper.

REPORT OF STATE REFORMATORY, GRANITE, OKLA.

To The Honorable State Board of Public Affairs,

Oklahoma City, Oklahoma.

Gentlemen:—I beg to submit herewith report for the fiscal year of 1915-1916 and four months of fiscal year 1916-1917. Although I assumed duties of Warden on September 1st, 1915, my report embraces two months prior to my appointment.

During this time it is a well known fact that the cost of food and subsistence has steadily gained in price until now it is full fifty per cent more than at the time I assumed charge of the institution. And although this is true we have kept the cost of subsistence down to about what it was when I assumed charge, and for the entire length of time less than it was for the previous year, and we have been enabled to do this by steadily increasing the amount of food furnished from the farm of our own raising and eliminating every item of waste that is possible. We are now furnishing about 55 per cent of our total food supply from our farm, and during this period of time I have never purchased a can of condensed milk or a pound of butter or oleomargarine, and have furnished over $2,000 worth of meat killed from our live stock department. We have also made soap from the ofal from this department. And during the present year put up near 1,000 gallons of molasses, which was formerly purchased in the open market.

It will be borne in mind that this institution owns only 320 acres of land, and deducting from this the grounds for buildings, barns, and 30 acres of granite mountain, the draws and waste land, leaves us only about 200 acres for cultivation. Although in the year of 1914-1915 we cultivated 1,600 acres, and the present year some less, we were compelled to pay rental in cash to the State School Land Department, and the customary one-third of grain and one-fourth of cotton to owners. For the first year this amounted to more than $5,000.00 and for the second year about $3,000.00, and in addition to this we exchanged labor for rentals, putting up hay on shares, clearing and ditching land in exchange for rental. The state should have at least 2,000 acres additional land, and I desire to say the Penal Institutions throughout the United States are rapidly acquiring additional land and devoting more of their time to agriculture, and I desire to recommend that provision be made for the purchase of this land as nearly adjacent to this institution as practical.

New Buildings Needed and in Process of Construction.

Prior to the time I assumed charge of this Institution all goods, fuel and freight were hauled by wagon from the Rock Island station one and one-fourth miles distance, and through a contract made by you the construction of a railroad was begun, and completed after I assumed charge. This railroad serves to haul all car load freight and carry out the granite rock and products of the quarry, which is situated between the station and the prison. The rails and materials to construct this track, to-

gether with the second hand crushing equipment was purchased under contract with the Rock Island Railroad Company to be paid for in rock and products of the quarry, and during the first eleven months of my administration this was comyletely paid for and during fourteen months of my service we have shipped over twelve hundred car loads of rough rock to the Rock Island Railroad Company. In the meantime we have produced rubble stone, and have dressed same in our cutting sheds of the quarry necessary to complete two extensions to the Kitchen and Dining Room building, to erect two concrete silos of 320 tons capacity; large cow barn and 20,000 bushel granary; new blacksmith and machine shop, completed the north line of wall 18 feet high, which will enclose ten acres of ground, and have crushed rock for the foundation of the entire wall, and also excavated and put in the foundation for the East Wing Building and north wall of same above the first window course 20 feet high. A crude ginning plant, without cleaner or hullers, was first constructed by my predecessor, and now we have a modern two-stand ginning plant with all necessary equipment.

The small crusher which was bought as second hand material under contract with the railroad company has been renewed and is doing splendid work. Although our business has entirely outgrown this plant, which has a capacity of about 80 yards per day, we have now purchased from our earnings a new modern crushing plant, which we are now engaged in installing, where we are extending switches and tracks necessary to turn out and produce 15 cars of crushed rock daily. Crushing of granite rock was an experiment when we undertook the work, and we had to feel our way gradually, both in its production and in the market condition, but we find that the political subdivisions of the state are demanding this material for road building, bridge piers and concrete culverts, and although it is extremely hard to crush, requiring extra powder and labor, and manganese machinery and great care in its preparation, yet it is so superior to any other material of this kind now being produced in the southwest, there is a great demand for it on this account at a price in excess of what is being paid for more inferior grades of material.

We found buildings unplastered, unpainted, and in a crude and unfinished condition, all of which work we have executed and are now busy prosecuting work on the East Wing of this building in order that we may not be so crowded in sleeping quarters.

We find that the floor space which we have, per capita, is only about sixty per cent of similar floor space kept by the prisons throughout the country. And we find from our experience in the erection of these new buildings that we are building better buildings with the labor of the inmates, under competent superintendents, than was built by the contractors on the first buildings erected here, and even at the present high cost of materials, we are executing this work for about 65 per cent of the former cost of contract work.

Cottages for Employees Necessary.

The Institution is situated one and a half miles distant from the town of Granite, which makes it extremely inconvenient for employees to go to and from their labor, especially in cold and muddy weather, and because of the fact that we have the materials and labor necessary to construct the additional buildings, we regard it as essential that some buildings be erected near the grounds for the accommodation of the employees of the institution, and these can be erected from earnings of the institution.

A building to house small factories of the Institution, such as broom factory, canning factory, overall and shirt making department, shoe repairing department, tin shop and wood working department will be necessary. And a building for hospital, chapel and auditorium combined, mule barn and implement sheds are all highly necessary.

In assuming charge of the Institution it has been my policy to endeavor to produce everything that the prison consumed, food, clothing, bedding, etc., and with the installation of these small factories, and with increase of our farming operations there is no doubt that we can nearly do so during the next biennial period. We could not only obliterate the necessity of buying these supplies, but in making them ourselves we find we can make better articles for less money, and at the same time teach the inmates a trade and enable them to become self-sustaining, the lack of which we find to be the cause of their downfall, in fully one-third of the cases.

Institution is Now Self-Sustaining.

On an accounting basis charging the state at the same rate that we charge the public for materials which we produce, together with the income from our live stock and farm department, the institution has for the past three months produced and received as much money as has been appropriated for the maintenance of the institution, and we claim the distinction of being

the first institution in Oklahoma that is on a self-sustaining basis. And while we feel a pride in this fact we consider it as much less important than the fact that the conduct of the prison has improved to such an extent that the number of reports being filed monthly for violation of rules of the prison is not more than 20 per cent of what it was for the former biennial period, and so far as we have been able to ascertain, out of a total of 316 men discharged in the past eighteen months, only seven have been reincarcerated for felony offenses, and nine for misdemeanors. If we knew positively that there were not others, we would be justified on the basis of these figures of claiming a distinction that is extremely rare, if not unequaled. And, although we have farmed 1,600 acres of land and men have worked out in the open air and about the prison premises without being surrounded by wall, we have had only three men at large during a period of fourteen months.

Waterworks Most Essential Need.

With the installation of our new quarry and additional factories and the increase of population that will come from erection of the new wing, the consumption of water for the institution should, during the next biennial period, almost double our daily consumption of about 60,000 gallons, and we beg to submit separate from this report three plans for your consideration as the water problem must be finally and definitely settled at the earliest possible date, as during the past year we were at a point where we were almost compelled to shut down for the want of necessary water for the institution. Of the three plans of available source of supply, each will require about $25,000.00 for the permanent solution of the water problem, and I desire to recommend and insist that necessary appropriation be made by the legislature convening in January, 1917, for the installation of this system, for it will be impossible to successfully conduct this institution without the addition of this very important and essential feature.

Financial and Statistical Report of Chief Clerk.

Honorable Boone Williams, Warden.

Observations and Recommendations.

We desire to impress upon the public that the Oklahoma State Reformatory is not a Training School, or a place for misdemeanor convicts, but is in every sense of the word a penitentiary.

It will be observed from the foregoing data that in this institution more than 75 per cent of the prison body received have

been prisoners less than 25 years of age, and for sentences ranging less than five years, more than half of the number are sentenced for less than three years.

You will realize that to take young boys without any vocational education, without any trade experience and very little education in school of letters, and for a maximum sentence of three years, and an actual sentence of one year, nine months and fourteen days, giving credits for good time, it is very hard to teach them a trade, to train them to work and to be useful the short length of time they remain here, and for this reason it would be unfair to expect an institution to make the same showing that would be made for prisoners older with experience and for longer terms ranging up to life time. It would be readily observed that blacksmiths, machinists, electricians and concrete men and skilled labor is very hard to find in a body of this kind, and as soon as a short term prisoner is trained to do these things his term is out and then we are compelled to train others to fill their places, and although Chapter 57 of the Session Laws of 1915 provides that prisoners may be sentenced to this institution under exactly the same conditions they are at McAlester, yet the Judges of the State almost invariably sentence young offenders to this institution and older ones to the McAlester Penitentiary, regardless of location, vocation, physical condition or proximity to the prison.

Name Reformatory Not Understood.

The name Reformatory apparently is misleading, not only to the public at large, but even to some of the Judges of this state, for we have more than once received letters from judges indicating that they were of the opinion that misdemeanor offenders might be incarcerated here. And from the table it will be seen that we have handled one prisoner sentenced for two months, and seven for 6 months, and when it will be borne in mind that the law requires us to pay to each discharged prisoner $5.00 in cash, his railroad fare, which averages $7.50, and his discharge clothing, $10.00, and then to feed and clothe him and otherwise care for him sixty days, from a financial standpoint it has cost the prison more than his common labor would be worth in the open market. We receive letters daily which indicate that the parents of prisoners sentenced to this institution think that they are sent to school, and the peace officers of this state invariably address us as a Reform School, and even students of the Normal Schools of this state and high schools of the state have addressed a number of letters to us making inquiry about the school. For

this reason we take it that the name "Reformatory" is misleading to the public generally, and it certainly is not known that under the present law we are in every sense of the word a State Penitentiary, operating under the same rules and regulations, and the same law as the State Penitentiary at McAlester. While it is true that in the Eastern States most of them have laws which require boys less than 30 years of age shall be sent to the State Reformatory, yet the wisdom of such a law has always been doubted by me. In answer to a question by a writer on Penology I recently used the following language:

"I think that a Reformatory should be that Penal Institution in every state where the better element of prisoners are sent by committment directly from the bench for an indeterminate sentence, which sentence should expire when, by the efforts of the prisoner, it can be said that he has mastered a trade, and his vocational training is sufficient to support himself, and his work in a school of letters has been sufficient to put him beyond illiteracy and able to care for himself in the ordinary affairs of life. The greatest care should be given by the judge in weighing these sentences, and no man who is a recidivist or a vicious type of criminal, or who the judge believes from the character of the crime, could not be reformed and reclaimed to society by such training and education, should ever be sentenced to an institution of this kind. But such should be incarcerated in the penitentiary proper for a fixed term as provided by statute. This method of separating criminals would force the judges to sentence all who would avail themselves of the indeterminate sentence to the Reformatory, while those given the statutory sentence would be sent to the penitentiary. The question of age should have nothing whatever to do with a man's confinement in either of these prisons, but the character of the individual and the crime, his previous reputation and disposition should have all to do with determining in which of these institutions he should be incarcerated. The youth needs the companionship of the older heads, provided they are not hardened criminals, and the older heads need the rejuvenating influences of the youth, while the institution needs the combined judgment, skill and vocational knowledge, and often times the labor of both the old and young in order to make the institution self-sustaining, and when a prison body is thus combined, to my mind it is a better combination than to separate the young from the old, or to use any other age standard or limit. The primary object of a reformatory being to teach a man a vocation, better education and to fit him to sustain himself in life, to teach him the dignity and necessity of labor and finally return and reclaim him to society

a better and more fit person, then it should follow that the necessary facilities to execute and bring about this object should be provided. These facilities would include small factories, with a manual training instructuor. Agriculture should be engaged in sufficiently to produce everything in the way of food that the climate and surroundings would permit. Bedding and clothing should be manufactured, and in fact everything that is consumed by the institution that it is possible to produce.

"There should be a school of letters with a competent instructor, with a sufficient library and reading room adjacent, and trades journals that pertain to the daily avocation of prisoners should be subscribed for and kept on hand. The necessary hospital and sanitary conditions, dining room and culinary department, bath and laundry as a matter of course should be an example to them of cleanliness, with a Chapel and Auditorium where religious and other services should be conducted, should be one of the main features. A picture apparatus should be installed where instructors might have its use in illustrating valuable information which they are endeavoring to impart.

"Live stock and poultry, as a matter of course, should be a part of such institution. The Bertillion room should be in charge of the best man obtainable, and every possible mentality test, and careful records made of everything that is possible to obtain concerning the family history and life record of each prisoner. This work is contributing more to the correct analysis of social evils than everything else combined, and while many things that have been attempted in these lines have not met with success, yet the possibilities are great, and is worthy of the very best effort that can be put forth.

"Prison managers confirm my observation that crime is now being committed by young offenders less than 25 years of age in the main, and it is a tremendous indictment to the neglect of parental care, and the dissolution of the old fashioned home with its ties and environment, that today young offenders are taking the places of older heads of the past.

"There should be a publicity department with every such institution and it is surprising how little tax payers and citizens of the commonwealth know of the work being done in these institutions. Every inmate should be made to know and understand that by his own acts it will be determined as to when he will be discharged, and only by his acts and close application in a school of letters, as well as manual training, his work record, cleanliness in his habits and demeanor, making up his record in

this manner, will determine when he will be discharged, and when he has procured sufficient merit marks from this source, it should then be mandatory upon the Pardon and Parole Department to issue to him his release because of his achievement. It is impossible for a judge to sentence a man from a busy, crowded court room, on a plea of guilty or otherwise, and determine absolutely what should be done with him, but in a well directed institution, when he has been measured by the standard of industry, application, mental and spiritual progress, improvement in personal habits, a basis can be formed for determining when he should be released. And experience has shown that where this has been properly done that the probabilities are that he will cease to be a public charge and source of annoyance to the peace officers of his community.

"The young offender is the product of the broken and divorced home, absorbing the street talk and frivolous amusement of the day, without any vocational training or education, and with no word of encouragement from a whirling and going populace, he finds his way as inevitably to the criminal harborage, as a floating cork to the whirl of Niagara. Thirty-five per cent are mentally or physically defective, 35 per cent have no means of support, and have never been taught that productive work is the basis of well being of every human being, 15 per cent are weak and vaccillating, and the remainder have had the sins of their fathers visited upon them even to the third and fourth generations. This will never be fully corrected until the American parents realize the grave responsibility they hold to their offspring, and a realization that the building of home is the social center and habitation of those who would have love in its true temple and abiding place, where labor and industry is enacted and impressed as the motor power of all human achievement, and truth and virtue are enshrined in the hearts of every child, and luxury and wastefulness, extravagance, frivolous amusement and false pride give way to saving, self-sacrifice, independence and honor.

"Experience in prison management leads us to the conclusion that our fundamental educational system should eliminate some of the classes and mental embellishments for the substitution of vocational training and methods of self-sustenance. What to do with the boy in the small towns who has not the proper home training or environment has engrossed the attention of social welfare workers. To them I would suggest the establishment of community clubs provided with bath, books and study courses, amusement that will meet with the approval of these

good people, who should preside over them to make them attractive to all classes and conditions of the young."

Salaries of Prison Employees Should be Increased

The federal government, recognizing that the high cost of living has increased 50 per cent, has taken the lead in increasing the pay of those who serve them, and to pay a man who is competent to direct these poor unfortunate criminals, in assuming the responsibility of not only guarding them securely, but of guiding and correcting them, $60.00 or $75.00 per month under existing conditions is wholly inadequate, and it seems that the public as well as the law makers do not realize the character of the work performed and the essential elements that are necessary to conduct this work, and that a man possessed with these necessary qualifications is competent in private life to earn much more, and that as a general rule a man who can afford to accept the present wage provided by law does not possess the qualifications that are so essential and necessary to the success of penal institutions. It is a well known fact that the longer a man stays in work of any kind, the more proficient he becomes, and for that reason some inducement should be made by the State to keep competent men in this line of work. And my recommendation would be that the wage of each man be increased ten per cent per annum for each year that he remains in the service until he has reached a maximum fixed by law. This work is of too grave importance to be affected by political changes or personal beliefs. And when it is considered that one out of every 150 men are charged with crime, and one out of every 400 stands a convicted felony prisoner, and that the young are becoming the fruit of the toll of criminal practice, and that this source of expense to the tax payers of the commonwealth is among its largest items, then it will begin to appear how extremely important this work is and what its relations are to society. And those who administer it should be adequately remunerated.

PHYSICIAN'S REPORT OF MEDICAL DEPARTMENT.

Honorable Boone Williams, Warden:

I have the honor to submit herewith report of the Medical Department of this Institution for sixteen months ending October 31st, 1916.

We have had no epidemics of any character, and I doubt if there is a prison of similar population in the United States with less sickness than we have. This may be accounted for by the fact that every prisoner has an abundance of outdoor exercise and fresh air, in a splendid climate where the altitude is over Fifteen Hundred feet above sea level, and where sanitary conditions are above the average.

Total Number Received and Examined by me from July 1st, 1915, to October 31st, 1916.....	321
Total Number physically disabled when received.....	103
Total Number Feeble minded	12
Total Number Received and Treated in Hospital from July 1st, 1915, to October 31st, 1916, including 33 received for surgical operations	194
Total Number Cured and Discharged from Hospital....	193
Total number of Deaths, result of gunshot wound in abdomen	1
Daily average received in Hospital from July 1st, 1915, to October 31st, 1916, 1-3 man per day.	
Total Number making Sick Call in Dispensary, including doses of medicines of all kinds, and all cuts, sores and bruises, etc., dressed in Dispensary from July 1st, 1915, to October 31st 1916.....	28,635

Daily average making Sick Call 59
Total Number vaccinated for Typhoid, from July 1st, 1915, to October 31st, 1916 258

Total Number vaccinated for Smallpox from July 1st, 1915, to October 31st, 1916 122

The number of feeble minded as shown above would include those of mentality ranging from 6 to 10 years of age (or those that would be incapable of self-government).

There would possibly be 50 in addition to this that would range in mentality from 10 to 15 years of age.

Those classed as physically disabled would include those not capable of doing any and all classes of manual labor, as a result of some physical defect.

Those received in hospital for surgical operation were cases of major surgical interference as a result of injury, diseases, or some physical disability.

Those received in hospital for other causes not mentioned was for acute trouble such as La grippe, colds, dysentery, malaria, rheumatism, etc.

Probably 95 per cent of our work is for a brief space of time in the dispensary, and probably a dose of medicine, a treatment of skin eruption, or a bandage after which the prisoner is enabled to proceed to perform his daily duties.

We have had numerous analysis made of the drinking water and we continually make inspection of the sanitary condition of the premises, which we regard as above the average. Of course, the old frame buildings are gradually giving way to those constructed of rubble granite work, and as fast as this is done the danger from unsanitary surroundings is being eliminated.

GEO. W. WYLIE, Prison Physician.

DEPARTMENT OF MORAL & RELIGIOUS INSTRUCTION.

Chaplain's Report.

Honorable Boone Williams, Warden:

On the 19th day of September, 1914, I assumed my duties as Chaplain of the Oklahoma State Reformatory, where I visit the Institution daily reading the incoming and outgoing mail, conversing with prisoners and rendering them such service and

assistance to better their moral and spiritual conditions.

During this time there has been provided a well bound volume of the Holy Bible, which has been placed in each cell and rooming apartment of each prisoner and several surplus volumes in the reading room.

On each Sabbath services are conducted and during the year we have had many ministers of various denominations, and other good religious people who have visited these services and assisting my work materially. During the time I have been here we have had twenty-six baptisms, and although we have no regular Chapel at this time, which I feel should be provided at the earliest time possible, yet the results accomplished have been noteworthy.

On last Mother's Day a splendid service was held and the Warden gave to each prisoner an extra letter to be written to mothers or near relatives, and a perusal of these letters showed a remarkable result.Local ministers assisted in conducting the service, which was a good one, and the best that has been held at the Institution. Respectfully,

HOWELL SMITH,
Chaplain.

REPORT OF OKLAHOMA HOSPITAL FOR INSANE.

VINITA.

To the State Board of Public Affairs:

Gentlemen: In compliance with your request of recent date I herewith submit a detailed report of the operations of the East Oklahoma Hospital for the Insane for the year of 1916, with a financial statement covering the fiscal year 1915, also, tabulated statements of patients treated during the year and the condition of the Hospital and recommendations.

I feel that the past year has been the most successful from every standpoint since the opening of the institution four years ago. All of my assistants have given faithful service and have helped maintain at all times a high grade of efficiency. The patients have had better food and care than before, as we have been able to have a full force of nurses and the food purchased has been of a better grade and a larger variety.

We have had very little acute illness in the Hospital and our death rate has been low. We have had no suicides during the year and few accidents. One patient, an epileptic, wandered from the grounds, is supposed to have had a seizure, fell in the water and drowned. The local authorities, State Lunacy Commission, your Board, and the man's relatives were promptly notified.

On account of the protracted drouth this part of the State suffered, our crop was very short this year, but at that, we succeeded in raising almost enough feed to supply us during the year.

Health and Sanitation.

The health and sanitation of the hospital has received very careful attention during the past year and less illness has occurred and the death rate has been less than any year since the institution has been opened. Every effort has been made to perfect the sanitary surroundings; all garbage is quickly removed from the grounds, all buildings are completely screened and we have had no serious epidemic during the year, have never had a case of Typhoid fever since the opening of the institution and only one case of Dysentery during the four years. We always have a number of cases of Tuberculosis in the hospital and a tubercular ward should be provided so that all cases can be isolated and given open air treatment. Would also recommend that suitable wards be built in this building for the care of cases of Pallagra as we always have from 10 to 25 cases in the hospital the year 'round and they should be isolated from the other patients. We are convinced that proper hygiene and diet are most essential in the cure of these cases as shown by our greatly reduced death rate and our number of recoveries of patients suffering from Pellagra.

Diet.

The policy of your Board in purchasing a high grade of food

supplies has benefited the institution a great deal and I feel that no hospital in the Southwest gives its patients any better or more varied diet than is given at this institution, we now have less complaint of the food served than at any time. Each building having its own kitchen, the food is better prepared and served. We have installed food carriers that keep the food which is carried to the different wards hot so that warm meals are served to all patients.

Amusement.

Experience has proven that amusements, entertainments and games which are maintained and encouraged for the patients, are healthful restoratives and aid in their recovery. With this in view we have given special attention to this line of treatment. During the winter months we have moving pictures each week and a dance twice a month. Various home talent plays and entertainments are given from time to time by the good people of Vinita and are always enjoyed. Croquet and Quoit grounds are provided and are always occupied during suitable weather.

Mechanical Department.

The mechanical force has been very active and the whole heating, lighting, ventilating and sewer systems have been overhauled and put in first class order. As is well known to your Board, we have a problem in the water supply at this institution —we have so many chemicals in the water that it destroys valves, pipes and plumbing fixtures in a very short while. The life of the best pipe is only one year and all valves have to be repaired after three months' service. This is causing us an expenditure of about $3,000.00 a year and is increasing each year, and I would recommend that an appropriation be made to lay a pipe line to Cabin Creek, one and one-half miles east of the institution, and a dam be placed here to give us a permanent water supply. We would then only use the artesian water for drinking purposes.

Commitments.

The tendency to commit aged and feeble patients and paupers to the Hospital instead of caring for them in their homes and County Poor Farms still exists. This is an imposition on the State, as it keeps the hospital crowded and the care these patients take should be given to the mentally sick. On the east

side of the State many of the Counties do not maintain Poor Farms, but send such patients that would be inmates of same to this hospital. We cannot refuse them entrance and as most of them are bed patients, cannot get them out when once received. Two patients were committed from one of the East side Counties about two months ago, a note came with them stating they were not insane but had become such a burden on the community they decided to send them here and asked that we be good to them.

Criminal Insane.

We now have in the institution almost fifteen patients classified as Criminal Insane, some being transferred from the State Penitentiary and others being committed here by the District Judges of the various counties in our district. It is likely that the other Institutions have a like number of patients that should be classified as Criminal Insane.

Many of these patients are violent and dangerous characters, some of them having committed cold blooded murders. They are a constant menace to the other patients and to the attendant having them in charge and responsible for their safe keeping. It is only a matter of time until they do violence to some of the attendants. They are sane enough to realize their confinement and shrewd enough to attempt escape whenever the opportunity presents itself. After being in the hospital for a time they learn that the attendants must care for them as they do other patients and know they will not be punished for infraction of the rules of the Institution and they continually make trouble in the wards and have a bad effect on the discipline of the insane patients confined with them.

The hospital has neither cells nor strong rooms suitable for their detention or safe keeping. The average criminal insane is not always responsive to good treatment and are constantly watching for an opportunity to do injury to other patients or those having them in charge so there should be erected, at once, at one of the State Hospitals, buildings suitable for the care of this unfortunate class of patients. I do not think the penitentiary a place for these people as they are mentally sick; however, it is certain the State Hospitals cannot give them the proper care under existing conditions.

Hospital and Receiving Building.

The last Legislature gave us an appropriation to erect a

Hospital and Receiving building and same has been completed and is now occupied. This building is of reinforced concrete and brick and modern in every respect, has four wards, two dining rooms, kitchen, drug room, laboratory, three office rooms and a modern operating room. This building has a capacity of 125 patients.

Dairy and Poultry Appropriation.

The last Leislature also gave us an appropriation of $10,000 with which to install a Dairy and Poultry Farm. We have expended for dairy herd, $5,051.42, and now have a herd that supplies the Institution with an abundance of milk and next year will have a surplus of cattle to sell. We now have six registered Holstein cows with which we hope to build up a registered herd, also thirty-two head of grade Holstein cows, seventeen grade Jersey cows, thirteen 2-year old Jersey heifers, two registered Holstein bulls, one Jersey bull and forty Holstein and Jersey calves.

We erected a modern concrete dairy barn which houses forty cows, also contains two bull pens, a maternity pen, a calf pen and three feed rooms. We have installed Louden equipment and the barn is modern in every respect. We also built a concrete silo, 16x32, with a capacity of 160 tons, and a sheet iron hay barn with a capacity of 250 tons.

In the poultry department we have erected a hollow tile and cement brooder house which contains an incubator basement of 2,000 capacity, one large storage room for feed, etc., and two rooms for poultryman, eight colony houses of 100 capacity each, one modern brooder house of 2,000 chick capacity, with steam heat and running water, also two modern laying houses of 500 capacity each.

We have on hand 1,750 White Leghorn chickens which will supply the institution with sufficient number of eggs. We hope to hatch several hundred chickens this year and will be able to supply some of the other institutions with a foundation flock of chickens.

I wish to call your attention to the fact that all of these buildings and improvements have been built with an expenditure of $4,730.35 and was made possible by doing all the work with patient labor.

Farm Land Needed.

More land for farming purposes is needed at this Institution. The State now owns 750 acres, of which 400 acres are in pasture and mow land, leaving only 350 acres in cultivation. During the past year it was necessary that we have more pasture and meadow and I would suggest that an appropriation be made to purchase 350 acres of additional land.

I wish to take this opportunity of thanking your Board for their hearty co-operation and interest they have shown me in my work during the past year. I am,

Yours very truly,

(Signed) F. M. ADAMS,

F. M. ADAMS, Superintendent.

REPORT OF INSTITUTE, FEEBLE MINDED, ENID, OKLAHOMA.

Enid, Oklahoma, November 25, 1916.

State Board of Public Affairs,
Oklahoma City, Oklahoma.

Gentlemen:—

There was appropriated for this institution for the year ending June 30, 1916, the sum of $18,000.00 for salaries, same being account No. 1—1916 fund. We have a balance in that fund of $475.52. For maintenance for the year was appropriated $27,000.00, same being account No. 2—1916 fund. In this account we have a balance of $531.89. Will also say that we turned into the State Treasury the sum of $2,055.47, same being for maintenance collected by this institution for the fiscal year.

The Legislature appropriated the same amount for the year ending June 30, 1917. Account No. 1—1917, the sum of $18,000.00 for salaries. Account No. 2—1917, the sum of $27,000.00 for maintenance. In order to finish out the year, it will be necessary that we have enough money to carry us for maintenance and salaries for the last three months, owing to the fact that the last Legislature appropriated $50,000.00 for buildings, which were ready for our use July first of this year. We began to take in new children the first of July and have an increase in patients of one hundred forty, and there was no money appropriated to care for this increase in patients, total 332, or to pay the salaries of the attendants to care for same. It will be necessary, therefore, that we have the sum of $15,000.00 to carry us on from April 1st to June 30, 1917

I will recommend that we have for maintenance for the year ending June 30, 1918, the sum of $40,000.00. And for salaries, which includes teachers, nurses and attendants, employees and all salaries, the sum of $27,000.00. And for the year ending June 30, 1919, I recommend the same amount. For maintenance, $42,000.00, and for salaries $25,000.00.

If we are able to care for anything like the number of children who are wanting admittance into this institution, I will recommend that we have at least $50,000.00 for buildings and equipment.

It is very necessary that we have a water system, as we have

only a temporary water system at this time and it is very inadequate.

Our laundry is also very small and too small to care for the amount of work that we have to do, so I will recommend that we have $25,000.00 for water system and laundry.

Yours very truly,

(Signed) W. L. KENDALL, Superintendent.

REPORT OF STATE INSTITUTE OF DEAF, BLIND AND ORPHANS, TAFT, OKLAHOMA.

State Board of Public Affairs,
Oklahoma City, Oklahoma.
Gentlemen:—

By direction of Secretary A. N. Leecraft, I herewith submit report of work of this Institute since my last biennial report:

This property consists of:

101 acres of land valued at	$ 5,000.00
One brick building (Girls' Dormitory) valued at	35,000.00
One frame building (Boys' Dormitory) valued at	1,000.00
One frame building, superintendent's residence, valued at	1,800.00
One light and heating plant valued at	3,000.00
One modern barn, valued at	3,100.00

Farm.

As shown above, our farm consists of 101 acres and is entirely too small to give proper employment to the large number of boys living at this Institute. The Superintendent, with advice and consent of the State Board of Public Affairs and Dr. F. B. Fite, resident member of the State Board of Education, rented 180 acres of land, which he planted to wheat and oats. We harvested from this land 2467 bushels oats and 809 bushels wheat, a plentiful supply for all our wants.

In addition to wheat and oats, we have raised 300 bushels Irish Potatoes, 400 bushels Sweet Potatoes, 380 gallons syrup, canned 452 gallons of tomatoes and made 10 barrels of Kraut.

We have 62 hogs all told and will kill 5000 pounds of meat this winter.

Because of the abundance of our farm and garden produce we have been able to furnish for food for an average of 186 children at a cost of less than six (.06) cents per day, and are now feeding 203 children at an average cost of three cents and six mills per day (.036).

While we are able to furnish healthful and profitable employment for our boys, the same condition does not obtain with regard to the girls. We are doing something toward training them to become breadwinners, but not enough. We need an Industrial building wherein our girls will receive practical training in everyday house work—cleaning, cooking, sewing, etc. This is not possible as we are now situated.

Appropriation.

Our appropriations for each of the fiscal years 1916-17 was $25,666.00 and covered every item of expense, including salaries.

In view of the pressing need of an Industrial building for purposes above stated, I respectfully ask that the Board of Education recommend to the proper authorities that we be allowed $30,000.00 for the year 1917-18 and the same as we now have—$25,666.00 for the year following, 1918-19.

Very respectfully,

(Signed) J. R. JOHNSON, Superintendent.

Muskogee, Oklahoma, November 24, 1916.

State Board of Education,
Oklahoma City, Oklahoma.
Gentlemen:—

Complying with your request in your letter of September 28th, that I furnish the Board an estimate of the funds required for the period ending June 30, 1919, I respectfully submit the following:

MAINTENANCE FOR THE BIENNIUM ENDING JUNE 30, 1917.

While not required to make a statement of the expenditures for the biennium through which we are passing, I preface my recommendations relative to future appropriations with an itemized statement wherein I shall acquaint the Board with the manner in which this institution has been and is being conducted.

This statement will enable the Board to judge the merit of my recommendations.

Appropriated for the biennium beginning July 1, 1915, and ending June 30, 1917, $76,000.

Available for the year 1915-1916.		$40,000.00
Expenditures:		
Salaries	$15,949.49	
Drugs and Medical Attention	167.53	
Laundry	1,685.50	
Telephone, lights and water	650.25	
Fuel	963.26	
Groceries	4,840.29	
Household supplies	620.09	
Office supplies	333.19	
Postage	238.00	
Insurance and advertising	7.00	
Drayage and freight	99.27	
Feed	261.63	
Permanent improvement and equipment	10,995.45	
Incidentals and repairs	580.18	
Traveling expenses	571.40	
Pupil's expenses	491.78	
Departmental expense	1,101.74	
Live Stock	356.80	
Printing	83.38	
Total expenditures		$39,996.23
Unexpended balance		3.77
Available for the year 1916-1917.		$36,000.00

On October 1, 1916, I balanced the accounts of the institution and the following table shows the expenditures for the first three months of the present fiscal year:

Expenditures:	
Salaries	$ 3,179.88
Laundry	50.10
Telephone and telegraph	36.20
Lights and power	78.87
Groceries	1,364.53
Household supplies	173.05
Office supplies	29.10
Postage	37.00
Advertising	.50

Drayage and freight	2.87	
Feed	219.38	
Permanent equipment and improvement	1,658.50	
Incidentals and repairs	212.34	
Traveling expense	83.33	
Departmental expense	309.12	
Live stock	62.50	
Printing	32.77	
Total expense	$ 7,530.04	
Unexpended balance October 1st		$28,469.96

Observation.

It will be seen that of the $40,000 available for the fiscal year 1915-16, all but $3.77 was used. Of the $36,000 available this year, unquestionably every penny will be needed and spent, and the largest precaution and economy must be exercised in order to conduct the institution the present fiscal year within the limits of the appropriation. By reference to our recommendations concerning appropriation for the biennium 1915-16—1916-17, it will be seen that $40,000 and $36,000 were named as the amounts necessary to conduct the institution with no increased enrollment, and $45,800 for 1915-16 and $41,800 for 1916-17, if the attendance was increased through the provision of a new dormitory. The Legislature provided a new dormitory which increased our enrollment 33 per cent, but failed to give us the additional $5,800 with which to meet the larger expense of an increased attendance. As is our custom, no protest or howl was made, and we did the best we could with the $40,000, and are doing the best we can with the $36,000 to handle an enrollment of 114 pupils. This statement will throw light upon the conduct of the institution the present biennium and will favor our estimates of the cost of the next two years' maintenance.

Recommendations.

Before listing estimates for the fiscal years 1917-18 and 1918-19, I wish to state with emphasis that time and care have been employed in preparing estimates, and the Board is advised that no so-called "padding" has been done, which means that if less than what is asked of the Legislature is given, the School for the Blind will suffer. Our estimates are based upon expected attendance of 150, which enrollment must be provided for in new buildings or many blind children denied an education.

MAINTENANCE APPROPRIATION FOR THE BIENNIUM BEGINNING JULY 1, 1917, AND ENDING JUNE 30, 1919.

Trees and grounds	700.00	
Permanent equipment and improvement	4,000.00	
Required appropriation for maintenance		$48,000.00

The Governor, the Board of Public Affairs and our representatives to the Legislature are agreed that additional lands lying East of the Institution should be purchased. In a conversation with Governor Williams, I suggested that an appropriation be made covering a partial cost of lands to be acquired, and that I would, through the interest and generosity of Muskogee citizens and other friends throughout the State, raise the balance of the money required. The land we would purchase can be had for $3,000.00, and is especially desirable for this institution.

I recommend:

That $50,000.00 be appropriated for the addition to, and completion and equipment of, the Main Building.

That $44,000.00 be appropriated for the erection and equipment of two fire-proof cottages.

That $3,000.00 be appropriated for the purchase and installation of laundry equipment.

That $2,000.00 be appropriated toward the purchase price of additional lands.

That $48,000.00 be appropriated for maintenance 1917-18.

That $48,000.00 be appropriated for maintenance 1918-19.

Respectfully submitted,,

(Signed) O. W. STEWART, Superintendent.

"EXHIBIT C"—IMPROVEMENTS AND ADDITIONS MADE AT THE HOME: ADMINISTRATION BUILDING.

New floor put in on the first floor. Inner part of the first floor being entirely overhauled, painted, etc. On the second floor the interior of the building repaired and painted. On the third floor, matron's room added, bath and toilets installed and dormitory opened for girls.

Heating Plant.

New boiler installed and all necessary connections made.

Bake Shop.

One old building remodeled and converted into bake shop; concrete floor put in; two bake ovens installed; and all other necessary equipment for bakery.

Laundry.

There was only one washer. A second washer was installed, together with a new shirt machine and iron. Concrete floor laid in one-fourth of the building, replacing the wooden floor that was rotted out where the washers set.

Meat House.

Built one meat house, 14x28 feet, for salting, hanging and smoking the meat.

Chicken Houses.

Built four chicken houses.

Hospital.

Partially overhauled and painted inside.

Beautifying Grounds.

Several hundred feet of ditching and tiles laid for carrying the water away from the buildings. Driveway built around the campus, both in front and back of the cottages. About 2000 shade trees set out around the driveway and in front of the cottages. Graded the main street in front of the Administration building.

REPORT OF STATE TRAINING SCHOOL, PAULS VALLEY, OKLA.

I.—Location.

The State Training School is located three miles South of Pauls Valley, Oklahoma, and about six miles Northwest of Wynnewood, Oklahoma.

II.—Property.

1. Acreage.—The Institution is located on a four hundred acre tract consisting of broken upland. Very little of the land is suited for other than grazing purposes.

2. Campus.—The campus is on the south part of the farm and consists of about eight acres.

3. Number of Buildings.—On the campus there are eleven brick buildings. In addition to these brick buildings there are two frame buildings, located on the farm which are used as residences. Also there are thre frame buildings used as barns.

a.—Of the eleven brick buildings, one is used for school purposes. Four used for boys' dormitories. One is used for an industrial or trade building. One is used as a hospital. One is used as a laundry. One is used as a heating plant. One is used as a dining hall and kitchen. One is used as an administration building. The two frame buildings are used as residences.

b.—Eleven of the buildings are brick and five are frame.

c.—No new buildings have been added during the year. However, additions have been added to the laundry and kitchen.

d.—Total value of buildings, $100,000.00.

e.—Total value of equipment, $4,000.00.

4.—Of the four hundred acres about one hundred and thirty acres are in cultivation in crops as indicated below:

30 acres of Kaffir corn.
30 acres in wheat.
6 acres in orchard.
4 acres in Sudan grass.
1 acre in water melons.
12 acres in cotton.
40 acres in oats.
4 acres in potatoes.
3 acres in garden.

The land is poor and the yield from these crops was small.

About sixty acres of corn land was rented. Also twenty acres of alfalfa.

a.—The farm is in charge of Mr. Steve Sawyer. Practically all the work is done by the boys under the supervision of Mr. Sawyer.

b.—In the Spring of 1915 there were planted 117 shade trees about the premises. Of this number only 67 are living.

III—Inmates.

1. Total number of inmates received:
 1914-1915—Males, 135; females, none; total, 135.
 1915-1916—Males, 147; females, none; total, 147.
 1916 to date—Males, 54; females, none; total, 54.

2. Total number of inmates discharged:
 1914-1915—Males, 131; females, none; total, 131.
 1915-1916—Males, 208; females, none; total, 208.
 1916 to date—Males, 30; females, none; total, 30.

3. Total number of inmates now in institution, 98.

4. Total number of inmates adopted from institution. The records do not show any.

5. Total number of inmates let out by indenture. The records do not show any.

6. Number of employees: Males, 17; females, 3; total, 20.

7. Character of school work done by inmates:

The school work in the State Training School is similar to the work done in the public schools of the state. Work is done in all grades up to and including the eighth grade. The state adopted text books are used. When a pupil completes the eighth grade he is prepared to enter any of the affiliated high schools.

8. Improvements in inmates made by medical attention: I respectfully call your attention to the report of Dr. N. H.

Lindsey, showing the work that has been done in this institution. The report is as follows:

136 Visits on account of acute illness.

25 Minor ailments treated in my office.

128 Circumcisions.

70 Operations for adenoids.

80 Operations for diseased tonsils.

1 Collies fracture.

1 Fracture of clavical.

1 Radical operation for cure of ingrowing toenail.

1 Fracture of arm.

1 Operation for cure of inguinal hernia.

1 Operation for cure of hydrocele.

1 Operation for necrosed bone of femur.

The importance of this work cannot be over-estimated. Stupid boys have been converted into boys of average intelligence with congenial, pleasant dispositions.

9. Commitment by counties:

Oklahoma City, Okla., Dec. 8, 1916.

The Honorable State Board of Public Affairs.

Oklahoma City, Oklahoma.

Gentlemen:—This is to advise you that I have made a thorough examination and inspection of Wilkin Hall, at the University Preparatory School, at Tonkawa, Oklahoma, which Hall has been partially destroyed by fire.

I find on examination, that all of the brick walls of said building remain standing and are in fairly good condition, at the present time, which, if protected, would last indefinitely, but under present conditions they are rapidly depreciating in value, as they are standing exposed to the weather inside and out, and have no bracing or support of any kind, save the brick partition walls which furnish some support to the outside walls.

I further advise you that the value of these brick walls as they stand, on this date, together with the concrete foundation and other salvage about the premises is as follows:

Face brick, 150,640, at $30.00 per M.....	$ 4,519.20
Rough brick 1,075,360, at $16.00 per M.....	17.205.76
Excavation and concrete footing	2,579.20
Stone columns and trim, etc.....	2,800.00
Total	$27,104.16

After mature consideration relative to the above building I recommend to you to re-erect the destroyed portion of said building and make the same fireproof instead of ordinary mill construction as was the case before the building was destroyed. I recommend to use reinforced concrete floors and roof slab instead of replacing floors and roof with wood joist.

I further recommend and submit the following repairs, together with an approximate cost of the same, which is as follows:

Clearing and wrecking	$ 400.00
Reinforced concrete floors, roof, steps, etc..	6,600.00
Plastering complete throughout	2,412.50
Painting complete and wall finishing.....	1,871.00
Roof	922.50
New cornices and other repairs.....	3,100.00
Heating	5,200.00
Plumbing and wiring	2,714.00

Steel and iron work	1,728.00
Mill work and interior trim	3,822.60
Carpenter work complete	1,400.00
Sheet metal work	366.00
Repairing present brick work	800.00
Hardware	1,000.00
Miscellaneous and overhead expense	600.00
Total	$32,936.60
Contractor's 10 per cent	3,293.66
Grand total	$36,230.26

You are further advised that if the above repairs are properly made the building will be in perfect condition and ready for occupancy.

You are further advised that while visiting the above institution I made an examination and inspection of all the buildings belonging to the State and found that the building commonly known as the Central Building is in a very dilapidated and run-down condition, and I beg to recommend to your Honorable Body the following repairs, together with an approximate cost of the same. I found that all overhead wood lath and plastered ceilings are rapidly falling off, making them very unsightly and detrimental to the building, and I recommend that metal ceilings be placed overhead in the first three stories. This will cost approximately $ 1,539.00

I further recommend that the ceiling on the top story be metal lath and plastered as the surfaces are so badly broken with roof dormers, gables, etc., that we are restrained from using metal ceiling. This will cost you approximately 500.00

I further recommend that the building have a new roof of asbestos slate or some other fireproof material instead of wood shingles. This wil cost you approximately 980.00

I further recommend that the first, second and third stories shall have new floors, to be laid on the present floors, and this will cost you approximately.. 600.00 and for your information, all the present stairs are unsafe for anything like a reasonable live load.

I further recommend that all plastered sur

faces on the wall be repaired and painted, this will cost approximately 2,000.00

Total cost$ 7,019.00

10 per cent contractor's profit..... 701.00
Grand total$ 7,720.90
as cost of repairing Central Building.

Respectfully submitted,

(Signed) JEWELL HICKS,

Architect.

We recommend the following appropriations:	1917-18	1918-19
Salaries	$ 6,500.00	$ 6,500.00
Support and maintenance	16,000.00	16,000.00
The number of inmates has increased until half of them are forced to sleep in the		

basement. We, therefore, recommend that they have a new two-story building, 34x76. Also, that necessary repairs be made on the present building	10,000.00	
	$32,500.00	$22,500.00

JOINT RESOLUTION.

By a Joint Resolution signed by the President and Secretary of the State Board of Education and approved and signed by two members of the State Board of Public Affairs, the appropriation for salaries, support and maintenance may be used far any purpose incidental to said Normal Schools, or other Institutions, under the management of the two Boards above mentioned, ex cept items for support and maintenance may not be used for salaries.

OPTION.

I, E. B. Johnson, of the City of Norman, Cleveland County, Oklahoma, give to the State Board of Public Affairs of Oklahoma, option for sixty days from January first, 1917, on my home place:

The East half of Section 20, Township 9 North, Range 2 West, in Cleveland County, Oklahoma, and located one-fourth mile North of Oklahoma State Hospital, containing 320 acres more or less according to the survey thereof.

The farm is all fenced and cross fenced, with three small hog pastures. Also 10 acres under 4 ft. hog wire. Have 120

acres in cultivation, balance excellent grass; one good tank, inexhaustible well water, windmill and gasoline engine and water tank. Two 300 ton silos, one large Fairbanks scales.

The other improvements on the place consist of a good 12 room house with fire-place and cement walks. Two good 300 barrel cisterns. Also small wash house; two cellars and storm cave; coal house; two good barns; one granary; one corn crib; cake house; feed yard and milk sheds.

The price to be paid me for the above described farm is eighteen thousand dollars cash, providing same is taken before the expiration of this option.

I will also give option to the State Board of Public Affairs on twenty acres just across the section line and corners within one hundred yards of the Oklahoma State Hospital property which I will accept two thousand dollars, cash, in full payment.

Will give good title and possession to either or both of the above properties twenty days after deal is closed.

Signed this 1st day of January, 1917.

At the Oklahoma State Hospital, Norman, the average number of patients last year was 1,027—the only reason that it has not increased more is from the fact that when they receive a new patient they have to discharge one in order to use the bed, as the floor space is exhausted with 1,027 beds, and it has been the custom or tendency to commit old age, and feeble patients and paupers to the Hospital instead of caring for them at their homes and the County Poor Farm, still, we are forced to take them as they have been committed by the Judge from the County from which they are sent. This is an injustice to the State to keep the Hospital crowded and care for patients of this character and the care that these patients require should be given to the mentally sick.

A large per cent of these patients are what is known as "bed patients" and cannot get them out after they have once been received.

There are a number of criminally insane patients, classified as "criminally insane" at Vinita, some being transferred from the State Penitentiary, and others being committed there by

District Judges from the various Counties. We also have a number at Norman, of like character of patients that should be classed as "criminally insane," and a large number of what are known as "violent" and dangerous characters; some of them have committed cold blooded murder. They are a constant menace to the attendants and others having them in charge and to those who are responsible for their safe-keeping. It is only a matter of time until they do some violence to some of the attendants. They are sane enough to realize their confinement and shrewd enough to attempt escapes whenever the opportunity presents itself. After being in the hospital for a time they learn that the attendants must care for them as they do other patients and know that they cannot be punished for infractions of the rules of the Institution and they continue to make trouble in the wards and have a bad effect on the discipline of the insane patients confined therein.

Neither one of the Hospitals of the State have cells or strong rooms suitable for the detention of the criminally insane or violent inmates.

The average criminally insane is not always responsive to good treatment and they are constantly watching for an opportunity to injure some other patient, and we recommend that an appropriation of $85,000.00 be made for a building and equipment of same to take care of this unfortunate class of patients, and that same be located at Norman, as we believe the location makes it the place for a ward of this character, and same should be made fire-proof. This would be centrally located where it will be near the Medical Hospital when the Superintendent needs assistance in treating patients of this character he could get same from the staff of physicians at the Medical Hospital.

With exception of one old building and two new buildings built last year, all the other buildings are frame buildings at Norman, and are heated by coal stoves, and they should have a central heating plant and we have made an estimate on the construction of a heating plant which would be adequate for heating all the buildings that they have at Norman and the new ones that would be erected for a number of years, at a cost of $36,610.75.

We are buying electric current at Norman now and the expense of retaining an Engineer would be fixed when the new plant is built and the same expense would operate the generator to make current for operating the various machines at the same time make light for the Institution, at a cost of $15,072.00, and

we recommend that an appropriation be made

There are a large number of patients at Norman that can be used for an agricultural purpose, which is a benefit to them being outside work, and we have an option on 340 acres at Norman, from E. B. Johnson, for $20,000.00, and we recommend that an appropriation be made to purchase this land, as we only have 159 acres in the farm, and a few truck patches around the Institution, and it is very much better for the patients to have a reasonable amount of outdoor work than it is to keep them housed up, and at the same time he is being taken care of he will help produce a certain quantity of produce to help maintain himself and others.

Report on the Water Supply for the East Oklahoma Hospital for Insane, Vinita, Oklahoma.

To the Honorable Board of Public Affairs,

Oklahoma City, Oklahoma.

Gentlemen: Whereas the present water supply for the East Oklahoma Hospital for Insane, at Vinita, is inadequate and insufficient for use for the above Institution by reason of the said water being secured from deep wells and is contaminated with carbon bisulphide and destroys the piping system through which it flows, and it being deemed for the best interest of the State to provide sufficient and an adequate water supply for the East Oklahoma Hospital for the Insane, at Vinita, and having been authorized by your Honorable Body to make a preliminary survey relative to a new and proper method by which the said East Oklahoma Hospital for Insane, can be provided with sufficient water, and having gone over the proposition in detail and made a preliminary survey, I beg to submit to you the following recommendations, with an approximate cost of same:

I recommend to you to lay an 8 inch water main from the Institution East to Cabin Creek, a distance of 11,560 feet, or two miles. This will cost you approximately$14,447.00

I further recommend to erect a reinforced concrete dam at a given point across Cabin Creek, to be 75 feet long, to be an average of 18 feet in height from top to bottom and to be for sufficient thickness and to be provided with flood gates which will be opened in time of overflows and will serve to avoid certain lands bordering on said creek, becoming covered with water and which flood gates will be closed at the proper time to maintain a sufficiency of water. This will cost you approximately$ 3,550.00

I further recommend to erect a pumping station at the location of supply, on Cabin Creek, which station shall be 18 feetx20 feet, to be built of concrete,

in which will be located the necessary pump, together with a motor and other machinery, and which motor will be provided with a service line to be run from the Institution to the Pumping Station, a distance of two miles, all of which will cost you approximately..$ 4,600.00

I further recommend to build at the Institution a reinforced concrete settling basin with a rated capacity of 200,000 gallons, which will cost you approximately$ 7,000.00

$29,597.00

I beg to advise you that if this concrete dam is erected as above recommended, that you will have a water supply of *Thirty-Eight Million Gallons*, which will be ample to run the Institution for more than one year without any rainfall, assuming that the consumption is based on *One Hundred Thousand Gallons* daily, which is ample at the present day.

Respectfully submitted,

This, the 20th day of December, A. D. 1916.

State Architect.

Recommendations for State Reformatory, Granite, Okla.

Appropriations Ending June 30th, 1917.

Support and maintenance, H. B. 357	$107,205.00
Betterments, repairs and operating industries, H. B. 357	19,355.00
	$126,560.00

We recommend the following appropriation: 1917-18		1918-19
Support and maintenance, based on 500 inmates, at $168.00 each	$84,000.00	$84,000.00
This institution discharged 289 inmates last year at an average cost of $18.33 each.		
The law provides railroad fare	$1,337.58	
Cash, $5.00 each	1,560.00	
Discharge clothing	2,398.99	
	$5,296.57	

The records show there will be 300 discharged each year, and we recommend an appropriation of	5,500.00	
The demand for crushed granite has increased to such an extent that we were forced to install a larger crusher to take care of the orders we received for different kinds of granite. This will take an additional quantity of coal to produce the power to operate the equipment, and we recommend an appropriation for an additional amount of coal.....	5,000.00	10,500.00
	$94,500.00	$94,500.00

Permanent Investment and Betterments:	1917-18	1918-19

WATER PLANT: The Institution is without water and what we have is gyp water that is very injurious to machinery and causes additional fuel expense.

It is impossible to operate the industries and to have health and sanitation without water. In addition, this water supply would enable the Institution to conduct garden irrigation.

There are three sources of supply and same will be reported upon separately, either of which will cost practically the same.

We recommend an appropriation of $25,000.00

This Institution is paying one-third and one-fourth crop rental on leased land. Last year our rental was $5,000.00 per annum or about 10 per cent of the land value and very soon it will likely be that lands adjacent to the Institution cannot be purchased. We can buy the following land:

261 acres,
160 acres,
160 acres,

160 acres,

641 acres at $40 per acre..... 25,400.00

SCHOOL LAND: We have the school section leased adjoining this institution; some arrangements should be made for the transfer of this section of land to this Institution and, WE RECOMMEND THAT THE LEGISLATURE AUTHORIZE the sale of this section, on the same payments, same terms and same rate of interest as other school lands have been sold, at the appraised value, and make an appropriation to meet the first payment, and the Institution will earn from the land, enough to meet the other payments. We estimate this land at $40.00 an acre.

GRANITE WALL:

5 ft. base, 18 ft. high, 3 ft. at top 280 lineal feet finished, 400 ft. 6 ft. high, 1,000 ft. foundation completed, necessary cement and lime to complete wall 5,000.00

EAST WING:

Building is completed 20 ft. high, all steel windows, steel guards sewer pipe have been purchased and an additional appropriation is necessary to finish building.

As per itemized statement furnished extra session of Legislature in January 1916, this will purchase plumbing, steel doors and interior finish.

We will complete this extension not to exceed 60 per cent. of the cost of the first building $26,000.00

FACTORY MACHINERY:

Additional Broom Factory machinery	$ 250.00
Excelsior machine	1,000.00
Overall and Tailor shop	1,250.00
Canning plant	850.00
Shoe Repairing equipment	400.00
Tin Shop Equipment	750.00

Plumbing Shop equipment	750.00	
Electric Shop equipment	750.00	
Dairy equip. and refrigerating plant.....	1,000.00	
Mattress and bedding	250.00	
Factory building, 80 ft. by 300 ft.....	7,250.00	15,000.00

These factories will enable the inmates to learn trades and product manufactured will largely be consumed by the Institution itself, and may be used wholly for State use.

POWER HOUSE EQUIPMENT:		
Two 72 in. by 18 ft. Boilers Steel Jackets hung on eye-beams$	4,250.00	
One 600 H. P. Hopper, open water Heater and Condenser	750.00	
One 250 H. P. non-releasing Corliss Engine, 18x24, 200 R. P. M. direct connected with one A. C. Generator Form B. 250 K. W. 200 R. P. M. 3-phase 60-cycle, 2,300 volt. One D. C. Exciter Type M. L. Form. One, 12 K. W. 96 ampers 950 R. P. M.	8,000.00	13,000.00

This equipmnet must be had to operate new crusher, as present H. P. of generator is 625 K. W. while the new equipment provides for 725 H. P., leaving a shortage in the present plant of 100 K. W. and in addition to this will need additional power for other factories.

QUARRY EQUIPMENT AND STONE CUTTING SHEDS:	1917-18	1918-19
Six surfacing machines,		
1,000 Feet Air Hose,		
1,000 Feet Air Pipe,		
1,000 Feet Air Pipe for New Air Compressor,		
6 New Tripod Drills	$,4500.00	

The Quarry is just now ready to turn out cut stone and stock stone and monumental stone, and turning stone that will require these additional facilities neces-

sary to prepare it for market. This will be the most profitable part of the quarry operations and much trimming stone should be furnished for State Institutions for new buildings, now being contemplated by the State, window sills, caps, belt course, door steps and all range work and trimmings.

BUILDINGS:

Building for store room, 50x150 ft.,
Building for Mule barn, 40x200 ft.,
Building for Implements, 20x200 ft.

Cement, nails and lumber for frames, doors, etc., for the above buildings 5,000.00 .. .3,500.00

The buildings will be constructed with granite rock, but will need lumber for framing and cement to lay the granite.

We are using a part of Basement for store room now, which is too small and damp. Are using an old shed for mules, and have no place for implements—all out in the weather.

COLD STORAGE AND ICE PLANT:

The present facilities and machinery will be completely worn out within another year, besides being too small. It is impossible to keep meats and fruit products so far from market without necessary cold storage and ice. We have to buy produce in small lots on account of our facilities for keeping same. This makes the cost much more, besides the waste on account of improper facilities 10,000.00

EMPLOYEES COTTAGES: 1917-18 1918-19

Lumber, Glass, Lime, Cement and Hardware for Five cottages for employees$7,500.00

This Institution is one and one-half miles from town, with no houses avail-

able for employees, and the necessity for having employees at the Reformatory makes this improvement necessary and will give returns on the investment, from rents, besides, employees are compelled to move from one rented house to another seriously handicapping the Institution. There are no hotel facilities for sheriffs and others bringing prisoners to the Reformatory, and the employees being one and one-half miles away, is a serious matter. We will make granite blocks and cut granite to erect the cottages and only need the material to put them together.

LIBRARY, AUDITORIUM AND SCHOOL ROOM:

Cement, Lumber, Hardware and Equipment.....$1,500.00

These things are a part of every prison in the United States and they help to keep the minds of prisoners employed and is an aid to discipline

$220,900.00 $109,500.00

When these Appropriations are made, building and factory equipment installed and in operation, which will be done at the earliest date possible, there should be no need of an appropriation for maintainance this Instiution should be self sustaining.

FINANCIAL AND INDUSTRIAL STATEMENT OF THE OKLAHOMA STATE PENITENTIARY, McALESTER, OKLAHOMA FOR THE MONTHS OF JULY, AUGUST, SEPTEMBER, OCTOBER AND NOVEMBER, 1916.

December 26th, 1916.

Honorable R. L. Williams,
Governor,

Oklahoma City, Oklahoma.

Dear Governor:

I submit herewith my report of the Oklahoma State Penitentiary from July first, 1916, to November 30th, 1916, together with a report of the institution for the fiscal year ending July first, 1916. I intended to furnish you with a report for the calendar year but find that the change in the system of accounting which took place June 30th, 1916, and the manner in which the books have been kept since that date, prevent me from combining this report of the last half of the year with that of the first half in an intelligent manner, so I am furnishing you with these two reports and hope that you will be able to get from them the information you desire. Upon assuming charge of this institution July first, I found that the prison farm, nine hundred acres of which had been planted to cotton, was in a very bad state of cultivation on account of a great deal of rain which had fallen in the spring and an inadequate supply of farm machinery to properly cultivate the crop and an insufficient number of available teams. By purchasing all the available cultivators that could be purchased locally and a large number of hoes and placing every team available into service, we soon placed the crop in a good state of cultivtaion. The latter part of the summer the cotton suffered materially on account of the lack of moisture but considering the poor land we have here, I consider that a good showing has been made on the farm. We gathered 282 bales of cotton, 178 of which have been sold bringing $22,755.46. Two cars of the first seed ginned were sold which brought $2880.24. We have seed on hand which we value at $7,425.00, making the value of our cotton and seed, $33,487.10. A great deal of feed has been

stored. We placed all the silage (400 tons) that can be used at our dairy barn in the silos and put up 319 tons of hay from the city water shed, which we have leased. We have thirty acres in berries which yielded a splendid profit. We have on hand about three hundred head of good hogs and have sold during the year several car loads of hogs which were fattened almost wholly from the slop and waste from the Penitentiary kitchen and in this way have been able to make quite a saving. Our records show that since the law passed by the Extra Session of the Legislature providing for a Revolving Fund that we have turned into this fund from products sold from the farm and other industries of the Penitentiary, amounting to $41,476.83.

Our different industries have furnished other state institutions manufactured products amounting to $8,794.52. We propose, as soon as the machinery we now have purchased and which is now being installed, to furnish other state institutions with clothing, shoes, mattresses and whatever office furniture they will need, together with all the mill work necessary for future buildings at these institutions at a saving to the state and a profit to the Prison.

NEW IMPROVEMENTS.

During the year we have finished the main factory building in which our twine mill and practically all other industries are being installed, have built a brick warehouse for the storing of sisal, have built an addition to our power plant, have installed two large new boilers and will, within the next few days, begin the installation of another large unit to our power plant which will practically double the present capacity. I found upon taking charge of this institution that the cell houses had not been painted for several years and that a great deal of money was being spent for disinfectants in the attempt to eradicate bed bugs. I immediately had these cell houses repainted which has practically stopped the bed bug nuisance and am finding it necessary to use but very little disinfectants.

The different roads through the Penitentiary farm have been neglected to such an extent that we have found it necessary to do a great deal of work in placing these roads back into condition where they can be used in the moving of our crops. All of this work together with the work that has been done during the year on the state roads has kept practically all of our able-

bodied men busy. We have a big percentage of men that are not physically able to do hard work. This percentage is high for the reasons that in the first place this prison gets practically all men from 30 years old who are sentenced to the Penitentiary in the state and during the past few years several hundred able-bodied prisoners have been transferred to Granite but none of the disabled ones. This naturally has increased our percentage of disabled prisoners and to a certain extent has worked a hardship on this institution in a financial way. When our twine mill shall have started, however, we will be able to use a great many of these men that heretofore have never been used on account of their disability. The work in the twine mill is such that a great many prisoners can be used who cannot get out and walk back and forth to work on the farm.

TIN SHOP

We have equipped a Tin Shop whereby we can supply all other State Institutions with all tin and galvanized iron ware, such as buckets, tubs, guttering, down-spouts etc.

MACHINE SHOP

Also have equipped a Machine Shop where all repair work is done and a specialty of the manufacture of wagons. During the past year we have supplied the Penitentiary with all their wagons and all County Road Camps, as well as new wagons to other State Institutions.

We have manufactured new wagons for the D. B. & O. Institute at Taft, State Home, Pryor, State Hospital, Norman, and the State Reformatory at Granite.

WOODWORKING PLANT

We have installed a complete Woodworking Plant where we manufacture doors, window sash, cold storage chests, tables, furniture, and turn neck-yokes, whiffle trees and handles of all kinds and all wagon supplies.

With a litle more equipment we can furnish all State Institutions with shoes, made at the Penitentiary.

We are now manufacturing all the shoes that are consumed at the Penitentiary and Negro Reformatory.

Have equipped a complete Tailor Shop and are preparing to make all discharge suits as well as all work clothing for the Institution, and all other Institutions within the State.

Have installed a complete stamping machine, cutters, punching machines, enameling ovens, for the manufacture of all State automobile tags.

All the Plug Tobacco used at the Penitentiary is manufactured at the Penitentiary.

We have a crude Mattress Factory which should be replaced with a new one as we have made all the mattresses we use at the Institution and within the last year have supplied the State Hospital at Norman, C. A. & N. University at Langston, Institute for Feeble Minded at Enid, Hospital for Insane at Supply, State Home at Pryor, East Oklahoma Hospital for Insane at Vinita, School for the Deaf at Sulphur, Negro Reformatory at McAlester and State Training School at Pauls Valley.

We have a complete Cotton Picking Machine. All rags and scraps from the Tailor Shop and old clothes are converted back into lint and used for the best grade of mattresses.

But all these manufacturing industries require a Revolving Fund to carry on this business.

WORK DONE ON THE STATE ROADS.

We now have close to three hundred men working on the different state roads in nine different counties in the state. A great many other counties have made application for prisoners that have not been able to get them for the reason that every available trusty we have has been utilized for this work that could be spared from the prison. The records show that we have 390 prisoners who are trusties but a great many of these trusties are old men or are not able to do the work on the roads and men who are crippled and disabled physically to perform such work. It appears to be the prevailing opinion among people who are not familiar with the system that we might work probably a thousand of these 1,400 men on the roads. They do not appear to realize that only men who can be trusted that can be sent out from the prison and that our work about the prison requires a lot of men who cannot be guarded and necessarily must be under the Honor System. The teamsters and plow hands must necessarily be trusties for the reason

that it would cost more to guard gun men at this work than the work would be worth. We have extended our trusty system probably farther than our judgment would approve in order to accommodate as many counties as could be accommodated with road gangs. This, together with the fact that experience has shown that more escapes occur while out on the roads than occur among the trusties who are working about the prison has caused the percentage of escapes to be considerable higher than it would otherwise have been.

I accepted this position with the hope that within the next few years it could be placed on a self-sustaining basis. This, of course, cannot be done until our industries are developed more fully which will require some time and money. I feel that a good showing has been made during the past year along this line, if proper credit be given the prison for the value of the work done by the different road gangs. We have made a conservative estimate of the value of these roads which is very low compared to estimates I find is being made by other prisons that are doing road work. This estimate, which you will find tabulated in this report, shows that the value of this work alone is $77,000 and I feel sure that it could not have been done with free labor at this cost. Adding this amount to what has been produced by the different industries of this institution and the difference in expense in erecting the new factory building, the new storage building, the addition to our power plant and other improvements, and what the same would have cost had it been done by free labor, it would show aproximately that during the year the prisoners had earned for the state an amount equal to what the prison appropriation is, $180,000.

NEW IMPROVEMENTS NECESSARY.

Our barn and storage facilities for feed and the care of farm implements, and machinery is totally inadequate. In fact we really have no place where farm machinery and implements can be stored and kept from deterioration by the weather while not in use. Our mule barn was very poorly arranged and has never had a permanent roof. This for the present can be used providing the stalls are covered. We have practically no storage facilities for grain. I estimate that proper facilities for the taking care of the above items can be made at an expense of $10,000. This could probably be cut down to a certain extent

by using wooden buildings but in the long run the building of fire-proof structures for an institution of this sort is economy. I feel that a large poultry plant should also be established. It will probably require, for the erection of such a plant, the purchase of either chickens or eggs, together with the equipment necessary, an appropriation of $2,000. A green house should also be erected which would enable us to start our plants for an early garden. This institution in the past I find has produced very few green vegetables. I feel that gardening should be one one of our chief industries since the expense of these products is a big item in our food supply. A green house with a capacity necessary for an institution of this size would probably require an appropriation of $2,500.

Our water supply is adequate but our standpipe is not high enough to produce pressure sufficient to put the water in the fourth tier of cells in our cell houses and is not sufficient to produce the required pressure on the top floors in our factory building in order to give the proper fire protection which is necessary in a twine mill. During the hot months when a great deal of water is being used, the prisoners occupying the top tier of cells which accommodate about one-fourth of the population of the prison, are unable to get any water with which to wash before leaving their cells for breakfast in the morning and on returning in the evening. It is imperative that this condition be bettered. It will either be necessary to raise our standpipe about thirty feet or have a new one erectd. I would recommend the latter for the reason that it would require probably thirty days or more to raise this present standpipe and during the time we were at this work it will be necessary to purchase water from the city. This would be quite an expense. A new standpipe could be utilized for supplying water to the Penitentiary buildings and the old one for irrigating our garden which I am making about where the standpipe now stands. In order to have fresh vegetables without having to purchase the same, it will be necessary to irrigate this garden since so much of the time during the summer the moisture is insufficient to produce vegetables. A new standpipe with a capacity sufficient for our purpose will cost about $7,500. The raising of this old one to the proper height would cost approximately half this much money and the cost of the water during the time it will be necessary to raise the old standpipe to the proper height would probably cost $1,000. Taking this all into consideration I feel that

it will probably be better to erect a new standpipe giving the same the proper height, since I feel that we can profitably use both to a good advantage.

Our water is pumped direct from an artificial lake into the standpipe. This water is stirred up and is muddy practically all the time. In order to overcome this, it will be necessary to build a settling basin, which will cost, according to our Architect's estimate, $6,000.00. This cost is for the material necessary, and all the work will be done by convict labor.

We are now installing wood working machinery with which we hope to manufacture all of the heavy furniture such as tables, desks, etc., that will be used at all of the state institutions, and all of the mill work necessary in building whatever new institution buildings are decided upon, belonging to the state.

We are finding it is impossible to secure lumber properly seasoned for this work, so it will be necessary to build a dry kiln. Had we a dry kiln we could buy firstclass green lumber and could use the same without having to wait for it to cure. It is practically impossible to buy cured lumber that is fit for this sort of work since when allowed to cure outside of a dry kiln, it is cracked and in such a condition that a good piece of furniture cannot be turned out. An appropriation for this purpose is necessary in the sum of $5,000.00.

Our cell houses will accommodate only 1,280 prisoners. Our population has increased during the past few years and appears to be increasing all the time. We have had during the past year as high as 1,600 prisoners at one time and the average has been more than 1,400. On account of this crowded condition and for other reasons which I give below I beg to recommend that the Negro Reformatory established here by the Fifth Legislature be removed to Taft. I understand that there is quite a lot of good land available adjoining the Taft farm. I feel that this institution (Negro Reformatory) in connection with the institution now located at Taft could better be operated in conjunction than the Negro Reformatory and the Penitentiary. According to the present law the inmates of the Reformatory and the inmates of the Penitentiary must be kept separated. It therefore necessitates our setting aside quite a lot of this land for the use of the Reformatory that we should have here for the employment of prisoners who must be worked

under the gun. The building now used for the Reformatory could be used to a great advantage for our trusties. This would relieve the crowded condition of our cell houses and would enable us to keep these trusties outside of the walls and away from the other prisoners and would eliminate the danger which now exists in trusties passing back and forth through the gates and the possibility of introducing dangerous weapons. This Reformatory building would be suitable for this trusty building since it is provided with dormitory facilities, kitchen, dining room, and a good sized school room. I feel that we should begin to give more attention to the reformation of the prisoners than has been given heretofore. Had we this building for this purpose we could establish a night school where these trusties could be taught. The records will show that a great many of our prisoners are second termers and quite a few third termers are here. We should try to do something for these men that will prevent their returning to the prison after having been released by expiration, pardons or by paroles. I find that some other prisons in the United States are conducting regular schools for the prisoners and the results have been very gratifying. There are a great many men in prison who have never had an opportunity to get an education and a great many who had the opportunity but would not take advantage of the same. It has been found that this class will very often become interested while in prison in an education when they would not be interested on the outside.

The Minnesota state prison requires all inmates to attend school a part of the time who have not completed the eighth grade. The Indiana state prison requires all inmates to attend school who have not completed the fourth grade. Other prisons are beginning to take up this educational feature. The inmates are thus better fitted after having left the prison to go out in the world and make a living and are more apt to remain out of prison under this condition than under the conditions now existing here. When we discharge a man we furnish him with a cheap suit of clothes, a ticket home and five dollars in money. It very often happens that the inmate has no fixed place of abode and that he is thrown out among people who are prejudiced against him on account of his having been an inmate of a penitentiary and I have often wondered under these conditions why more of them do not return than do. For these reasons I feel that we should begin to give this side of the

prison proposition more consideration and do something for the uplifting of these fallen men than has heretofore been done.

NECESSARY APPROPRIATIONS FOR SUPPORT AND MAINTENANCE.

The Fifth Legislature apropriated $180,000 for the support and maintenance of this institution for the fiscal year ending June, 1916, and for the fiscal year ending June, 1917. I understand that these appropriations were made on a basis of 1,100 population and at a per capita cost of 43.7 cents per day. The population has greatly increased since that time until it is now averaging above 1,400 men. The records show that instead of the per capita cost at the time this appropriation was made being 43.7 cents, it was 63.3. This error in these estimates together with the increase in the cost of living has caused large deficits. Our present appropriation is practicaly exhausted at the present time. The per capita cost is now averaging 64.4 and I feel that under the prevailing prices of foods and clothing, this institution cannot be maintained for less than 65 cents per capita per day. This includes all expenses, food, clothing, hospital supplies, fuel, guard hire, discharging prisoners, returning escapes and necessary repair to building and equipment. There is no use trying to deceive ourselves and the Legislature. We might better ask for an appropriation adequate to meet these expenses than later find it necessary to cause a deficiency. Experience has taught me that it is very much more expensive to have to do business on a credit than when we have available funds with which to pay our running expenses. I beg to assure you that not one cent of whatever appropriation is made will be unnecessarily spent during my administration of this institution's afairs.

Basing our estimate on an average of 1,400 men, which is probably a low estimate and a per capita cost of 65 cents which is not high according to prevailing prices, we should have for the balance of the fiscal year ending June 30, 1917, not less than $140,000 and for each of the fiscal years ending June 30, 1918, and June 30th, 1919, $332,150.

The records show that for the fiscal year ending June 30th, 1916, the total cost for support and maintenance was $339,223.74 with an average population of 1,379 at a per capita cost of

$.619. I also note from the report of the Warden of the State Reformatory at Granite that during this same period he spent for this same purpose $106,651.53, with an average population of 380.5 and a per capita cost of $.768.

A penal institution of this sort cannot be maintained as cheaply as insane asylums for several reasons. In the first place, men who are doing manual labor must be fed more meats which is the most expensive item of foods used, than people who are not doing very much manual labor. The guard hire is another additional expense that is a big item and another big item is the expense of discharging each prisoner. Another additional expense to which I beg to call your attention is that of furnishing three paid men for each gang that goes out on the public roads. These camps average about twenty-three men but it requires three paid men with each camp. If these prisoners were working inside of the walls or on the farm at the Penitentiary, one guard would be sufficient for these twenty-three men. This guard expense is all borne by the prison. I find from the records that the fiscal year ending June 30th, 1916, $339.223.74 were actually spent for support and maintenance of this institution. This exceeds the amount I am asking for, notwithstanding the fact that the cost of living is higher at the present time than it has been at any time during the past year and the number of prisoners is greater.

AYLESWORTH FARM.

During the first part of the present calendar year the State Board of Public Affairs by authority vested in said Board under an act of the Fifth Legislature known as House Bill 467, purchased a farm in Marshall county, consisting of 1,464 acres of bottom land, about 1,200 acres of which is in a partial state of cultivation, at a total cost of $58,660. This land had been rented previous to the sale, but the state according to the contract received the rents. This land was very poorly farmed but the rents received amounted to approximately $7,000, which is approximately 12 per cent on the investment for the year. We are now making our plans to place this farm in a fine state of cultivation by removing all the trees and stumps and cleaning up the land thoroughly for the next crop. We hope with the proceeds of this farm to pay back into the revolving fund within the next few years, an amount equal to the purchase price. I feel that this farm will materially aid in our efforts

to place this institution on a self-sustaining basis. A lot of improvements will be necessary in order to accommodate the prisoners who are going to this farm but we hope to do this work without having to ask for an appropriation for the same.

REVOLVING FUND.

I beg to call your attention to the fact that during the short time our revolving fund has been in operation we have deposited from the same with the State Depository $45,488.16, to date.

On account of the machinery with which to equip the factory building having materially advanced in price, it has been found that the appropriations made for the purpose of building and equiping these industries was insufficient, and we are finding it necessary to use some of this revolving fund in the payment for the purchase of necessary machinery. I want to call your special attention to the fact that $50,000 was appropriated by House Bill 467 with which to start a revolving fund for the purpose of purchasing raw material (sisal) with which to manufacture binder twine. The sale of this sisal is controlled absolutely by Comision Reguladora del Mercado De Henequen of New York and this Commission has raised the price of this product more than one hundred per cent during the past twelve months. We purchased one thousand bales about two months ago. This one thousand bales, approximately 400,000 pounds, cost approximately $40,000, at ten cents per pound, which leaves us only $10,000 with which to purchase sisal. Since that time the price of this product has been increased to fourteen cents. The one thousand bales will run our plant not to exceed sixty days. We hope to get this plant started on February first. In order to make this a paying proposition it must be kept running continuously during the year. We will not be able to collect for the manufactured twine until the farmers who purchase this twine shall have disposed of their crops, so it will be necessary for us to have a sufficient amount of available funds to purchase four thousand additional bales, which at the present time will cost us not less than $220,000. As I said above we have now available only $10,000, so in order to run this plant until our receipts begin to come in, we should have an additional appropriation to this fund of $200,000. I know that this will look big to you and will probably cause the Legislature to feel that we are asking for a larger appropriation than is necessary, but if

you and the members of the Legislature will investigate this proposition, you will find that I am correct in this estimate. I have asked other prison twine mills what they felt was necessary in the way of a revolving fund in order to start a twine mill. They have all advised me that we would not profitably run a twine mill with less than an appropriation for our revolving fund of from $200,000 to $250,000. This sisal cannot be purchased on a credit. In fact, the money must be placed in a New York bank before this Comision will consider your order and since it cannot be purchased elsewhere nor from anybody other than this Comision it is necessary to have the funds available.

As I become more familiar with this work and when we get better office help, which I hope to secure the first of the year, I shall be able to render you a more detailed account of the prison and its operation.

I want to thank you and the State Board of Public Affairs for the support you gentlemen have rendered me in the operation of this prison since I have been here.

Very respectfully submitted,

SAM L. MORLEY,

Hon. R. L. Williams,

Governor, State of Oklahoma,

Oklahoma City, Okla.

Dear Sir:

We are transmitting you herewith letter from Sam L. Morley, Warden, State Penitentiary. ,

Upon receipt of this letter we checked the accounts of the Penitentiary and find that the statements set forth in Mr. Morley's letter to be correct. We also find that he has expended from the Maintenance Fund, for the benefit of the Road Camps, $43,953.31. This amount was for supplies, maintenance and support of the Road Camps, exclusive of the amount he expended for additional guard hire and the expense of returning the escaped convicts from the Road Camps.

The statement made by the former Warden, of 43.7-10c. per day for maintaining the prisoners, to the last Legislature, was an error. We have checked this ourselves and find that the actual cost, when the former Warden made his statement, was 63.3-10c., as shown by Warden Morley's letter, and we recommend that this matter be transmitted to the Legislature for their consideration.

The matter of expenditure of $18,900.00 for dry goods and leather, was made with the full knowledge of the Board that the market would advance, and these purchases were made to save the increased cost of this character of goods, which has advanced from 20 per cent to 50 per cent since purchases were made.

Therefore, we recommend the appropriation of $140,325.00, as sugegsted by Warden Morley's letter.

Yours very truly,

STATE BOARD OF PUBLIC AFFAIRS,

By J. M. AYDELOTT, Chairman.

A. N. LEECRAFT, Secretary.

A. N. WILCOX, Vice Chairman.

OKLAHOMA STATE PENITENTIARY,

Sam L. Morley, Warden, McAlester, Oklahoma.

December 22nd, 1916.

State Board of Public Affairs,

Oklahoma City, Oklahoma.

Gentlemen:

Our records show that available funds for the support and maintenance of the Penitentiary for the fiscal year ending June 30th, 1917, will have soon been exhausted. In fact, there will very probably not be funds sufficient to pay for more than the outstanding accounts at the present time. I therefore suggest that you call this condition to the attention of his Honor, the Governor, and ask him to authorize a deficiency for the support and maintenance of this institution until such a time as the State Legislature, now about to convene, may see fit to make a deficiency appropriation for the balance of this fiscal year. This condition exists on account of several reasons, the principal ones I wish to call your attention to, as follows:

First: The Fifth Session of the Legislature made an appropriation of $180,000 for the support and maintenance of the Penitentiary for the present fiscal year. This appropriation was made, as I understand it, on the basis of 1,100 population at 43.7 cents each, per day. I find from the records that the population during the present fiscal year has averaged more than 1,400 population and that the average cost of support and maintenance at the time this appropriation was made, instead of being 43.7 cents was actually 63.3 cents, so you will see that the estimate on

which the present appropriation was made was in error, both as to cost per capita and the average number of inmates in attendance.

Second: The $25,000 appropriated by the Extra Session of the Legislature in 1916 for the support and maintenance of convicts while at work on the public roads was exhausted on July 1st. Since that time this entire expense of maintaining these camps other than the small amount received from the counties for the difference in the cost of food has been necessarily paid from this maintenance appropriation. While the Legislature provided that the counties should pay the difference in the cost of food, they did not take into consideration the fact that it requires three men, namely: One foreman, $100 per month; one steward, $60 per month, and one night watchamn or guard, $60 per month for each camp, and these camps have averaged about twenty-two men. Had these prisoners been in the walls or on our farm this guard hire would not have exceeded one-third of the amount it has cost on the roads. I also call your attention to the fact that a greater percentage of escapes occur while the prisoners are away from the walls and out on the roads than occur while in the walls or on the prison farm. Our records show that it costs on an average of $48.45 to return these escapes.

Third: The cost of provisions, clothing, etc., has increased from 25 to 50 per cent since the appropriation was made in 1915.

Fourth: Your Board, in order to make a saving by buying before dry goods, clothing, leather, etc., had made a further increase which was inevitable, purchased almost enough of these items to last us during the present fiscal year. This was good business on your part, but it has caused our available funds to be exhausted, of course, sooner than they would have been otherwise.

ESTIMATE OF APPROPRIATION NECESSARY FOR THE SUPPORT AND MAINTENANCE FOR THE BALANCE OF THE FISCAL YEAR.

At prevailing prices I do not believe that these prisoners can be properly maintained for less than sixty-five cents per

capita. This, your understand, means the entire support and maintenance, including all expenses, food, clothing, medicine, guard hire, salaries of officials, reward and expense for the return of escapes, feed for teams and necessary repair of building and equipment. On this basis and an average population of 1,400, it will require $169,225 for the six months remaining in the present fiscal year. I estimate that $18,900 of this is already invested in clothing, shoe leather and dry goods, that will be used during the present fiscal year. $169,225 less $18,900 will leave $140,325. This amount I feel will be necessary and I therefore recommend that a deficiency of $140,325 be authorized by the Governor and that the Legislature be advised of said deficiency, so that it may give said deficiency such consideration as it may deem necessary.

Very respectfully,

(Signed) SAM L. MORLEY, Warden.

The State Board of Public Affairs, after having examined the report of the Warden of the Penitentiary at McAlester, Oklahoma, relative to appropriations necessary for the fiscal years ending June 30th, 1918, and June 30th, 1919, begs to make the following recommendations:

	1918.	1919.
For support and maintenance of 1,500 prisoners at $168.00 each	$252,000.00	$252,000.00
For discharge of 717 prisoners at $8.21 each	13,056.57	13,056.57
New clothing furnished 43 prisoners sent away from the Penitentiary on court orders, to be used as witnesses at $10.71 each.....	460.53	460.53
7,300 tons of coal for use in furnishing current to factories, in addition to what has been used to date, $3.00 per ton	21,900.00	21,900.00

Betterments, repairs to buildings, equipment, water plant and farm telephone and electric system ...	31,724.35	31,724.53
Return of 59 convicts (escaped) at $48.45 each	2,858.55	2,858.55
Extra guard hire and foremen necessary on account of use of prisoners on the public roads	10,000.00	10,000.00
Total	$332,000.00	$332,000.00

Relative to the items which make up this appropriation, we beg to make the following comments:

The records show that the number of prisoners is increasing materially every year; that an average of more than 1,400 prisoners have been maintained during the past year, and we believe that during the next two years an average of 1,500 is a conservative estimate of the number of prisoners that will have been maintained.

The item of discharging prisoners is one that appears to have been overlooked in the past, and is one that is not to be considered in making appropriations for other than penal institutions. The records show that during the past year 717 prisoners were discharged at a cost of $18.21 each.

The records show that 43 prisoners were taken away from the prison by orders of Court, to be used as witnesses, and that these prisoners, in each case, were fitted out with new clothing, at an expense of $10.71 each.

It now requires 7,300 tons of coal a year, for our power plant, and since we are having to double the capacity of this plant, in order to furnish power for our new factories that are being installed, it will require 7,300 tons extra coal, which will cost not less than $3.00 per ton.

The up-keep of a large institution like the Penitentiary, in the way of repairs, betterments, etc., including the two large farms now owned by this institution, will cost, according to our estimates, $31,724.35.

We beg also to call attention to the fact that by keeping a great number of men on the roads, we necessarily lose some of these men by escapes. The records show, during the past year, the escapes numbered 59. And that it cost $48.45 each on an average, to return these prisoneers, or $2,858.55.

We now have approximately 300 men at work on public roads. This number will very probably be increased materially during the year. We find that it requires a great many more guards and foremen to perform this work on the roads than it does when the prisoners are used within the Penitentiary walls and on the Penitentiary farm. For example, our road camps will average about 23 men each. We have found it necessary to send one foreman and one guard and one night watch to each of these camps. If these prisoners were working within the walls or on the Penitentiary farm, it would require not to exceed one-third of this expense to guard them.

By taking practically all of the trusties we have away from the prison and using them on the roads, it necessitates our using gun men, or men that have to be guarded, on the farm, which also increases our guard expense on the farm, over what it would be were we using a great many of these trusties on the farm.

APPROPRIATIONS NECESSARY FOR NEW IMPROVEMENTS.

	1917-18.
Barn facilities, for storage of feed and taking care of farm implements, machinery, etc.	$10,000.00
Poultry equipment	2,000.00
Greenhouse	2,500.00
Additional stand pipe for water system	7,500.00
Settling basin for water system	6,000.00
Dry kiln	5,000.00
Brick plant	22,000.00
Additional land (310 acres) adjoining the Aylesworth farm	12,500.00
Total	$67,500.00

Relative to these permanent improvements, we refer you to comment on this made by the Warden of the Penitentiary, in which we concur.

The item of Brick Plant, we beg to advise that our experience has been that the operation of a brick plant is one of the most necessary industries that can be established at the prison, for the reason that the maximum amount of labor is necessary, and the output of the plant can be easily disposed of at a good profit. It is also necessary, we find, to enlarge the walls of the prison in order to make room for the new industries. We have a lot of splendid shale on the Penitentiary farm with which all kinds of brick and hollow tile can be manufactured. Had *we* a brick plant we could make whatever building improvements are necessary at the prison and for other state institutions, since we have the labor and the material with which to manufacture brick and tile, etc., and the only expense that would be necessary is the cement with which to lay up the brick.

We attach hereto an estimate of a model brick plant. There are more machines in this estimate than would be necessary for our plant.

We find, in order to straighten up our boundaries at the new farm at Aylesworth, we should have three fractional parcels of land, one twenty-acre tract at $22.50 per acre, one 240-acre tract at $40.00 per acre, and one 50-acre tract at $50.00 per acre. The 20-acre tract lies in such a way that we should own this piece of land, together with some other land we have there for use as pasture for mules. This is good up-land and can be purchased at $22.50 per acre, which we feel is a reasonable price. The 240-acre tract and the 50-acre tract comprises fine bottom land that is in good state of cultivation and joins our land in such a way that we can well afford to pay the price asked for it, which is $40.00 for the 240-acre tract and $50.00 for the 50-acre tract. We feel that the land composing these two tracts is well worth $100.00 per acre, since it is fine land and in splendid state of cultivation.

Following is copy of correspondence with the Belt Oil & Gas Company, our letter to the Attorney General and the Attorney General's answer, with reference to oil lease on State land, under control of the Penitentiary. We would suggest that the Legislature give the proper Board authority to make lease.

"Oklahoma City, Dec. 4, 1916.

"Board of Public Affairs,

"Oklahoma City, Oklahoma.

Gentlemen:

"Your letter of the 29th ult. has remained unanswered for the reason that I was out of the City until late yesterday.

"I am submitting you the following proposition for the Belt Oil & Gas Company, who own and operate leases assigned them by the School Land Commissioners.

"We are very desirous of securing lease on the State land near Aylesworth, referred to in your letter, and should we be successful in securing the lease we will begin to develop same immediately. We will agree to begin drilling a well not later than 60 days from the time we secure lease on the land, and will agree for you to make the first location for us, and should the first well not be an oil or gas producing well, we agree to case and equip the same in good condition for a water well, without any expense whatever to you.

"If there are any detail matters that you wish to discuss with me I would be glad to call and see you at any time convenient to you.

Very truly yours,

BELT OIL & GAS COMPANY,

JAMES BRAZELL, Vice President."

"Nov. 29, 1916.

"Hon. S. P. Freeling,
Attorney General,
Oklahoma City.
Dear Sir:

"We are writing you for an opinion from your office relative to the matter of giving an oil lease on what is known as the State Convict Farm, located near Aylesworth. In other words, we desire to know whether or not the State Board of Public Affairs has the authority to represent the State in making such a lease, or whether the School Land

Department should make it. It is the contention of the School Land Department that they have jurisdiction over all lands belonging to the State, for oil purposes. As we understand the matter, the School Land Department has jurisdiction over all lands granted to the State by an Act of Congress, or under the statute dealing with leases for oil in river beds of the State.

"We hope to have your opinion in regard to this matter so as to clear up the situation.

Yours very truly,
STATE BOARD OF PUBLIC AFFAIRS.
A. N. LEECRAFT, Secretary."

"December 5, 1916.

"State Board of Affairs,
Oklahoma City, Okla.
Gentlemen:

"Your letter of the 29th ult., addressed to the Attorney General, relative to the letting of an oil lease on what is known as the State Convict Farm, located near Aylesworth, and particularly whether such lease should be executed on behalf of the State by the State Board of Affairs or by the Commissioners of the Land Office, has been referred to me.

Answering your inquiry, beg to advise that, in my opinion, this particular land is not within the jurisdiction of the Commisisoners of the Land Office, and I do not believe it has authority to let a lease on the land. I find nothing in the statutes authorizing the State Board of Affairs to let leases on any of the State's land, and do not believe that it can let a lease on the land mentioned without specific authority by statute. However, it is my opinion that if a lease can be let by anyone, it can only be done by the State Board of Public Affairs.

'The Legislature will meet shortly and definite authority over this and certain other land belonging to the State could be given to either one department or the other, and thereby avoid any doubt on the subject, and in the meantime, the interests of the State are not likely to suffer.

Yours truly,
GUY F. NELSON,
Assistant Attorney General.

IN THE MATTER OF OPERATING THE POWER PLANT AND OTHER MACHINERY AT McALESTER.

When the present machines are installed, the State will have an investment of $225,000.00 in power plant and various equipment at McAlester, and it is also very necessary to have a competent man as engineer. The salary provided by law is $100.00 per month. The chief engineer of the plant should be a combination man, engineer, electrican and practical machinist. It is impossible to hire a man to fill this position at the present salary. We recommend that the legislature fix the salary of one engineer at $150.00 per month, and the second engineer at $100.00 per month, as we cannot afford to trust the operation of machinery wholly to convicts.

The law fixes the salary of steward at $75.00 per month. We cannot employ a competent man, who is capable of filling this position, for $75.00 per month, and recommend that the salary for this position be made $100.00 per month, as a competent steward can save his salary every day in the week.

The position as guard at the east gate; this is the most responsible position that any guard occupies, as there are from forty to fifty wagons coming to and from the Penitentiary grounds each ten hours, and besides the prisoners that work outside the wall, pass through this gate. And there are days when there are as many as 300 prisoners pass through.

This man's duties are to examine each and every wagon and to search each and every prisoner that passes through the gate. Besides, our scales are located at this gate and he fills the position of weigh-master as well. We recommend that the guard at the east gate receive a salary of $100.00 per month.

Since installing the new system of bookkeeping, the present salary authorized by the State is such that we cannot hire a competent man to fill this position. We recommend that the salary be increased to $150.00 per month.

IN THE MATTER OF OPERATING THE TWINE PLANT.

We will have this plant in operation by the first of February. The delay has been caused on account of not being able to get shipments on the machinery, but everything is under bill of lading now, with the exception of one car load.

The capacity of this plant will be 3,000,000 pounds of sisal, and there is no use to try to operate the plant unless sufficient appropriation is made to buy the raw material, so same can operate every day in the year, and the output would be 3,000,000 pounds of finished twine.

The sisal can be purchased from only one concern, which is the Commission Reguladora del Mercado de Henequin, and their requirements are such that the money has to be on deposit in New York before they will sign contract of sale of sisal to any one. In a number of cases, they have required different institutions who manufacture twine, as well as the International Harvester Company, to deposit gold before they would sign a contract to make shipment to them of the sisal. In other words, the raw material has to be paid for before same is received at McAlester. And unless we have a sufficient appropriation to operate the plant to the full capacity, there is no use trying to operate same.

The competition which we will meet in the sale of the finished product, is with the International Harvester Company, the Penitentiary at Lansing, the twine plant of Hooven & Allison Co., Kansas City, the New Bedford Cord Co., at New Bedford, Mass., and the Eagle Cordage Mills, Boston.

This class of goods is sold in this way: Placed with organizations to be sold on commission basis or shipped to implement dealers on consignment with a fixed per cent for selling and collecting, to be remitted at the end of each month as sold. And where same is sold direct to organization of farmers, shipment is made practically in the same way. Any part of the twine not used to be returned.

So you can see the manufacturer is carrying either the raw material or the finished product the year around. This custom has been established and there is no other way in which to meet competition, than to sell in the same way our competitors do.

To operate this plant in the proper way it will be necessary to have an appropriation of at least $200,000.00 for the revolving fund, for buying of raw material and operating the plant.

In the operation of other industrial plants that we have installed and are now installing, it is necessary to have an operating fund to buy raw material, to be handled by the re-

volving fund, but to be kept separate and apart from the twine plant. This fund is to be established and used to buy material to make all kinds of goods used by the State Institutions. We are equipped to make heavy chairs, tables, domestic science tables, flat top desks for the various schools and equipment for State buildings. The heavy machinery installed will be of no use to the State unless they provide an operating fund to buy raw material, and we recommend that an appropriation be made in the sum of $50,000.00, known as the Operating Fund.

The State Board of Public Affairs therefore recommend to you the extending of the present policies until the State Account System of conducting prison industries has been developed to the fullest extent.

The varied industries of the Oklahoma State Prisons have reached such proportions that the Board feels the necessity of some legislation enabling the Board and Warden to provide some operating funds, sufficient to purchase material and carry the industry through any period. The State Prison and Reformatory industries will be operated upon the same general plan as other industrial enterprises, and the management should have available funds to operate upon, beyond the original capital and all the latitude in operating and financing that is usual in all commercial industrial enterprises.

The policy of the administration to recognize and reward good prison conduct by favorable recommendations for their parole, at the expiration of the minimum sentence, endorsements not granted to prisoners with poor prison records, has resulted in demonstrating that there can be justice in prison administration, which leaves the inmate hopeful—that from his own efforts he can better his present condition, though he may be within prison walls.

Good discipline is necessary in any organization, whether it be penal, industrial or otherwise. One of the causes for which many inmates are serving time, is the lack of training and discipline, in their early lives, resulting in a disregard for law and order, and for all authority. Only strict discipline can overcome these fixed habits, contracted while young. If strict principles apply outside of prison walls and are necessary to success in any undertaking, much more do they apply to the successful management of penal institutions.

Prison industries should be varied, as to afford the greatest possible opportunity for training the inmates to take up

some profitable employment, when he is released upon parole or discharged. In deciding upon prison industries, it should be remembered that any labor is better than no labor at all. The active brain with an idle hand is the Devil's workshop. But the active brain connected with well directed labor, is the possible cure for all evils.

Establishing prison industries, the following general plan should be observed. The industry should be of such a character as would require the minimum amount of material, so that the least possible capital be involved in its operation; the largest number of men employed and the manufactured product should be so staple and so much in demand that a very small selling organization would be required.

In establishing farming it was the general plan not only to develop an open air industry, not for the purpose of enlarging upon the so-called trusty or honor system, but to give the inmate practical training in general farming, as over fifty per cent of the inmates are better suited for farm work than for any other kind. There is a moral advantage in tilling the soil and getting next to nature, besides the profit received therefrom, and finally, besides the financial results and the rebuilding of men, the prison farm industry will have a widespread influence in that the State will conserve the manhood wasted by crime and utilize it in supplying the present day need of a general economic movement along the lines of more expansive and intensive cultivation of the soil, resulting in a larger production of food stuffs to meet the increasing demands. By this method you can further observe the inmates of a penal institution would be more diligent and careful in every act pertaining to their duty, instead of wasting their time in idleness or useless vocations, they would form industrious habits in instructive and useful occupations. They would be doing their mite in the way of producing food products and thus in the measure reducing the high cost of maintaining them.

A brick plant should be installed to meet the requirements of a good prison industry, in that it requires a minimum of capital, the maximum of labor and the manufactured product is a staple article. The State has the shale at the prison door and a surplus of labor that cannot be worked outside of the prison wall, besides the State will need all the brick that a plant can produce for its own use for the next ten years. The same plant can make hollow building tile by only changing the die or mold, at a cost of $50.00 for one piece of casting. There is no tile

plant within the State. With capital to equip various industrial plant and to purchase the raw material, the prison would not have to draw current expense for maintenance every time the Legislature meets, but could maintain itself by profits earned from industries conducted by the institutions. The profits of these industries conducted on the State account system could earn enough in a short time to maintain itself and show a surplus.

In other words, the State account fund would not be diminished, but to the contrary, a substantial sum would be added.

Respectfully submitted,

STATE BOARD OF PUBLIC AFFAIRS,

J. M. AYDELOTT, Chairman.
A. N. LEECRAFT, Secretary,
A. N.WILCOX, Vice Chairman.

THE AMERICAN CLAY MACHINERY COMPANY.

Bucyrus, Ohio, U. S. A., Nov. 24, 1916.

State Board of Public Affairs,

Oklahoma City, Okla.

Attention, J. M. Aydelotte, Chairman.

Gentlemen:

We are just in receipt of a letter from our representative, Mr. W. H. Merkle, reporting his pleasant interview with your Mr. Aydelotte, and states that you will eventually build a brick plant at the State Penitentiary, at McAlester, Okla., and desire a complete proposition made up of itemized prices showing the approximate cost of this plant, and also desire a blue print in order to give you some idea of about how much space a plant of this kind requires. The machinery equipment would be as follows:

	Weight	Price
1 No. 243 Winding Drum, Miter Geared	2640	$ 324.00
300 ft. 5-8 in. Cable	180	42.00
4 No. 68 1½ yd. Steel Side Dump Clay Cars	6800	404.00
1 9-ft. Dry Pan	31250	1520.00
1 40 ft. Elevator 12x6½ in. cups	2895	261.00

1 No. 87 Piano Wire Screen	1200	119.00
1 No. 304 10 ft. Pug Mill	11000	810.00
Steel Frame for Pug Mill	2500	288.00
1 No. 233 Auger Machine	10275	1260.00
1 Lub Side Cut Brick Dies	100	50.00
1 4x5 Hollow Block Die, 1 Core	90	45.00
1 5x8 Hollow Block Die, 2 Cores	110	52.00
1 8x12 Hollow Block Die, 3 Cores	140	65.00
1 6x12 Hollow Block Die, 3 Cores	160	72.00
1 8x12 Hollow Block Die, 6 Cores	160	80.00
1 Front to take on small size dies	200	36.00
1 Front to take on large size dies	300	54.00
1 No. 342 Rotary Automatic Cutter 20 ft. belt	6500	1080.00
1 Aut. Hollow Block Cutter for small ware	1000	200.00
1 Aut. Hollow Block Cutter for large ware	1200	240.00
1 No. 292 Double Mold Repress	7285	900.00
1 35 ft. Waste Clay Conveyor	1971	227.00
1 30 ft. Waste Clay Elevator, 14x7x5½ in. cups	1820	281.00
Transmission power, except main driving belt and pulley	6700	985.00
Total Weight of the foregoing equipment	96476 lbs.	
Total Price		$9395.00

The auger machine as specified in the foregoing equipment is capable of handling the material from two dry pans. You will notice that we have only figured one dry pan, and this pan has a capacity of from 20,000 to 35,000 brick per day.

In many places throughout Oklahoma we have one pan grinding enough material for 50,000 brick. Before the Cleveland Vitrified Brick Company, Cleveland, Oklahoma, increased their capacity they were using one dry pan and they secured this capacity from that pan, however, there might be some variance in the hardness of the shale in the vicinity of McAlester. In the plan we are enclosing there is just room enough for one pan in the grinding room; however, it would be no trouble to make the grinding room a little wider for the addition of another pan, elevator and screen, if you desire to bring up your capacity to conform with the other machine.

We understand from our Mr. Merkle that you are contemplating building round down draft kilns, so therefore we are specifying the waste heat equipment in order to utilize the waste heat from your cooling kilns for drying your brick. We have in mind that your waste heat dryer would consist of 14 tun-

nels and the following equipment would be required:

		Weight	Price
1	Suction Damper	270	$ 160.00
14	Vent Dampers with guides	1190	224.00
14	Steel Tunnel Doors for Discharge End of Dryer	2800	375.20
	Steel Frame for Tunnel Doors, both ends	2800	190.40
60	Anchor Rods for Tunnel door frames	240	18.20
560	Tunnel Rail Clamps	8400	358.40
6000	ft. 16 lb. Rail	32000	960.00
3500	ft. 20 lb. Rail	23334	700.00
300	Splice Bars and bolts for 16 lb. Rail	4500	120.00
175	Splice Bars and Bolts for 20 lb. Rail	35800	84.00
1600	lbs. 3 in. Spikes		96.00
Total weight on the foregoing structural iron-work equipment		80634 lbs	
Total Price			$3287.20
295	No. 127 Double Deck Steel Dryer Cars	132160	$6360.20
1	No. 5 Single Transfer Car	1000	57.20
2	No. 6 Double Transfer Cars	2800	140.80
1	No. 240-¾ housed Steel Plate Exhauster with direct connected engine	15220	2248.00
1	No. 120-¾ housed Steel Plate Exhauster with direct connected engine	4030	896.00
Total weight of the entire dryer equipment		235844 lbs.	
Total Price of the entire dryer equipment			$12989.40

The dryer equipment is figured for taking care of the capacity of two 9-foot pans to be used in connection with the No. 233 auger machine. At the first installation you could use one pan, making provision in your building for the installation of another pan, elevator and screen. At first you could build eight or ten tunnels on the dryer, then add the rest of the tunnels when the capacity was increased. The three-quarter housed exhaust fans are large enough to take care of the 14 tunnels.

The No. 233 machine is designed for making brick, hollowware and tile. You will notice that in your equipment we have specified an automatic cutter for cutting the brick, also two automatic cutters, one for handling the small-size hollowware and the other for handling the large size hollowware.

No doubt you will eventually manufacture some paving brick, therefore we have included in the proposition one No.

292 repress. This repress, however, has only a capacity of repressing two to three thousand paving blocks per hour. The press could be arranged in such a manner in relation to the off-bearing belt so that another press could be installed when you increase your capacity. We have supplied quite a number of brick plant installations in your section of the country, including the plant at the State Penitentiary at Lansing, Kansas, and the Federal Penitentiary at Leavenworth, Kansas.

After going over the proposition very carefully if there is any part of same which is not clear in your mind we would be pleased to have you advise us. We are confident we can serve you well, and we trust that we may have the pleasure of hearing from you from time to time as to the progress being made with this matter.

Thanking you for the courtesies extended to our Mr. Merkle, we are,

Yours very truly,

THE AMERICAN CLAY MACHINERY CO.

EXHIBIT "D"

To the Governor and The Sixth Legislature of Oklahoma:

The State Board of Education submits the following recommendations as to the financial needs of the several institutions under the control and supervision of the State Board of Education for salaries, maintenance, and buildings.

These recommendations are made after careful consideration by the Board. We have endeavored to recommend only those items which are absolutely necessary to meet the demands of the institutions, and which are concurred in by the Governor and Mr. J. M. Aydelotte, Chairman of the State Board of Public Affairs, except as to the appropriations for the School of Mines and Metallurgy and the University Preparatory Schools.

We recommend the following:

UNIVERSITY OF OKLAHOMA, NORMAN.

	1917-18	1918-19
Salaries and wages	$284,000.00	$297,000.00
Maintenance and upkeep, repair and extension of buildings	116,000.00	68,000.00
Total	$400,000.00	$365,000.00

	1916
Auditorium and equipment, and emergency appropriation	$150,000.00
Library and equipment	75,000.00

In view of the fact that the University Hospital is now located in rented quarters in Oklahoma City and is not sufficiently equipped to entitle the Medical School of the University to rank in the A Class of the American Medical Association, into which class it cannot enter until it is placed in quarters of its own with proper equipment and laboratory facilities, it is recommended that an appropriation of $200,000.00 ($100,000.00 for building, and $100,000.00 for equipment) be made for a State Hospital, to be located on land belonging to the State in Oklahoma City, the expenditure of such appropriation to be conditioned upon the donation to the state of the Emergency Hospital by Oklahoma City.

OKLAHOMA COLLEGE FOR WOMEN, CHICKASHA.

	1917-18	1918-19
Salaries	$ 40,000.00	$44,000.00
Supplies, maintenance, repairs, etc.	10,000.00	6,000.00
Dormitories, other buildings and equipment	100,000.00	
Total	$150,000.00	$50,000.00

SCHOOL OF MINES AND METALLURGY, WILBURTON.

	1917-18	1918-19
Salaries	$15,736.28	$15,736.28
Support and maintenance	2,243.72	2,243.72
Extension work in coal field	2,500.00	2,500.00
Extension work in lead and zinc fields	3,500.00	3,500.00
Total	$23,980.00	$23,980.00

The State Board of Education recommends that the functions of the School of Mines and Metallurgy be extended to include technical and vocational training, and that an appropriation of $50,000.00 be made for dormitory and equipment; pro-

vided, that the title to the land upon which the institution is located be vested unconditionally in the State of Oklahoma.

To the Governor and the Sixth Legislature of Oklahoma:

Gentlemen:

The State Board of Education respectfully recommend that the sum of $4,000.00 per annum be appropriated for per diem and necessary traveling expenses of the members of the State Board of Education.

Respectfully submitted,

(Signed) R. H. WILSON,
President, State Board of Education.

(Signed) LESLIE T. HUFFMAN,
Secretary, State Board of Education.

EXHIBIT E.

December 27, 1916.

Governor R. L. Williams,

Oklahoma City, Oklahoma.

Dear Sir:

In response to your request I herewith submit an estimate of the financial needs of the Oklahoma Agricultural and Mechanical College for the biennium 1917-1919.

	1917-18	1918-19
For salaries	$160,000	$160,000
For support and maintenance	90,000	90,000
For extension (Smith-Lever)	43,348	56,894
For experiment station	10,000	10,000

The above represents the amounts which will be needed to supplement the Federal appropriations, and must come from Section 13 Funds, New College Funds and direct State appropriations.

The following represents the amounts that will be available from the Federal Government for the same periods:

	1917-18	1918-19
Morril fund (salaries)	$45,000	$45,000
Smith-Lever (extension)	53,348	66,894
Hatch-Adams (experiment station)	30,000	30,000

The appropriations made by the State for the biennium 1915-1917 were as follows:

	1915-16	1916-17
Section 13	$117,000	$48,600
New College	69,350	55,150
State direct	8,000	81,600
State Smith-Lever (extension)	16,256	29,802

The appropriations made by the Federal Government for the biennium 1915-1917 were as follows:

	1915-16	1916-17
Morrill fund (salaries)	$45,000	$45,000
Hatch-Adams (experiment station)	30,000	30,000
Smith-Lever (extension)	26,256	39,802

In accordance with your instructions, I am suggesting for buildings an appropriation of not less than $100,000 for a new Science Hall and $50,000 for one section of the proposed Armory and Gymnasium. The increase in attendance at the college makes it imperative that additional provisions be made for the accommodation and proper instruction of this increase. At present all the available basement space of every building is being used for recitation purposes.

Our plan is to erect a fire proof building as a Science Hall and remove from the old Science building the equipment to the new building, and repair the old building for recitation purposes. We have thousands of dollars worth of costly apparatus and supplies that are now greatly exposed to fire risks and bearing heavy insurance penalties. This plan will give us the needed recitation room, place our scientific materials in a fire proof building and greatly reduce the cost of insurance.

In this connection, I beg to append herewith a portion of my report to the Board of Regents which explains my view of what should be the plan of development of the Oklahoma Agricultural and Mechanical College during the next few years.

For the biennium 1917-1919, a Science Hall costing $150,000; Armory and Gymnasium, $100,000; Printing building, $25,000, and a Veterinary hospital, $25,000. For the biennium 1919-21, a Women's building costing $100,000; a Library building $150,000; a Farm Machinery building, $25,000, and a Dining room, $25,000.

If in the next four years the College could have these additions the old buildings could be utilized as follows, "The present Science building could be used for a business building for the Schools of Commerce and Marketing and business education. The present Gymnasium and Armory could be used for manual training and wood shop work. The present Women's building could be used entirely for the women's dormitory. The present Library building could become a general recitation hall, thereby relieving the crowded conditions in the Engineering building and in the old Central building.

The indications are that the College will grow at least fifteen per cent each year and it seems practically certain that by the time the proposed buildings could be erected the entire space would be seriously needed. The Library as it now stands is greatly exposed to the dangers of fire, and here again there would be a large saving in insurance.

Our School of Veterinary Medicine maintains a very important relationship to the animal husbandry interests of this state, and it should have a much more liberal support than has been given it up to this time. This school has probably saved the state millions of dollars during the past two years. It has manufactured and sent out free of charge more than two million doses of black leg vaccine to the farmers and stockmen of this state. It has sent its Professors to every part of the state where there were serious outbreaks of black leg, anthrax, hemorrhagic septicaemia and hog cholera.

Farmers are being taught vaccination through the agency of the extension service as the County Agents have been instructed by the School of Veterinary Medicine at the College. This school has the most meager facilities for giving instruction and it seems that sound business principles would dictate a lib-

eral support for this branch of instruction. At the present time, the work is all being done in a small wooden building wholly inadequate to the needs of the state.

Lastly, the buildings as proposed will bring the College up to one of first rank among the Agricultural Colleges of the country.

Very respectfully submitted,

(Signed) J. W. CANTWELL,
President.

Daily average for the seven months ending December 15, 1916	.53

PLAN OF MANAGEMENT

The plan adopted by the Board of Public Affairs for the management of the school is to divide the time equally between work and study. There are two divisions, each of which is sent to school three days each week and to work three days; one division being at work while the other is at school.

WORK.

Farming is the work provided and the boys are attaining greater and greater proficiency day by day, although most of them have never been upon a farm before and 40 per cent of them are too small or weak to be used to much advantage.

In June, 25 acres of the state farm planted in cotton, was set aside by Mr. Morley, the warden, to be cultivated and picked by the boys. The patch yielded eleven bales. In addition to the product of the 25 acres the boys picked five bales from other parts of the farm, making in all about 25,000 pounds of seed cotton picked by them.

For the ensuing year, Mr. Morley has set apart one hundred acres for the use of the school, and has promised to allot us as much more as we may need.

This land is now in the course of preparation and will be cultivated and the produce harvested entirely by the boys of the school.

The cooking, sewing, cleaning, etc., are all done by the boys under the teaching and direction of the matron. The following articles of clothing were made entirely by the boys within the last three months:

70 Undershirts,
76 Under drawers,
92 Top shirts,
155 Towels,
103 Handkerchiefs,
26 Aprons.

SCHOOL.

The school work consists of the regular courses prescribed by the State Board of Education, and embraces the work included in the first eight grades. The students are graded as follows:

First grade	6
Second grade	4
Third grade	10
Fourth grade	10
Sixth grade	6
Seventh grade	4

Stress is laid on the subjects of agriculture, sanitation and hygiene, and vocal music.

RELIGIOUS TRAINING.

Mr. Johnson, the chaplain of the penitentiary, has rendered very valuable services in this department. He comes to us every Sunday at 2 o'clock p. m. and we have him to thank for several splendid and most instructive series of lectures and sermons prepared especially for us.

Sunday school is held every Sunday at 11 o'clock. The boys are encouraged to maintain the Sunday school organization. They take great interest in this work.

Evening prayers are had every night at 8 o'clock, just before retiring.

MORAL TRAINING AND DISCIPLINE.

At the outset, each boy is put upon his own moral responsibility and held strictly accountable for all improper conduct. We have no book of rules. We rely upon the fact that every

normal boy has a conscience and he is made to hearken to it. Our motto is "Let your conscience rule." This idea is developed, and applied to all of that class of offenses that involve moral turpitude.

Discipline is maintained by moral suasion with an occasional resort to "the rod." No dungeons, dark cells or solitary confinements are employed. Intimate, heart to heart talks are found to be most efficacious and persuasive. Each earnest effort met with proper encouragement and reward will do more for the character of a boy than all the harsher methods invented.

HEALTH.

Bodily cleanliness and proper sanitation are enforced. Every boy bathes and changes clothing twice each week. No expectoration is permitted. Thorough fumigation and disinfection are regularly resorted to.

There has been no serious acute illness since we began. It is to be lamented, however, that a large percentage of the boys seem to be affected, weakened or dwarfed by hereditary diseases. Dr. Shaw, the prison physician, has rendered valuable services and advice in connection with the health and sanitation of the school.

EXERCISE AND PASTIME.

A large playground has been prepared, consisting of base ball diamond, basket ball court, horizontal bar, merry-go-round, etc. From two to three hours daily are devoted to clean healthful outdoor games and pastimes. Checkers and dominoes are the principal indoor games.

Respectfully submitted,

J. H. LILLEY,

Superintendent.

The committee, appointed to draft resolution in regard to the death of the child of Mr. Barry, announce ready to report and ask that the following resolution be printed in the Journal and a copy furnished the family:

"WHEREAS, In the providence of God, the little daughter of our fellow member, W. N. Barry, of Okfuskee County, has been taken from this world and under very distressing circumstances, while the father is giving his full time to the State,

BE IT RESOLVED, That we, the members of the House of Representatives, the officers and employees thereof, extend our heartfelt sympathy to Mr. Barry and to his esteemed wife; that a copy of this resolution be sent them and this resolution be printed in the House Journal.

J. C. HAMILTON,

E. E. WOODS,

C. A. WELCH,

Committee."

Motion by Mr. Mansur that the resolution be adopted, that a copy be sent the family and that it be printed in the House Journal and that the committee be discharged, was seconded by Mr. Morgan (Creek) and unanimously adopted.

On motion of Mr. McCollister the House adjourned under the rules.

FOURTH LEGISLATIVE DAY

Oklahoma City, Friday, January 5, 1917.

House Concurrent Resolution No. 2, by Nesbitt, Haile and Fitzgerald (Pittsburg) of the House, Buckner of the Senate, in regard to tornado in Pittsburg County was read as follows:

"WHEREAS, on the 4th day of January, 1917, there was visited upon the people of Pittsburg County a devastating tornado leaving death and destruction in its wake; killing fifteen or more school children and severely injuring many other citizens of our State; and

WHEREAS, This once fair and prosperous community is desolate and our fellow citizens and friends are bowed in grief and sorrow in the death of their loved ones;

THEREFORE, Be it resolved by the House of Representatives of the State of Oklahoma, the Senate Concurring therein,

that we deeply deplore this calamity and extend to the bereaved our most sincere sympathy in this their dire distress; and

Be it further resolved that this resolution be spread at length upon the journal of the respective bodies and that a copy be sent to the Editor of the News Capital, McAlester, Oklahoma; and

Be it further resolved that the Clerk of the House and the Secretary of the Senate be instructed to mail a copy of this resolution to the bereft families as soon as their names and addresses can be obtained."

PAUL NESBITT,
TOM G. HAILE
S. J. FITZGERALD
SENATOR W. J. BUCKNER
Committee.

On motion of Mr. Mansur the rules were suspended and the resolution considered.

On motion of Mr. Haile, the resolution was adopted as read.

The oath of office was administered by Chief Justice Kane to Representatives Rogers and Hughes.

The Speaker introduced on motion by Mr. Speers, Hon. N. B. Maxey of Muskogee, who addressed the House.

House Joint Resolution No. 5, by Rowland, providing for an amendment to the Constitution of the State of Oklahoma, defining the qualifications of electors to be voted upon at the next regular election, introduced.

The following message was read from the Governor:

REPORT OF THE STATE CAPITOL COMMISSION TO THE SIXTH LEGISLATURE OF THE STATE OF OKLAHOMA.

Gentlemen:

The Fifth Legislature of the State of Oklahoma passed a State Capitol Bill, creating the Capitol Commission, providing that the Governor should be the ex-officio chairman of said Commission.

In compliance with said law, the State Capitol Commission met on March 23d, 1915, and reorganized with Governor R. L. Williams in the chair, P. J. Goulding was elected vice-chairman and Ira Mitchell, secretary. The old Capitol Commission at that time were engaged in the construction of the concrete frame of the State Capitol, without a contract, that is, by hiring labor and purchasing material. This work was continued up to the Messanine floor. In the meantime, advertisements for bids were published in the Daily Oklahoman and the Muskogee Times-Democrat.

The Governor, as Chairman of the Commission, appointed a citizens provisional committee as an advisory board. Said committee was composed of Jos. Huckins, Jr., of Oklahoma City; Tom Hale, of McAlester; H. W. Gibbons, of Muskogee; E. K. Gaylord, of Oklahoma City; F. M. Pirtle, of Oklahoma City; Ed S. Vaught, of Oklahoma City; S. W. Hogan, of Cashion. This committee has since that time met with the Capitol Commission in an advisory capacity, whenever anything of importance was to be considered, and have aided the commission by their knowledge and advice.

On June 18th, 1915, the State Capitol Commission and the citizens committee met for the purpose of opening and considering bids for the completion of the Capitol. The form of bids was complicated, owing to the fact that there were numerous alternates; many of these were made necessary for the reason that the commission was limited to one million and five hundred and fifteen thousand dollars in the construction of the building, and it was impossible to tell until the bids were opened, just what amount and quality of material could be used in each instance. The commission spent from June 18th to July 1st in tabulating the bids. It was then found that Jas. Stewart & Co., Inc., of New York, had filed the lowest and best bid. This company is one of the largest construction companies in the United States and were just completing the construction of the Utah State Capitol, and had previously constructed the capitol building of the State of Idaho. Their bid, under the alternates selected, was $1,253,500.00 for the completion of the building. The Commission had spent up to this time on the concrete frame the sum of $174,283.71. Since then, several alternates have been added until practically all of the amount authorized by the Legislature has been expended, as will be seen by the statement hereto attached.

From July 1st to August 3d, the Commission and the Attorney General were occupied in preparing the contract with the Jas. Stewart Co., Inc., a copy of which is hereto attached.

The Jas. Stewart Co., Inc., filed bond with the United States Fidelity & Guaranty Company of Maryland as surety for the full amount of the contract, and began work on the building immediately thereafter.

The material and tools which the Commission had used in the construction of the concrete frame was turned over to the Jas. Stewart Co., at the full cost price which they had cost the Commission. The amount of same being $38,526.65.

On October the 2d, 1915, Ira Mitchell, Secretary of the Commission, resigned, and A. N. Leecraft was elected Secretary of the Commission to serve without pay. Mr. Mitchell's services had been eminently satisfactory in every way and his resignation was for private business reasons. In accepting Mr. Mitchell's resignation, the Commission passed the following resolution:

> "WHEREAS, Ira Mitchell has served the State Capitol Commission in the capacity as Secretary for the past fourteen months; and, whereas, owing to the fact that his private business affairs, require his entire attention; and, whereas, he has offered his resignation as Secretary of said State Capitol Commission to take effect October 2, 1915.
>
> "NOW THEREFORE, BE IT RESOLVED, That the resignation of Mr. Mitchell as Secretary, is hereby accepted, and that in taking this action the Commission extends to him its hearty appreciation for services faithfully rendered, with best wishes for future success and happiness.
>
> "BE IT RESOLVED FURTHER, That this resolution be placed upon the minutes and a copy thereof be furnishel to Mr. Mitchell."

After entering into the contract, it developed that marble could be utilized for the floors of the hall and corridors in the capitol building in lieu of terrazzo, and the capitol building proper be constructed within the limit of $1,515,000.00. Marble for such floors and corridors had been submitted for alternate bids; the bid for Alabama marble, as originally made by Jas. Stewart & Co., Inc., the regular contractors, on such alternate, was for an additional amount of $37,500.00. Afterwards the contractors advised the Capitol Commission that the Alabama marble Company had agreed to furnish the marble, so that marble for said

halls and corridors could be substituted for terrazo, for an additional sum of $32,950.00. The citizens advisory committee was called in, and the following excerpt, relative thereto, is quoted from the minutes:

"WHEREAS, on the 15th day of August, A. D., 1915, the State Capitol Commission entered into a contract with James Stewart & Co., Inc., for the completion of the State Capitol building in the sum of $1,253,500.00; and, whereas, prior to that time the State Capitol Commission had expended the sum of $174,283.71 in the construction of said building up to the point at which the said James Stewart & Co., Inc., were to begin under their contract; and, whereas, the amount of said expenditure in the sum of $174,283.71 and the said stipulated contract sum in the amount of $1,253,500.00 aggregate the total sum of $1,427,783.71, being within the prescribed limit of $1,515,000.00 for the building of the State Capitol building as prescribed by acts of the Legislature, excluding overhead charges for architects' fees, superintendents' compensation, expenses of salaries of the State Capitol Commission and employees and such other sums as are incidental to the superivision of the construction of said building; and, whereas, on the 16th day of November, A. D., 1915, the following proceedings were had by the State Capitol Commission:

" 'The following extract from the minutes of the meeting of the citizens' advisory committee, which meeting was held on this date, was ready by the Secretary:

" 'BY MR. GIBSON: I move that the sense of this committee is, after a thorough investigation, that marble be substituted for terrazzo floors, as now specified in the corridors and hallways as provided by alternate No. 'G-4' as amended by the contractor so as to reduce the price from the original bid where the bid was to add $37,500.00 to reduce it to $32,950.00.

" 'Motion seconded by Mr. Hale, voted upon and carried by the unanimous vote of all members present.

" 'BY MR. VAUGHT: Mr. President, in voting on this matter, I desire to state that Mr. Gaylord advised me that when this matter came up he desired that his vote be cast in favor of the marble substitute.

"'BY MR. ANTHONY: In view of the foregoing recommendation by the Citizens' Advisory Committee, I now move that the alternate referred to, which alternate provides for Alabama marble to be substituted wherever terrazzo is specified, be adopted; it being understood that before the estimate for the extra is signed by the Chairman and other members of the Commission that the contractor is to secure the consent of the bonding company for this substitution; and, that the Governor be requested to certify to a deficiency in the sum of $32,950.00 to cover this additional item for marble in the place of terrazzo. With this provision, I move that this alternate be adopted and authorized.

"Motion seconded by Mr. Douglas; and, upon roll call, all members of the Commission voted in favor of said motion, and the same was declared carried."'

Marble was then substituted by the Capitol Commission in lieu of terrazzo.

From time to time other improvements have been added until the maximum limit has now been practically reached.

On November 16th, the anniversary of Statehood, the corner stone of the Capitol building was laid with elaborate ceremonies, in the presence of at least ten thousand people, who had previously paraded the streets of Oklahoma City. Addresses were made by Governor Williams, Chief Justice M. J. Kane and Woodson E. Norvell. Bishop Francis K. Brooks of the Episcopal church, delivered the invocation. The ceremonies were conducted by the Grand Lodge of Free and Accepted Masons, with W. W. Robinson as Grand Chaplain, Elmer E. Moroney as Grand Master, assisted by A. J. Weir and Senator S. W. Hogan, Senior and Junior Grand Wardens.

The corner stone, of light gray granite, is on the southwest corner of the building.

The Fifth Legislature, by Joint Resolution No. 29, Session Laws 1915, page 719, authorized the Capitol Commission to acquire such additional ground as in its judgment might be necessary as an addition to the ground now known as the Capitol Site, either by purchase, exchange of other lands donated by Oklahoma City and owned by the State of Oklahoma, or by condemnation, etc.

The Commission in determining the advisability of procuring additional ground on the south side of the original site, conferred with Mr. J. J. Culbertson and Mr. W. F. Harn; the former owning one-half of the ground on the south side and the latter the other half. Mr. Culbertson asked the price of $1,000.00 per lot, and did not care to trade or exchange the land tentatively considered by the Commission, to be added as a part of the site on the south side. The Commission was unable to get any proposition from Mr. Harn.

The Commission reached the conclusion that it was not practical to procure additional land on the south side without condemnation, and that would occasion a large outlay on the part of the State, and in that we felt that we were not justified.

The Commission then set aside a tract on the west side, 300 feet east and west and two blocks in length north and south, as a part of the site. On the east side the same area, except three lots owned by Mr. J. J. Culbertson was set aside to become a part of the site. However, an agreement has been entered into with the Commission by Mr. Culbertson to exchange these three lots for four lots located immediately east of this tract. The lots to be acquired from Mr. Culbertson are lots 18, 19 and 20, in Block 11; one being a corner lot immediately adjacent to the southeast corner of the State Capitol Site and fronting the north side of 21st street. The lots to be received by Mr. Culbertson are lots 15 and 16, in Block 4, and lots 25 and 26, in Block 11. This, in our judgment, is a fair exchange. Before this agreement is to be finally closed, however, it will be necessary for a joint resolution to be passed by the Legislature, providing for perpetually keeping open a driveway from 22nd street through the Capitol grounds to the east side of the Capitol; or keeping open 22d street to the same point. This we recommend.

The Capitol building is now nearing completion. We have for the money, one of the best capitol buildings in the United States. All the requirements of the Fourth and Fifth Legislatures have been complied with. We have a modern up-to-date fire-proof building (the only thoroughly fire-proof building (capitol) in the United States. There is not a stick of wood in the building. Every room is practically a vault.) Two systems of heating are provided, the direct system by steam, the other indirect by heated air. The air you breathe is taken in at the top of the building, brought to the basement, passed through a washer, then heated and diffused through the building; the foul

air which accumulates is taken out of the rooms through ducts. When the proposed machinery is installed, you can close your windows and doors, either in summer or winter days and live practically in a temperature of 70 degrees. We have over nine acres of floor space and over six and one-half million cubic feet of space in the building. This has all been constructed at a cost of less than 25c per cubic foot. No capitol building in the United States in recent years has been built for this money per cubic feet, with the exception of Mississippi. We are not making comparisons, but the Mississippi capitol has not nearly the advantages that our has. The cost of other state capitol buildings which are near our class has run from forty to sixty cents per cubic foot. If the Commission had the money available they could have added several additional improvements to the building. The entire outiside would have been better if there had been money enough to have permitted it to be built entirely of Oklahoma granite. A large amount of marble could have been used to advantage in the interior. We were fortunate, in that the materials were purchased and the work contracted for during a time when prices of all commodities and labor were considerably less than now. Everything that enters into the contract of this building is now worth thirty to one hundred per cent more than it was when purchased, and were we to start the capitol today, it would be impossible to obtain the same building that is now being finished for less than two and one-half million dollars. The building is so constructed that at any future time, many of the improvements or additions can be made. Marble can be placed in the hallways, without removing the plaster. The heavy piers were constructed as authorized by the Fifth Legislature, and go to the roof line, so that a high dome can be placed on the building at any time. The people of the State should be proud of this building, taking into consideration the amount it has cost.

Most respectfully,

STATE CAPITOL COMMISSION.

By P. J. GOULDING, Vice Chairman.

R. L. WILLIAMS, Governor.

CONTRACT FOR THE CONSTRUCTION OF THE OKLAHOMA STATE CAPITOL BUILDING.

Whereas, By advertisement duly made and published according to law, the State Capitol Commission on behalf of the State of Oklahoma requested proposals for furnishing all the labor and materials necessary for building and completely finishing the new State Capitol building at Oklahoma City, Oklahoma, as hereinafter provided for; and,

Whereas, The proposal of James Stewart and Company, a corporation organized under the laws of the state of New York, and duly authorized and empowered to do and transact business in the State of Oklahoma, in response to said advertisement, notice, and request from the State Capitol Commission, proposed to do all labor and pay for the same and to furnish all material and pay for the same, which may be necessary to fully complete said new State Capitol building as hereinafter required and specified; and,

Whereas, The bid of the said James Stewart and Company, Incorporated, was duly considered by said State Capitol Commission and accepted by said body, a copy of said acceptance is attached to this contract, marked "Exhibit A" and made a part hereof as fully and completely as though cited in full herein; and,

Whereas, The State Capitol Commission, in pursuance of the law, has decided and entered of record that the contractor should enter into two bonds, payable unto the State of Oklahoma, one in the sum of one hundred thousand ($100,000.00) dollars, conditioned for the faithful performance of this contract, which said bond shall be the bond of some surety company authorized to do business in the State of Oklahoma and approved by said Capitol Commission; also one bond in the sum of one million two hundred and fifty-three thousand five hundred ($1,253,500.00) dollars, payable to the State of Oklahoma, conditioned that such contractor or contractors shall pay all indebtedness incurred for labor and material furnished in the construction of said building, the sureties on which said bond may be such persons as may be approved by said State Capitol Commission; or in lieu of the bonds aforesaid that the contractor shall enter into one bond in the penal sum of ($1,253,500.00) one million

two hundred fifty-three thousand, five hundred dollars, payable to the State of Oklahoma, the surety on which said bond shall be some surety company or companies authorized to do business in the State of Oklahoma and approved by said State Capitol Commission, which said bond shall be for the faithful performance of this contract, and also that such contractor or contractors shall pay all indebtedness incurred for labor and material furnished in the construction of said building.

Whereas, The contractor herein, the said James Stewart and Company, Incorporated, shall enter into the bonds required by this contract, within ten days from the date hereof, which said bonds shall be in all respects approved by said Capitol Commission as is in such cases required by law and this contract shall not be binding on the parties hereto until said bond or bonds are fully executed and approved.

Now, Therefore, this agreement made, entered into and completed on this 3rd day of August, A. D., 1915, by and between James Stewart and Company, Inc., a corporation duly organized under the laws of the state of New York, and duly authorized to do and transact business in the State of Oklahoma, party of the first part, and hereafter known as the contractor, and the State of Oklahoma, acting by and through the State Capitol Commission of the State of Oklahoma, party of the second part, and hereinafter called the Commission.

WITNESSETH: The contractor aforesaid, in consideration of the premises hereinafter set forth and of the prices hereinafter agreed to be paid to it by the Commission aforesaid, and in the manner hereinafter set out, does hereby undertake and agree to do and perform to the entire satisfaction and acceptance of said Commission, the second party, all of the following described work:

To complete in every detail the building of the new state Capitol Building, which shall include all plumbing, drainage, water supply, heating, ventilation, electrical work, and the piping for vacuum cleaning system, and all other mechanical equipment which is specified and required by this contract, as evidenced by this contract, plans, drawings, elevations, specifications, proposal and acceptance hereto attached, each of which are made parts of this contract.

All the materials of every kind and description used in the building herein contracted for shall be of the very best quality of their respective kinds as classified in the specifications, all work performed shall be executed in the most skilled and thoroughly workmanlike manner, and it is expressly agreed by and between the parties hereto, that all materials used and all work performed on said building shall be in every respect to the entire and complete satisfaction of the State Capitol Commission as hereinafter provided.

It is hereby agreed by and between the parties hereto that the following exhibits shall be and are hereby declared to be essential parts of this contract, which the contractor agrees to accept as constituting the component parts of this contract:

Exhibit "A." The proposal of the contractor, dated the 7th day of June, 1915.

Exhibit "B." The certified copy of the record of the State Capitol Commission, showing the acceptance of the proposal of the contractor herein.

Exhibit "C." The general specifications concerning the erection of the complete building of the State Capitol, being composed of Section numbered 1, page 46 to Sec, No. 300, page 213, both inclusive, and also including alternates marked "D" substituting Bedford stone for stone specified above water table course marked "B."

Exhibit "E." Substituting Oklahoma Light Grey Granite for stone specified up to and including water table course marked "B."

Exhibit F-7." Substituting light colored marble from Vermont quarries for all interior marble shown in basis of contract.

Exhibit "Q." Substituting metal base for cement specified in rooms.

Exhibit "T." Substituting brass pipes and fittings for galvanized wrought iron pipes where cold water pipes are concealed.

Exhibit "V." For installing two elevators and book lift as specified.

Exhibit "W." Substituting ¼-inch polished plate glass in alil windows where crystal glass is called for.

Exhibit "D." The specifications for the plumbing, drainage and water supply of said building, and composed of Sections numbered from Section one, page 255 to Section 57, page 249, both inclusive, and numbered consecutively and such alternates as are contained in said specifications and accepted herein.

Exhibit "E." Being specifications for heating and ventilation for the Oklahoma State Capitol Building, being composed of Section 1 on page 252, to Section 55 on page 301 both inclusive; and specifications for piping for vacuum cleaning system, Section 5, on page 304, under "Vacuum Cleaning System."

Exhibit "F." Being specifications for all electrical wiring and mechanical mechanism in connection therewith, composed of sections numbered consecutively from Section 1, page 307, to Section 45, page 332, both inclusive, and all such alternates as appear therein and as are accepted herein.

Also the drawings as specifically set out in "Exhibit C" hereof, which drawings are separately identified as follows:

Numbers 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41 and F-2 to F-12 both inclusive, pages 69, 70 and 71, and the following additional drawings numbered 42, 43, 44, 45, 46, 47, and 48, also addenda to specifications and form of bid and instructions to bidders; and also addenda 1 to 8, inclusive, and questions and answers 1 to 42 and having pages Nos. 1 to 16.

And it is understood and agreed that for the price stated in this contract the contractor shall use Bedford stone above water table "B," as called for in Alternate "D," with Oklahoma Light Grey Granite up to and including water table "B" as per alternate bid "E." All interior marble changed from Oklahoma marble to light colored Vermont marble as per alternate bid "F-7." Metal base substituted for cement base in rooms as per alternate bid "Q." Brass pipes substituted for iron pipes for cold water system as per alternate bid "T." Plate glass substituted for Crystal glass as per alternate bid "W." Two elevators to be furnished and book lift as per alternate "V," one in SW, one in NE corner piers and as specified in Sec. 1, page 334 to Sec. 33, on page 351, inclusive.

And it is also agreed that the following errata appear in the specifications, to-wit:

Page 96. Insert following paragraph omitted before last paragraph in Section 86; "All bars to be of uniform quality throughout, without surface or structural defects of any character and shall be delivered and kept, until placed, free from grease, paint, dirt or heavy rust."

Page 138. "Painting" in twelfth line should read "pointing" and "castings" should read "casings."
Page 158. "Does not relieve the con-" should read "for the accuracy of fig-."
Page 164. Insert the word "brass" after removable in the twelfth line.
Page 219. "Around" in second line of last paragraph should read "ornamental."
Page 221. The figures "253" under alternate "X" should read "333."
Page 231. Omit "pattern brass steam fittings" from second line.
Page 232. "Sell" in fourth line should read "soil."
Page 241. "¾" in fourth line Section 41 should read "¼."
Page 253. Omit word "general" from fourth line.
Page 263. "Toes" in line nineteen should read "tees."
Page 275. "Room" in line thirty should read "floor."
Page 276. "Room" first line should read "floor."
Page 277. Omit next to last paragraph which repeats paragraph above.
Page 333. "Two" in third line should read "one."
Page 344. Last paragraph in Section 18 should read "Spring Buffers: Heavy Buffer springs are to be mounted at the bottom of shaft to prevent car platforms or mechanism mounted under same and counter weights from striking bottom of shaft if car travel is exceeded up or down."

The building required to be built under this contract shall be located upon the State Capitol Grounds in Oklahoma City, Oklahoma County, Oklahoma, and shall be built upon the present foundations, so that the building when constructed and com-

pleted shall be, together with the work now constructed under former contracts, one complete and systematic structure as called for by plans, specifications and this contract.

It is agreed that the work shall be commenced under this contract in good faith immediately after the date of the signing of this contract, and the contractor agrees to complete the House and Senate Chambers provided for in said plans and specifications, together with the committee rooms to these said Chambers on or before the first day of December, 1916, so that the same may be used and occupied by the legislature by said date, as fully and conveniently as if the entire building itself were completed, ex-inconveniences and conditions necessarily resulting from an incomplete building and construction work on same, and the contractor also agrees to complete the entire building according to the terms of this contract within seven hundred and fifty calendar days from the date of the signing of this contract.

It is expressly understood and agreed by and between the parties to this contract that at the treaty for this contract, it was and now is understood and agreed by and between the parties hereto that the day upon which the House and Senate Chambers shall be completed and also that the time within which the entire building is to be completed by the contractor were each to be and are of the essence of this contract.

WHEREAS, It is agreed and understood that whatever time is mentioned in this contract, time shall be and is of the essence of this contract.

It is therefore, understood and agreed by and between the parties hereto that the State of Oklahoma would suffer loss should the contractor herein fail to have the House and Senate Chambers and the committee rooms to be occupied by the legislature fully completed in all their parts as herein provided on or before the first day of December, 1916, in condition as above set forth; that all loss and damage thus occasioned and suffered by the State of Oklahoma, by failing to have the said House and Senate Chambers and said committee rooms completed by the time herein stipulated, the contractor expressly agrees to make good and pay to the State of Oklahoma.

The occupancy of said House and Senate Chamber and committee rooms shall not be construed as an acceptance of the work or any part thereof, but the contractor shall not be re-

sponsible for any damage to said building occasioned by such occupancy, but if damage occur and dispute arises as to the amount thereof, then the same shall be settled by arbitration as provided herein.

And it is also understood and agreed by and between the parties hereto that the State of Oklahoma would suffer loss should the contractor herein fail to fully complete said building in all its parts within seven hundred and fifty (750) calendar days from the date of this contract, and in its fully completed condition deliver said building to the State Capitol Commission for and on behalf of the State of Oklahoma, and all loss and damage said contractor's failure to so complete and deliver possession of said building, occasioned and suffered by the State of Oklahoma, the said contractor also expressly agrees to make good and pay to the State of Oklahoma.

Therefore, in order to satisfactorily adjust the damages on account of such failure to fully complete said building and deliver said building within seven hundred and fifty days, the parties hereto, realizing that it might be impossible to accurately compute or estimate the amount of such loss or damage which the State of Oklahoma would sustain by reason of the contractor failing to fully complete said building within the time required by this contract, the contractor hereby covenants and agrees to pay to the State of Oklahoma as liquidated damages the sum of Three Hundred ($300.00) Dollars per day for each and every day, Sundays and legal holidays excepted, after the time fixed for the completion of said building in this contract, during or upon which the said work or any part thereof remains incomplete and unfinished or while said building is in possession of the contractor herein; it is expressly agreed that said sum is not and shall not be considered as a penalty, but it is understood and agreed between the parties hereto that said sum shall stand as the liquidated and compensatory damages which the State of Oklahoma will suffer per day for each and every day for and on account of any failure on the part of the contractor to have said work complete in all its parts on or before the number of days allowed, by this contract, and that any sum which may be due the State for such damages shall be deducted and retained by the State through the State Capitol Commission from any balance which may be due the contractor herein when said work shall have been finished and accepted as hereinafter provided.

And the said sum of Three Hundred ($300.00) Dollars, per day is hereby agreed upon by and between the parties hereto as

being the amount of the loss which the State will sustain for each and every day the contractor shall retain possession of said building in excess of seven hundred and fifty days from the date of the signing of this contract and in case of any failure to complete the entire building within the time fixed, the State of Oklahoma shall be under no obligations to show or prove any actual or specific loss or damage.

It is, however, understood and agreed that in case any such failure to complete the said work or any part of same upon the date herein provided for its completion shall be due to any cause or circumstance absolutely and entirely beyond the control of the contractor, then so much of the delay as shall result from any such cause or damage or circumstance shall form no part of the number of days for which the contractor is to pay the State of Oklahoma the said sums as hereinbefore specified. However, the contractor shall give notice in writing to the Chairman of the State Capitol Commission in person or in his absence to the person in charge of his office of any such cause or circumstance and within ten days after such cause or circumstance shall appear, come to pass, arise or occur. Thereupon it shall be the duty of the said Commission or its Chairman to investigate or cause to be investigated all the facts and circumstances upon which said notice is predicated; and if as a result of such investigation the Commission should find the facts to be as stated and claimed by the contractor, they shall thereupon enter of record an approval of the contractor's claim for an extension of time, and shall state in said record the number of days adjudged by them for which the contractor is entitled to credit on account of any cause or circumstance; and the contractor hereby expressly covenants and agrees that he shall not be entitled to, and that he will not claim any reduction of damages on account of any such cause or circumstance unless such notice is given to the Commission as above specified, and then only in such number of days as shall be allowed by the Commission as herein specified, provided, however, that appeal from the decision of the Commission may be made to arbitration as provided herein.

No alterations shall be made in the work shown or described by the drawings and specifications and alternates which were accepted except upon the written order of the Comission and when so made the value of the work added or omitted shall be computed by the architects and superintendent of construction and the amount so ascertained shall be added to, or deducted from the contract price. In case of dissent from such award by either party hereto the valuation of the work added or omitted shall

be referred to three disinterested arbitrators, one to be appointed by each of the parties to this contract, and the third by the two thus chosen, the decision of any two of them shall be final and binding and each of the parties hereto shall pay one-half of the expense of such reference. It is understood however that no changes or additions in the building will be directed by the Commission or required to be made by the contractor which would increase the total cost of the building above the limit of One Million Five Hundred and Fifteen Thousand Dollars.

The contractor takes the work provided for solely upon his own information and judgment, having considered the character of the work in all of its details, the difficulties to be overcome, and the location and amount of the various kinds of material to be used; the Commission will be represented by the Superintendent of Construction and the Architects as provided in the act creating the Capitol Commission and the amendments thereto and the contractor expressly understands that the Commission will not be held responsible in any wise for any representation made by any one who asumes the right to represent the Commission, it being understood in this case that the Commission is only authorized to act when they have met together as a Commission and then their conclusions as such Commission must be shown by minutes of record duly kept as required by law and not otherwise.

It is understood that the plans' drawings, specifications and elevations are furnished the contractor by the Commission for the general information of the contractor, but it is understood that the Commission does not guarantee the accuracy of such information, unless as may be herein otherwise provided and the contractor hereby declares and agrees that he shall be accountable for the full performance of this contract and by the signing hereof admits that said plans, elevations, drawings, and specifications before referred to are sufficient to their intended purpose of a completed building as indicated by the said plans and specifications and that, too, without any additional extra work, other than the work set forth thereby, or necessarily inferred to be done from the general nature and tendancy of the plans and descriptions aforesaid.

Provided that nothing in this paragraph is intended to mean that the contractors guarantee the design, but that it is intended to cover only the unimportant details possibly not clearly shown on the plans as well as errors in measurement and

provided further that nothing herein contained is intended to modify, affect, change or limit in the least the following clause contained in addenda No. 2, to-wit:

The person, firm or corporation to whom the contract is awarded will be required to accept the work of construction now completed and take all responsibility in connection with the same and assume all responsibility in connection with the same and assume all responsibility for its correctness and hold the State blameless for any defects and imperfections that may be found upon his taking charge of the work, and he will be required to hold the State blameless for any defects that may appear on account of the work now in place as the work progresses. The contractor will be required to correct any mistakes that have been made at his own expense and assume all responsibility. In other words, the contractor takes that portion of the building as now completed and takes all responsibility therefor.

The contractor agrees during the work under this contract that no intoxicating liquors will be permitted inside of the inclosure of the State Capitol Grounds.

It is understood and agreed by the parties hereto that any person in the employ of the contractor or of any sub-contractor who, in the opinion of the Commission or their architects or superintendent of construction, does not perform his work in a proper, suitable, or workmanlike manner, or who is riotous, disrespectful, intemperate, disorderly, or otherwise troublesome, shall by the written request of the Commission, their architects or superintendent of construction be forthwith discharged by the contractor or sub-contractors as the case may be.

If the State Capitol Commission shall find that the contractor in neglecting to remedy any imperfection in the work required of him under this contract or has not sufficient force employed to insure the completion of said building in all parts, and departments thereof within the time and in the manner herein required or is otherwise violating any of the provisions of this contract, then said Capitol Commission shall have the power to order and direct the contractor to remedy such imperfections, proceed more rapidly with said work, increase his force, or otherwise comply with the provisions of this contract; and it is agreed that the contractor will comply with such order within five days after service or notice thereof or within such additional time as may be named therein.

It is further expressly agreed that if the contractor should fail or refuse to carry out in good faith the requirements of this contract, and to diligently and satisfactorily do the work herein, then the State Capitol Commission shall have full power and authority in behalf of the State of Oklahoma to declare this contract forfeited and abandoned by the contractor herein; if forfeiture is declared as herein provided, then this contract shall immediately cease as far as the contractor is concerned. In case of forfeiture, it is agreed that the amount of money which may then remain unpaid and would otherwise be payable to the contractor under this agreement, including the percentage retained on all monthly estimates, shall be kept, retained, and appropriated by the State of Oklahoma, to the payment of any damages which may be sustained by the State of Oklthoma by reason of such forfeiture, and the contractor shall have no claim to said money, or to any part thereof until after such damages are paid in full. It is understood in this connection that no forfeiture shall be declared by the Commission except for good and substantial grounds existing therefor.

It is understood and agreed that if forfeiture of this contract should be declared by the State Capitol Commission and the contract become forfeited, then such forfeiture shall not relieve the contractor or his surety from any of the obligations of this contract, nor from paying to the State of Oklahoma, all loss, damage, or expense incurred by the State of Oklahoma, or the State Capitol Commission, on account of the contractor's violation or abandonment of this contract.

It is agreed that should forfeiture be made by the contractor under this contract as herein provided, then the contractor shall promptly surrender possession of all of the work contemplated under this contract immediately upon the happening of such contingency as herein named; and upon his refusal so to do the State Capitol Commission and the State of Oklahoma shall have the right to remove the contractor therefrom, using such force as may be deemed necessary for that purpose, and the contractor hereby agrees to surrender peaceable possession of all of the said works and plans, drawings, specifications and all other property then upon the State Capitol Grounds, immediately upon demand of the State Capitol Commission, should forfeiture be declared by them as is provided by the terms of this contract.

It is agreed by the parties hereto that should the contractor herein forfeit this contract, or if for any reason said contractor

should fail to carry out the requirements of this contract, then it is agreed that the State Capitol Commission may declare a forfeiture of this contract and within five days thereafter shall notify the contractor's surety of such forfeiture, and thereupon the said sureties for the contractor herein shall have the right to take charge of all of the work herein specified and to carry out the same and finally complete and finish the building herein contracted for, but such sureties, should they assume the responsibility of completing said building, should notify in writing the Commission within ten days from receiving the notice of forfeiture from the Commission.

It is expressly understood in this connection that if said surety should avail itself of the privileges herein extended, then said surety shall strictly and faithfully comply with each and every requirement, provision, covenant, conditions, and undertaking of the contract as set out and specified in this contract. In such case the said surety will stand in the place of the contractor under this contract and be subject to all of the requirements, liabilities, penalties, damages, and conditions which were assumed and agreed to be performed by the contractor herein.

If said surety should fail, neglect, or refuse to notify the Commission as herein provided of its desires and intentions to proceed with the work hereby contracted for, immediately then the Commission shall have the right to execute the work as the said Commission sees fit.

It is expressly agreed and covenanted by the parties hereto that in case of the forfeiture of this contract as herein provided, or in case the contractor shall abandon or fail to carry out the provisions of this contract as herein required, or in case of the contractor's bankruptcy, or if for any other reason the contractor should not proceed faithfully, efficiently and promptly to carry out the provisions, terms, and requirements of this contract then the contractor in such case hereby expressly agrees that all machinery, equipment, plant and materials and all things whatsoever provided by the contractor for the work herein contracted for shall, until the final completion of this work, be the property of the State of Oklahoma for the purpose of the work herein specified. It is further understood and agreed that in the re-letting of said contract in case of forfeiture as aforesaid, that the State Capitol Commission shall have full and complete power and authority to use, in connection with said re-letting, all of the machinery, plant, equipment, materials, or things

that remain undisposed of and unused, it being understood that the State Capitol Commission will not be responsible for any damage, loss or destruction to any such property which may be left in their possession by the contract herein in case of his forfeiture of this contract.

The contractor herein covenants and agrees to promptly pay each and every sub-contractor that may undertake to perform any portion of the work herein contracted for, and the contractor herein likewise covenants and agrees to promptly pay all material men, laborers, and other employees as may assist in the construction of the building herein contracted for, as soon as payments are made to him by the State Capitol Commission, he agrees to furnish said Commission satisfactory evidence of the payment of said bills in every case. Provided, however, that said work is satisfactory and acceptable to the State Capitol Commission, their architects and superintendents; it being understood, however, that the Commission reserves the right to finally pass upon and finally accept the work of any sub-contractor herein when it finally passes on the question as to whether the building as completed and tendered by the contractor herein shall be accepted by the Commission.

Before final settlement is made between the parties hereto for work done and materials furnished under this contract, the contractor shall furnish evidence satisfactory to the State Capitol Commission that the work covered by this contract is free and clear from all just claims for labor or materials and that no just claim exists unpaid by said contractor, but it is understood in this connection that the State Capitol Commission, either as a Commission or individually, does not assume to guarantee the payment of all claims, or of any claim for material or labor in making final settlement with the contractor herein. Neither does the Commission or any member thereof assume any responsibility hereunder by reason of having received the work contracted for herein and paid to the contractor the full contract price for same.

Before the contractor shall be entitled to receive final payment under this contract, the contractor shall duly acknowledge and deliver, or cause to be delivered, properly executed, a release and discharge of the State of Oklahoma and the State Capitol Commission, from any and all claims and demands for and in respect of all materials and things growing out of or connected with the contract or the subject matter thereof; and of and from all claims and demands whatsoever and shall also fur-

nish such release from sub-contractors, material men, and laborers as may be required by the State Capitol Commission.

The termination of this contract in any manner shall not in any wise limit, abrogate, or affect any liability of the contractor herein, which may have accrued at the time of such termination; in such case the contractor shall not be entitled to any damages or claim for damages on account of the termination of this contract in any manner as provided herein.

It is agreed that the provisions of this contract shall be binding upon the contractors herein, their successors or assigns and sub-contractors so far as sub-contracts or assignments are permitted hereunder.

It is understood by the parties hereto that the laws of Oklahoma shall enter into and become a part of this contract, so far as said laws affect the subject matter of this contract, as fully as if said laws were written in this contract.

It is further understood by the parties hereto that in construing this contract it shall be considered and declared to be an Oklahoma contract.

In this connection it is also understood that the State Capitol Commission is an administrative and executive commission, have been appointed by express authority of law, and that their powers and duties as such Commission is expressly provided and limited by law; that the contractor hereby accepts the limitation placed upon the powers of said Commission, that he will not hold said Commission personally liable for anything or matter connected with or pertaining to this contract; and that in all of the contractor's dealings with said Commission, he will deal with them with full notice and knowledge of their limited powers.

In case there should be any conflict between any provision or provisions in the specifications herein referred to which are a part of this contract and this contract as written, then it is expressly agreed by and between the parties hereto that the written provisions and requirements of this contract as written herein shall prevail and govern as against any conflicting provision of said specifications.

It is agreed that payments to the contractor under this contract shall be made in the manner provided by Sec. 7, Chap. 220, Oklahoma Session Laws, 1913, and Chapters 166 and 241, Oklahoma Session Laws, 1915, in the amounts and at the times

stated in the specifications hereto attached marked "Exhibit C," Sec. 9, page 50, except as to deductions herein otherwise provided for.

The Commission, in consideration of the prompt, faithful and efficient performance by the contractor of all and singular its covenants, promises, agreements, stipulations, conditions and undertakings herein contained, hereby agrees to pay to the contractor, upon the full and satisfactory completion by it of all the work embraced in this contract, done in the manner and within the time specified and limited for the completion thereof, and upon its being finally approved and accepted as provided in this contract and the specifications, the full sum of $1,253,-500.00 (one million, two hundred and fifty-three thousand and five hundred dollars). It being understood, however, that certain advance payments on the contract price will be made to the contractor prior to the final completion of the work at the times on the conditions, and under the terms set out in the specifications in this contract.

It is agreed by and between the parties hereto that all conditions, provisions and requirements set out in these specifications herein referred to, except as changed or amended by this contract, are hereby adopted as conditions, provisions and requirements of this contract as fully and as effectually as if said conditions, provisions and requirements are written out in full herein; and the contractor hereby covenants to accept and comply with each of said conditions, provisions and requirements so written out in the specifications herein referred to as fully and effectually as if the same were written at length herein.

The architects and Commission shall furnish to the contractor such further drawings or explanations as may be necessary to detail and illustrate the work to be done, and the contractor shall conform to the same as part of this contract insofar as they may be consistent with the original drawings and specifications referred to herein and hereinbefore identified.

It is mutually agreed and understood that all drawings and specifications are and remain the property of the Commission.

It is further understood and agreed that no claim for compensation for any extra materials or work is to be made or allowed unless the same be specifically agreed upon in writing and directed in writing by the Commission; that no addition to, omission from, or changes in the work or material herein

specifically provided for shall make void or affect the other provisions or covenants of this contract, but the difference in the cost thereby occasioned, as the case may be, shall be added to or deducted from the amount of the contract; and in the absence of an express agreement or provisions to the contrary, no addition to or omission from or changes in the work or material herein specifically provided for shall be construed to extend the time fixed herein for the final completion of the work or any part thereof.

It is an express condition of this contract that no member of the State Capitol Commission, its architects or the Superintendent of Construction, shall be admitted to any share in this contract or to any benefit to arise therefrom, and it is further covenanted and agreed that this contract shall not be assigned.

It is further understood and agreed by and between the parties hereto that the said contractor will without expense to the State of Oklahoma, comply with all of the municipal building ordinances and regulations insofar as the same are binding upon the State of Oklahoma, and obtain all required licenses and permits and be responsible for all damages to persons or property which may occur in connection with the prosecution of the work, through the negligence of himself or his employees, and that all work called for by the drawings and specifications, though each item be not particularly shown on the drawings or particularly mentioned in the specifications, shall be executed and performed as though such work were particularly shown and mentioned in each. The contractor shall be responsible for the proper care and protection of all materials delivered and work performed by said contractor until the completion and final acceptance of same.

It is further agreed by and between the parties hereto that the said contractor will make any omission from, additions to or changes in the work or materials herein provided for, whenever required by said Commission as herein provided; the valuation of such work and materials is to be determined on the basis of the contract unit of value of material and work referred to; or in the absence of such unit of value, upon the prevailing market rates; which market rates, in case of disputes, are to be determined by arbitration as herein provided; and that no claim for damages on account of such changes or for anticipated profits, shall be made or allowed except as provided in this contract.

The State Capitol Commission hereby agrees to furnish to the contractor all the crushed stone and sand required to con-

struct the reinforced concrete frame of the State Capitol Building above the mezzanine floor, said crushed stone and sand to be delivered upon the building site, Oklahoma City, f. o. b. cars and the con tractor agrees to pay therefor the sum of One Dollar and Fifty-five ($1.55) cents per cubic yard for crushed stone and one dollar and thirty cents ($1.30) per cubic yard for sand; the Commission also agrees to furnish f. o. b. cars, building site in not less than car load lots of One Hundred barrels each, the amout of Portland Cement needed to complete the concrete frame work and rough floors and the contractor agrees to pay therefor the sum of One Dollar and Seventy-one cents ($1.71) per barrel gross for said cement, it being understood that all this material is acceptable under the specifications and all the said materials shall be delivered when and as required by the contractor:

It is understood and agreed by the contractor that under the terms of this contract no indebtedness shall be deemed to be created against the State of Oklahoma in excess of the appropriation available for the purpose of building the State Capitol Building for the State of Oklahoma at the date of the signing of this contract. Neither the Commission nor any of its members are to be held personally liable for any of the work contracted for under any of the provisions of this contract.

The materials on the ground required by the addenda to specifications and form of bid to be taken over by the contractor have been inventoried and the total value agreed to be ($38,188.37) Thirty-eight Thousand, One Hundred Eighty-eight and 37-100 Dollars and the receipt and possession of same are hereby acknowledged by the contractor and the amount of the agreed price for same herein stated may be deducted from the monthly payments made to the contractor in six (6) equal instalments of ($6,364.73) Six Thousand Three Hundred Sixty-four and 73-100 Dollars each to be made from the first six (6) monthly payments becoming due under the terms of this contract.

This contract is to be construed as a whole and no particular sentence or paragraph is to be considered to the exclusion of any particular sentence or paragraph when arriving at the intention of the contracting parties. Interlineations were made prior to the execution of this contract.

IN WITNESS WHEREOF, The party of the first part, herein designated as contractor, has caused this contract to be

executed by authority of its board of directors and signed by its duly authorized agent, J. H. Frederickson, and attested by its corporate seal and its secretary, and the party of the second part herein known as the Commission, acting for and in behalf of the State of Oklahoma, by an order duly entered of record in the minutes of said Commission, has caused these presents to be signed by its Chairman and all of its members and attested by its Secretary and the seal of said Commission, all of which is done this the 3rd day of August, A. D. 1915.

The following committee report was read:
Mr. Speaker:

We, your Committee on Enrolled and Engrossed Bills, beg leave to report House Bills Nos. 54 and 56 correctly engrossed.

POWELL, Chairman.

The Speaker signed the engrossed copies of House Bills Nos. 54 and 56 in open session.

The following communication was received from the Governor, and ordered filed with the clerk for future reference.

To the Senate and House of Representatives of the Sixth Legislature of the State of Oklahoma:

In accordance with the requirements of Section 10, of Article 6 of the Constitution of this State, I herewith, transmit to you data relative to each case of reprieve, commutation, parole or pardon granted by me, covering the period beginning with the second Monday in January, 1915, to the first day of January. 1917. This data gives the name of the convict, the crime of which he was convicted, the date and place of conviction, and the date of commutation, pardon, parole or reprieve, and this includes expiration pardons.

As to reprieves, commutations, paroles and pardons, other than expiration pardons, the facts and reasons are given as to why such reprieves, commutations, paroles and pardons have been granted.

We have endeavored to establish a pardon and parole system on merit. That when a prisoner enters upon the service of a sentence within a Penitentiary in this State, he may do so

with a realization that his good conduct will be reasonabley rewarded. The reason that the man is incarcerated as a prisoner, is because he has forfeited his right to be free in society on account of infractions against the laws of the State. When he has demonstrated, by observing prison discipline and being an industrious prisoner and loyal to the State in such capacity, after a reasonable length of service, the gravity of the offense for which he was convicted and the length of his sentence being considered, if with reason he may be permitted to make another trial as a free man in society, he should have that opportunity. That is the test and standard we have attempted to establish relative to the State Prisons, whether the prisoner was friendless or had many friends back of him. We have endeavored to cause these unfortunate prisoners in the penal institutions to realize that we earnestly propose to conduct this parole and pardon system without fear or favor, and with a view of the good of the prisoner and the protection of society.

Respectfully submitted,

R. L. WILLIAMS,

Governor of the State of Oklahoma.

The following messages from the Senate were read:

To the Speaker of the House of Representatives:

I am directed by the Senate to transmit herewith for the consideration of your Honorable Body the engrossed copy of Senate Concurrent Resolution No. 7, by Cordell of the Senate and Mayfield of the House, A Resolution inviting Captain Richmond Pearson Hobson to address a joint session of the Senate and House of Representatives of the Sixth Legislature of Oklahoma, on Tuesday, February 6, at 2:30 p. m., and to inform you, and through you, the Honorable House of Representatives,

that this resolution has been adopted by the Senate and was signed by the President in open session.

Respectfully,

JOE S. MORRIS,
Secretary.

On motion of Mr. Riley, the rules were suspended and Senate Concurrent Resolution No. 7 considered.

On motion of Mr. Riley the resolution was adopted as read.

To the Speaker of the House of Representatives:

I am directed by the Senate to transmit herewith for the consideration of your Honorable Body engrossed copies of Senate Bill No. 54, by Edmonson and Hogg, "An Act to amend Section 139, Article 7, Session Laws of 1913, relating to the formation of consolidated school districts"; and Senate Bill No. 48, by Vaughan, "An Act requiring Boards of Educa-session.tion of independent districts make an annual financial statistical report, etc.," and to inform you, and through you, the Honorable House of Representatives, that these bills have been passed by the Senate and were signed by the President in open session.

Respectfully,

JOE S. MORRIS,
Secretary.

The following communications were received from the Governor:

To the Senate and the House of Representatives of the Sixth Legislature:

Section 7660 of the Revised Laws of Oklahoma, Annotated 1910, provides that the income from Section 13 and New College Lands or funds, shall be apportioned for the use and benefit of the University of Oklahoma, Agricultural and Mechanical College, the normal schools, the University Preparatory School and the Colored Agricultural and Normal University and Preparatory School, one-third; the University of Oklahoma to receive five-eights of said one-third, the University Preparatory school to receive three-eights of said one-third; to the Ag-

ricultural and Mechanical College and the Colored Agricultural and Normal, one-third; the Agricultural and Mechanical College to receive nine-tenths of said one-third, and the Colored Agricultural and Normal University to receive one-tenth of said one-third; to the normal schools, one-third, the same to be equally divided among said normal schools.

Section 8 of the Enabling Act provides that said income as above proportioned, shall be divided between the State University and the University Preparatory School as the Legislature of this State may prescribe. (Williams Ann. Constitution, Section 420, page 251.)

The Secretary of the Commissioners of the Land Office, under date of January 4, 1917, advises me that the earnings or income from said trust fund for the past year amounts to $223,-027.73, one-third of which is $74,342.57.

Under this apportionment the State University is apportioned from Section 13, five-eighths of one-third ____ $46,464.10
From New College Lands _____ 41,930.80

Total earnings from both funds for 1916 _____ 88,394.90

UNIVERSITY PREPARATORY

From Section 13, three-eights of one-third _____ 27,878.46
From New College Lands _____ 28,789.32

Total earnings from both funds for 1916 _____ 56,667.78

A. and M. COLLEGE.

From Section 13, nine-tenths of one-third _____ 66,890.25
From New College Lands _____ 48,856.95

Total earnings from both funds for 1916 _____ 115,747.20

COLORED AGRICULTURAL AND NORMAL UNIVERSITY.

From Section 13, one-tenth of one-third _____ 7,432.25
From New College Lands _____ 15,369.68

Total earnings from both funds for 1916 _____ 22,801.93

NORMAL SCHOOLS.

From Section 13, one-third	74,342.57
From New College Lands	53,112.34
Total earnings from both funds for 1916	127,454.91

This divided among the six state normal schools will give each of them $21,242.48.

The Secretary of the Commissioners of the Land Office advises me that he thinks it will be safe to use these figures as the estimate for the years 1917 and 1918 in making appropriations for these several institutions.

You will note that, in the division of the fund between the Langston School and the A. and M. College at Stillwater, one-tenth of said one-third is apportioned to the Langston School and nine-tenths of said one-third to the A. and M. College at Stillwater.

I respectfully recommend that said Section 7660 of the Revised Laws of Oklahoma, Ann. 1910, be amended so as to apportion one-tenth of one-third to the University Preparatory school and the other nine-tenths of the one-third to the State University.

Most respectfully,

R. L. WILLIAMS, Governor.

To the Senate and House of Representatives of the Sixth Legislature of the State of Oklahoma:

Chapter 65 of the Session Laws 1913 requires State officers and heads of State Institutions who shall collect or expend any money for, or on behalf of the State to make a detailed statement to the Governor at the close of the fiscal year, showing the amount and character of all funds collected by them, from whom collected, and the expenditures.

Herewith is transmitted to each branch of the Legislature copies of such reports received. Section 2 of said Act provides that the Governor shall cause sufficient number of said deports to be printed, to provide a copy thereof to each member of the Legislature and to other State Officials, the same to be delivered to the Secretary of State for such distribution.

The Legislature made no appropriation to have these reports printed, and for that reason I am unable to comply with that provision of said Act. Copies of these reports are being transmitted both to the Senate and House for your information. If it is the desire of the Legislature that these reports be printed an appropriation for that purpose should be made. With reference to the office of Governor, will say that no money has been collected by this office during the fiscal year ending June 30, 1916.

Appropriations to maintain the Governor's office for the fiscal year ending June 30, 1916, are as follows:

The Fifth Legislature made the following appropriation for Governor's office:

1. Salary of Governor $4,500.00
2. Salary of Private Secretary 2,000.00
3. Salary of Chief Clerk 1,800.00
4. Salary of Stenographer 1,200.00
5. Salary of Stenographer 1,200.00
6. Salary of Pardon and Parole Officer 1,800.00
7. Contingent fund, traveling expenses, printing, stationery, stamps, express, freight, telegraph, telephone, office supplies, special services, and extra help, including traveling and necessary expenses for special services and extra help 6,000.00
8. For special services in devising and installing an efficient system of checks and balances between officers of the Executive department and all commissioners and superintendents, and boards of Control of State Institutions, and all other officers intrusted with the collection, receipt, custody or disbursement of the revenue or moneys of the State, whatsoever, as provided by Section 60 of Article 5, of the Constitution 12,000.00
9. For the purpose of conducting a special investigation of loans made on State School Lands, and for the re-appraisement of cer-

tain lands on which excessive loans are alleged to have been made 2,500.00

10. Appropriation for care of wayward and incorrigible girls to be expended under direction of Governor, ending June 30, 1916, 14,400.00

At the close of the fiscal year ending June 30, 1916, the following amount remained unexpended:

5.	Stenographic fund	$ 16.12
7.	Contingent fund	2,032.44
8.	Checking system	841.64
9.	Investigating School Lands	1,146.37
10.	For expert assistant for board of equalization	1,850.43
11.	Care of Wayward Girls, ...	408.40
	Total	$6,295.40

No deficiencies under any item in this department for the fiscal year ending June 30, 1916.

Respectfully submitted,

R. L. WILLIAMS,

Governor of the State of Oklahoma.

The followin communications were received from the Governor:

To the House of Representatives:

This is to advise that House Bill No. 54, by Durant, "An Act making an appropriation for the payment of mileage and per diem of the members and contingent expenses of the Sixth Legislature, and declaring an emergency"; and

House Bill No. 56, by Durant, "An Act making an appropriation for the payment of the salaries of officers and employes of the Senate and House of Representatives of the Sixth Legislature, and declaring an emergency," were on January 13th, 1917, approved by the Governor.

Yours very respectfully,

A. L. WALKER,
Secretary to the Governor.

To the Senate and House of Representatives of the Sixth Legislature of the State of Oklahoma:

An Act approved March 26, 1915, (Session Laws, 1915, Chapter 243, page 569), "An Act making an appro-

priation for the purpose of installing and equipping business enterprises, occupations, factories, shops, manufacturies, farming and other business to be used at the Oklahoma State Penitentiary," appropriated to be used for such purposes for 1916, $50,000.00, for 1917 $50,000.00 and provided that the State Board of Public Affairs should submit to this session of the Legislature an itemized statement of all claims allowed against said sums as appropriated.

I most respectfully herewith transmit an itemized statement of all claims allowed, as required by said Act.

Most respectfully,

R. L. WILLIAMS,
Governor.

The itemized statement referred to in the Governor's message above was ordered filed with the Chief Clerk for reference.

To the Senate and House of Representatives of the Sixth Legislature of the State of Oklahoma:

Prior to January 11, 1917, the Capitol Commission requested Mr. M. L. Cunningham, State Engineer to make an inspection and survey of the Capitol building and grounds with reference to the installing of a system of heating, lighting and furnishing water for the same.

Herewith attached is report thereon as Exhibit A and as a part hereof.

This report was referred by me to the Honorable P. J. Goulding, Vice Chairman, to make investigation and report thereon, and herewith is attached such report as a part hereof and designated as Exhibit B.

On January 17, 1917, the Capitol Commission passed the following motion:

> "Mr. Anthony moved that the Governor be requested to request the Legislature for an appropriation of $54,500.00 for the purchase of four additional boilers in accordance with the proposal on file with the Capitol Commission of J. S. Wylie, and the Springfield Boiler and Manufacturing Company. Seconded by Mr. Douglas. Voted upon and carried."

These boilers at this price are to be delivered f. o. b. Springfield, Illinois. So, in addition to the foregoing amount, it will be necessary to make an appropriation to cover the freight and the delivery of same.

The contract or option with the agent of the Springfield Boiler and Manufacturing Company is in the possession of the Capitol Commission and will be furnished for inspection when desired.

An additional appropriation of $900.00 will be required for installing the feed smokeless furnace.

Most respectfully,

R. L. WILLIAMS,
Governor.

EXHIBIT "A."

January 11, 1917.

State Capitol Commissioners,
Oklahoma City, Oklahoma.
Gentlemen:

Acting under instructions of Governor Williams, conveyed to me through your Honorable Body, I have inspected and surveyed the Capitol building and grounds with reference to the system of heating, lighting, and furnishing water for same, and have also surveyed the site secured for a power and heating plant and the streets connecting the Capitol building with the said site ,together with the light, water and sewer connections provided and as a result of such investigations and surveys am prepared to make the following recommendations and estimates, together with a statement of the assumptions on which figures were based.

It is assumed that it is necessary to heat and ventilate 5,000,000 cubic feet of the interior of the Capitol building under all temperate conditions, by the dual system provided in the building, and this office has been furnished by the Capitol Commission with the opinion, obtained for them by the James Stewart Company, of a heating expert, whose estimate of the boiler horsepower required to meet the maximum conditions assumed to govern such plant, is eight hundred and sixty. This figure I have checked and believe it to be conservative,

provided that the plant is built and operated on a high efficiency basis.

Basing my figures on this capacity and taking into consideration the equipment already purchased by the Commission and that on which they have secured an option, I have figured the installation of a battery of not less than four internally-fired boilers of the Scotch Marine type of 250 horsepower each and one 225 h. p. boiler of the same type, the latter unit now being in use as a part of the temporary heating plant at the Capitol building. Any four of these boilers will thus be capable of carrying the maximum estimated load with the other unit in reserve, but it would probably be advisable to exercise the Commission's option on five boilers of 250 H. P. capacity each and install all of these in connection with the 225 H. P. boiler above mentioned, in this way providing two reserve units.

In connection with the heating system it will be necessary to furnish and install feed-water heaters, boiler-feed pumps, circulating and vacuum pumps, all of which equipment should be installed in duplicate, the motive power being steam or electric, depending on the general policy of the State in developing this plant.

It will be necessary to install an underground storage reservoir for the soft water supplied from the main building for drinking water, and I have estimated such a reservoir in connection with a pressure filter, a sterilizing plant, a refrigerating system and the necessary pumps and power.

I have also estimated the cost of a generating system in duplicate, with the power units, accessories, condensing machinery, cooling apparatus, switch boards, etc., to furnish lights and power for the entire building and grounds. In my opinion, the investment in such a plant would be a wise and economical one for its moral effect alone, even if such machinery were never used.

To conduct the steam, water, exhaust, power, telephone and other lines between the Capitol building and the power station, I have estimated a man-tunnel, under-ground, waterproofed and electric lighted, which will amply handle all lines to be placed therein and will prevent the installation of poles, etc., on the Capitol grounds.

The power station is far enough from the Capitol building to render it unnecessary to plan close relationship between the appearance of the two buildings and I am therefore basing my estimates on the construction of a station of typical power-house design, built of red paving block, trimmed with rougn granite, with concrete floor and roofed with book tile of harmonious color. I have estimated also a stock, of brick or reinforced concrete, and in a separate building of the same type but smaller, I have planned the installation of a softening plant for boiler water and space for storage of chemicals and coal. I have also allowed for sufficient space in a tool and work room for the storage of necessary duplicate and repair parts for power station and Capitol building and for a few simple tools, so that repairs may be easily and quickly made.

My estimate of cost of power station building with five 250 H. P. and one 225 H. P. boilers together with tunnel, drinking water storage and equipment, water softening plant, coal storage refrigerating and heating plant and accessories, all incidental machinery and stack is, one hundred and twenty-three thousand dollars, and for the necessary generating equipment, lines, switchboards and accessories the additional sum of $55,600.00, all estimates being for complete equipment, set up and in running order. The probable expense of plans, specifications, inspection, supervision, etc., will increase these amounts to $129,000.00 and $58,600.00, respectively. I will say further that these figures are approximate, only, as I have made no detailed plans, owing to lack of time and money, in addition to the fact that such expenditure is not justified until appropriation for construction is made.

Respectfully submitted,
MAX L. CUNNINGHAM,
State Engineer.

To Gov. R. L. Williams, Oklahoma City, Okla.

EXHIBIT "B."

Oklahoma City, Okla., Jan. 17, 1917.

Governor R. L. Williams,
Oklahoma City, Oklahoma.
Dear Governor:

In reference to the estimate of State Engineer Max L. Cun-

ningham, regarding power house and equipment, which was referred to us yesterday, will say that the State Engineer has submitted a very concise and comprehensive report as can be made without detailed plans. It would take me two or three weeks to gather the same figures that he has, and perhaps I could not do them so well. His total cost is $187.600.00; this I think is as near right as can be gotten at the present time, and part of his figures coincide with those of the James Stewart & Company, Inc., and J. S. Wylie's. Mr. Wylie's figures on the five 250 H. P. boilers are $54,500.00. The price of boilers have gone up 35% since these figures were given, and naturally they wish to do business or get out from under their option, and I would suggest that we take immediate action in this matter The power house and equipment could have been contracted for at the time the Capitol building contract was let, for somewhere near $125,000.00; this amount is in keeping with the power house of several of the capitol buildings that we have visited, as their power plants run from one hundred to one hundred fifty thousand dollars, and were constructed when material was far cheaper than it is now.

There is no prospect of prices on construction and equipment being less than it now is for a period of four or five years to come.

Yours very truly,
(Signed) P. J. GOULDING.

The following messages were received from the Senate:

To the Speaker of the House of Representatives:

House Concurrent Resolution No. 15, by Barry, was read as follows:

WHEREAS, The country has been suffering for months past from repeated bank robberies in which the perpetrators have succeeded in escaping, and,

WHEREAS, The desperate character of the outlaws engaged in these bank robberies calls for the highest type of courage and determination among the peace officers of the State, and,

WHEREAS, The dispatches and news reports show that the officers of several interior counties have within the past few days been engaged in rounding up some of the most desperate of these outlaws, and that in an encounter Thursday morning between a portion of this gang and Sheriff and Deputy Sheriffs of Okfuskee county, Deputy L. M. Boulware in the discharge of his duties gave his life in defense of law and order,

NOW, THEREFORE, Be It Resolved, By the House of Representatives, the Senate concurring therein, that we publicly express the deep sense of obligation of the people of this State for the brave and fearless devotion to duty of L. M. Boulware, which resulted in his death, and that we express to his surviving relatives and friends and to the people of his county, the deep regret which every citizen must feel for the loss of so brave and courageous a public servant.

BE IT FURTHER RESOLVED, That a copy of this resolution be spread upon the Journal of both Houses and a copy be sent to his family and also to Sheriff Berry Jones, of Okfuskee county

WHEREAS, for two years the whole world has been shaken with the roar of the common of war across the seas, and,

WHEREAS, the bloodshed of the human family has been appalling, and,

WHEREAS, before peace is declared the United States Government should formulate the conditions upon which it would feel justified in asking the American people for their formal and solemn adherence, and,

WHEREAS, a lasting peace in Europe cannot be a peace of victory for either side, and,

WHEREAS, peace must be followed by definite action, to assure the world that no horrors of war shall overwhelm it again, and,

WHEREAS, by such definite action the United States cannot withhold its participation to guarantee life, liberty, and the pursuit of happiness throughout the world, and,

WHEREAS, our Monroe Doctrine has stood the test of time and is proven to have been one of the wisest acts of our former illustrious President Monroe, and,

WHEREAS, our President Woodrow Wilson, in continuance of his policy of equal rights to all and special privileges to none, and his policy for world-wide peace with honor, has addressed the United States Senate announcing in no uncertain terms his uncompromising stand for world-wide adoption of the Monroe Doctrine.

Therefore, Be It Resolved by the House of Representatives, the Senate Concurring therein, That we publicly express our confidence in President Woodrow Wilson in the action he has taken for the adoption for a world-wide Monroe Doctrine and urge Congress to uphold his hands seeking the adoption of such a worthy measure.

The following Executive message was read:

To the House of Representatives of the Sixth Legislature of the State of Oklahoma:

House Bill No. 125, "An Act providing for the employment of a stenographer in the offices of County Attorney and County Superintendent of Washington county, and declaring an emergency,"

was presented to me on January 30, 1917. Said Act is as follows:

"That the County Attorney of Washington county, shall, with the advice and consent of the Board of County Commissioners, be allowed not to exceed one stenographer. Such stenographer shall also be stenographer for the County Superintendent. The salary of said stenograhper shall not exceed one hundred ($100.00) dollars per month, for work in both

offices, and shall be paid monthly as provided by the law for the payment of county officers."

Section 46, Article 5, sub-division 46, (Williams' Ann. Ed. Section 121) is as follows:

"The Legislature shall not, except as otherwise provided in this Constitution, pass any local or special law authorizing * * * creating offices, or prescribing the powers and duties of officers, in counties, cities, towns, election or school districts."

Beyond question this Act is in conflict with this provision. So believing, it is my duty to return same with such objections to the House in which it originated.

Section 1, of Article 15, provides that all State and County officers, before entering upon their duties, shall take an oath to support, obey and defend the Constitution of the United States and the Constitution of the State of Oklahoma. It necessarily follows that I must return this Act without my approval.

Respectfully submitted,

R. L. WILLIAMS,

Governor.

The report of select committee on arrangements of committee meetings was read as follows:
Mr. Speaker:

We, your committee appointed to arrange a schedule of committee meetings, beg leave to report as follows:

We find that many of the chairmen are having trouble in getting a quorum of their committee and as this condition seriously impairs the work of the entire legislature, we believe it advisable to adopt the following suggestions and schedule, to-wit: We respectfully recommend that Mondays, Wednesdays and Fridays be known as Committee Days, and that upon these days, unless otherwise ordered by the House, the House convene at 10 a. m., recess until 1 p. m. and recess from 1:30 until 3:30 p. m. and that during this two hour recess committee meetings be held. The object of this is to assure a full attendance at the more important committee meetings. With the House in session prior to and after this two hour recess the present unsatisfactory situation would be greatly improved, in our opinion.

We submit the following schedule of committee meetings but have not set the hours for the meeting as that should be arranged for by the chairmen from day to day. We further suggest that if this schedule is adopted that it be lived up to in the strictest sense and be made just as obligatory upon the membership as the other rules of this body. The schedule is as follows:

Under this provision such accounting system has been installed at the Oklahoma State Penitentiary at McAlester, the State Penitentiary or Reformatory at Granite, A. & M. College at Stillwater, State University at Norman, the Hospitals or Insane Asylums at Norman, Vinita and Supply, Institute for Feeble Minded at Enid, State Training School at Pauls Valley, School for the Deaf at Sulphur, the State Home or Orphanage at Pryor, the six Normal schools and the School for the Blind at Muskogee.

Mr. Carl Rice, one of the experts engaged in this work, under the supervision of the office of State Examiner and Inspector, under date of January 18, 1917, writes as follows:

"Pursuant to your instructions, I beg to report that about July 26th, 1916, Mr. Balfour and I opened the accounts for the Reformatory at Granite, with the assistance of Mr. Ford, the Chief Clerk, and Mr. Lindsay. About December 7th, Mr. Mechling and I visited the institution and find that the accounts have been kept up, and were correct with very few exceptions.

"Mr. Williams, the warden, and the clerks endorsed the general plan of the system of accounts and seem to be very enthusiastic about the results shown.

For your information I am enclosing 'Condensed Compara-

tive Balance Sheet' and 'Condensed Statement of Cost of Maintenance and Operations.' "

Hereto attached as Exhibit "A" is a copy of said "Condensed Comparative Balance Sheet" and "Condensed Statement of Cost of Maintenance and Operations."

Mr. Rice also writes me on the same date relative to the State Home at Pryor as follows:

"Pursuant to your instructions, Mr. Balfour and I opened the accounts for the State Home, Pryor, Oklahoma, with the assistance of Mr. Page, the Chief Clerk, and other office employees, about September 22nd, 1916. Mr. Witchell and I have visited the institution twice since that date and find that with very few exceptions the accounts are correct and up to date. We have assisted them to put the accounts in proper shape and judging from the interest taken in the work by Mr. Gardner, the Superintendent, and the office employees, I feel certain it will be a success."

With said communication he encloses a "Condensed Comparative Balance Sheet" and also a "Condensed Statement of Cost of Maintenance and Operations." For your information a copy of same is herewith attached as Exhibit "B."

On the same date Mr. Rice writes me relative to the School for the Blind at Muskogee as follows:

"Purusant to your instructions, Mr. Witchell and I installed the accounts for the Oklahoma School for the Blind, Muskogee, with the assistance of Mr. Stewart, the Superintendent, and Miss Thoes, Secretary, about December 15th, 1916. We have visited the institution recently and find that the plan as laid out is being followed and is apparently very satisfactory to the Superintendent."

With said communication he enclosed a "Condensed Comparative Balance Sheet."

For your information I herewith attach a copy of same as Exhibit "C".

Most respectfully submitted,

R. L. WILLIAMS,

Governor.

BILLS ON FIRST READING.

House Bill No. 521, by Bobo, "An Act assenting to the provisions of an Act of Congress, "An Act to provide that the United States shall aid the States in the construction of rural post roads, and for other purposes,' and declaring an emergency."

House Bill No. 522, by Hartenbower and Fitzgerald (Kiowa), of the House and O'Neill of the Senate, "An Act relating to dormitories now or hereafter located in any of the educational institutions of this State, their use; defining who is entitled to the privileges of rooming therein; the apportionment of the dormitory capacity, etc., and declaring an emergency."

House Bill No. 523, by Headley and Durant, "An Act making an appropriation from the new College Fund to pay the credit of the University Preparatory School located at Tonkawa, Oklahoma, for the payment of certain claims and declaring an emergency."

House Bill No. 524, by Woods, "An Act amending Section

7819, Chapter 74, Article 9, Revised Laws of 1910, authorizing school boards to issue building warrants in series."

House Bill No. 525, by Hamilton and Berry, "An Act defining landlord and tenant; prohibiting excessive rental fees and royalties for the use of land, and declaring an emergency."

House Bill No. 526, by Jackson and Disney, "An Act prohibiting anyone from allowing cockle burrs from seeding or maturing upon any lands controlled by him and providing a penalty therefor."

House Bill No. 527, by Mayfield and Wimbish of the House and Snyder, of the Senate, "An Act providing for a tax of 2 per cent. on tax sale certificates purchased or issued in the State of Oklahoma."

House Bill No. 528, by Harvey, "An Act relating to fornication, providing penalties for unmarried persons living and cohabitating together."

House Bill No. 529, by Harvey, "An Act providing for the regulating procedure necessary to be taken to correct the tax rolls in the various counties of the State of Oklahoma."

House Bill No. 530, by Powell and Cartwright, "An Act repealing Section 1, and amending Sections 2 and 3, Chapters 21 and 22, Session Laws of the State of Oklahoma, 1915, relating to pool or billiard halls and prohibiting the keeping open of a pool hall or billiard hall between the hours of 12:00 midnight Saturday and 12:00 o'clock midnight Sunday, and fixing penalty for the violation thereof."

The following communication from the Governor was read:

To the House of Representatives of the Sixth Legislature of the State of Oklahoma:

(1). The items covered by the appropriations in House Bill No. 154, amounting to the sum of $4,000.00, as presented to me relate to institutions of the State which were covered by the budget made by the State Board of Public Affairs and by me submitted to the Legislature. (See House Journal, pp. 220-232.)

If this state government is to be run upon a proper business basis, the budget system must be practiced and adhered to. The State Board of Public Affairs, which is ex-officio Board of

Prison Control, has the finances and discipline of this institution in hand, with a fixed purpose to adhere to business methods and exemplify efficiency and economy, and, at the same time, give proper attention toward the proper reform of the inmates. The fact that all the matters covered by said items of appropriation have been considered and given attention by said Board with the approval of the Governor and no supplemental recommendation relative thereto made and the same exceeds the budget approved, is sufficient reason for my disapproval of this bill, or items of appropriation.

(2). For further objection it is a fact that libraries have long been established and are now being maintained by the Oklahoma Penitentiary at McAlester, and State Reformatory at Granite. Further, when occasion may rise, it is permissible for the maintenance fund at either McAlester or Granite to be used to purchase books necessary for the instruction and teaching of the prisoners. The library at McAlester has now 2750 volumes of books, and upon its mailing list are ten periodicals and six daily and 110 weekly papers, the periodicals and papers being complimentary and without cost to the state. At the Reformatory at Granite the library has 1018 volumes and a great many weekly papers upon its mailing list, the papers being complimentary and without cost to the State. Obviously, the Board of Prison Control and the Wardens have had the question of the maintenance of the libraries and the social and moral welfare of the prisoners in mind and given same due attention. From this office more than 200 volumes of books have been collected without cost to the taxpayers and shipped to the library at the Reformatory at Granite. The budget approved for the Reformatory at Granite contains the following item:

"Library, auditorium and school room: Cement, lumber, hardware and equipment, $1,500.00." (See House Journal, p. 219.)

A bill is now pending on your calendar making an appropriation to cover this item.

A bill has also been passed by your Honorable Body and sent to the Senate for its consideration providing for the school for incorrigible negro boys to be transferred from the penitentiary site at McAlester and located at Taft in Muskogee County. This bill embodies a recommendation made by the State Board of Public Affairs, ex-officio Board of Prison Control. It is intended to use the building which has been constructed at the

penitentiary for the incorrigible negro boys as a building for the penitentiary trusties. This will give the prison authorities the opportunty and facilities to fully classify the prisoners at McAlester and separate those who are entitled to be trusties proper and have them use this building. In connection with this building a school room and all the facilities for a night school and a place for study is provided. It is the purpose of the Board and the prison authorities, as soon as these facilities are available, to have conducted a night school at said penittentiary, just as it is the purpose of the Board of Public Affairs, ex-officio Board of Prison Control and prison authorities, to have conducted a night school for the prisoners at Granite.

I call these matters to your attention to show you that the Board of Prison Control has all of these matters in hand, and that, in approving the budget, they have not neglected the moral and intellectual development of the prisoner. It appears to me that it would be a bad practice to set the precedent for making fixed appropriations for the libraries of these institutions. If the State is to provide a fixed sum for the maintenance of said libraries, obviously the periodicals and the daily newspapers and the weekly newspapers will cease to come complimentary and without cost to the State. Benevolent and philanthropically disposed people will no longer have an incentive to aid in the laudable work in building up said libraries through private agencies, but will leave the matter to the materialism of the State. This will be unfortunate for the prisoner, because then he will be dependent upon the materialistic State for everything, and not have the articulation of the heart-throbs of sympathy that come from the benevolent and philanthropic persons who, by private means, aid in the development of such libraries. It seems to be too much the custom in this new commonwealth to turn everything to the State and place every burden upon the taxpayer. Is the field for benevolence and philanthrophy to be, as the years go by, so restricted that there is no place for its operation except the church proper? If so, the individual will look to the State for everything, and the individual benevolent heart will not have the opportunity to develop as in the days of our fathers. Then again, it will be treating these benevolent people wrong who have so kindly in the past aided us and taken great pleasure and pride in building up these libraries. We know that such sincere benevolence does not desire to have this care wholly shifted from them to the care of the State.

(3). As to the Boys Training School at Pauls Valley, A. K.

Gossom, Superintendent, in his report, which was transmitted to your Honorable Body, (House Journal, p. 185) states as follows:

"The school work in the State Training School is similar to the work done in the public schools of the State. Work is done in all grades up to and including the eighth grade. The state adopted text books are used. When a pupil completes the eighth grade he is prepared to enter any of the affiliated high schools."

All these books are furnished at the cost of the taxpayers of the State and are paid out of the annual appropriation for maintenance. We specify such items to show you that every reasonable preparation is made for looking after education and development, not only of the young, but also the old, who are in the charge of the State. Good business, wise humanitarianism and the proper development of our State institutions require these things to be maintained and furnished under the careful estimates of those charged with such authority. If the precedent is to be set to have these biennial appropriations for such purpose made independent of the budget estimates, the agents for the book houses will seek out the institutions and urge that their books be selected, and when appropriations are exhausted, seek to induce the Legislature to make other and larger appropriations therefor and you will find many books thus placed upon the library shelves, which, in many instances, are never used. The interest of the booksellers will naturally prompt them to cause the attention of these biennial sessions of the Legislature to be invoked to continue and enlarge these appropriations, and then, if such separate and specific library appropriations are to be made for these three institutions, it will be necessary to extend such biennial appropriations to the institution for training unfortunate white girls and the institution for training incorrigible negro boys and negro girls. You can readily see how a fixed charge of at least as much as $10,000.00 per year will grow upon the State for annual appropriations for such purposes. I prefer to have this done gradually under estimates made by the administrative authorities. Your attention is called to the fact that, when this adminstration came into power, it was under the following declaration of principles and pledge:

"We are in favor, not only of rigid economy and honesty, but also rugged thrift and efficiency in the administration of governmental affairs so that for every dollar that is taken from the treasury at least a commensurate in service or other valuable consideration shall be given therefor. The state, county and

municipal governments must be administered so as to reduce expenses, and, in fact, lighten the burdens of the people rather than to continue expense and seek relief by devising new species of taxation and new subjects to tax to bear such burdens."

Said bill is herewith returned to you without approval and with the foregoing objections.

Most respectfully,

R. L. WILLIAMS,,

Governor of the State of Oklahoma.

Mr. Stevenson moved that House Bill No. 154, vetoed by the Governor, be reconsidered, which was carried:

House Concurrent Resolution No. 24, by Hultsman, "A Resolution memorializing Congress to secure appropriate legislation to provide for payment of moneys to surviving veterans of the Confederate army, etc.", was read and passed for the day.

The following communication from the Governor was read:

To the Senate and House of Representatives of the Sixth Legisture of the State of Oklahoma.

On January 18, 1917, I communicated to you by message as to the contract or option entered into by the Capitol Commission with the agent of the Springfield Boiler & Manufacturing Company. An appropriaion of $54,500.00 to meet the requirements of said option and to pay for said boilers was necessary. A power house equipped and installed so as to supply the Capitol Building, not only with heat but also with light, had been estimated by the State Engineer to cost $187,600.00. A copy of saia estimate was transmitted with said message. Said boilers were a part of said estimate.

I have just been advised that an appropriation in the sum of $54,500.00 for said purpose has passed both the Senate and the House. The same, however, has not yet been presented to me. On February 5, 1917, at a meeting of the State Capitol Advisory Commission, or Committee, at which H. W. Gibson of Muskogee, ex-Senator S. W. Hogan of Cashion, F. M. Pirtle of Oklahoma City, Joseph Huckins, Jr., of Oklahoma City and Ed S. Vaught, of Oklahoma City was present, it was recom-

mended that the Board of Public Affairs begin negotiations with the Oklahoma Gas & Electric Company to ascertain what it would supply light for the State Capitol Building and grounds for a period of ten years with the privilege of an extension of said contract for an additional five years, at the option of the State. Pursuant thereto, the State Board of Public Affairs began such negotiations with the Oklahoma Gas & Electric Company and secured a proposal incorporation in Exhibit "B" hereto attached as a part hereof.

I also attach hereto the communication, as Exhibit "A", from the State Board of Public Affairs making recommendation as to said proposal. You will note that the State Advisory Capitol Commission approves the recommendations made by the State Board of Public Affairs.

The State Board of Public Affairs has also caused to be supplied an estimate of the cost of a power plant without the lighting facilities, which amounts to $114,432.94. By omitting the lighting facilities, the cost of the power plant is reduced from $187,600.00 to $114,432.94, and it also appears that the State will secure the light for the State Capitol Building at a less cost than if furnished by itself through its own light plant.

In view of said recommendation it appears to me that it will be advisable to accept the contract proposed by the Oklahoma Gas & Electric Company.

I transmit these facts to you for your consideration and ask that, by resolution, you advise me in this matter. This resolution should be passed prior to next Saturday, as the option for the purchase of the said Springfield marine boilers expires with that date.

R. L. WILLIAMS, Governor.

EXHIBIT "A".

Executive Chambers,

Oklahoma City.

Dear Governor::

In reference to the matter of supply of electric current for light and power purposes for the State Capitol Building and

Grounds and any future buildings that may be erected on the Grounds, beg to advise as follows:

We have been negotiating with the Oklahoma Gas and Electric Company, with a view of entering into a contract with them, in conformity with the recommendations of the Advisory Capitol Commission, to-wit, a 2-cent flat rate per K. W. H., said contract to be for a period of ten years with an option of five additional years, at the same rate, etc.

We have been unable to make such a contract with the Oklahoma Gas and Electric Company, who claim that the 2-cent flat rate per K. W. H. would be under the actual cost of production. However, we have succeeded in obtaining a proposition from them which we now beg to submit for your consideration and which provides for a minimum rate monthly, of $175.00 net.

On the basis of recommendations of the Advisory Commission, in case 10,000 K. W. H. per year was used would amount to $200.00 per month ,net. Under the proposition now submitted, as per schedule "B", you will find that the next 5,000 K. W. H. per month used above 10,000, will be at a special rate of 1.80 per K. W. H., which is under the flat rate recommended by the Commission.

In case our requirements should increase as other buildings are erected on the Capitol grounds, this item may prove a saving to the State and be a better proposition than the 2-cent flat rate.

To sum the matter up, under this proposed contract, the State is to pay $175.00 net, or, if using as much as 10,000 K. W. H. per month a special rate of $1.80 per K. W. H. will apply. On a basis of an estimated cost of $60,000.00 for a plant, the depreciation alone on same would amount to almost as much as the cost of lights under this contract aside from the outlay for labor and operation of same. We, therefore, recommend that the proposition of the OKLAHOMA GAS & ELECTRIC COMPANY be accepted.

Yours very truly,

STATE BOARD OF PUBLIC AFFAIRS,

By J. M. Aydelott, Chairman.
A. N. Wilcox, Vice-Chairman.
A. N. Leecraft, Secretary.

APPROVED: State Capitol Advisory Commission,

Per Joseph W. Huckins, Jr., Chairman.

ATTEST: Ed S. Vaught, Secretary.

EXHIBIT "B".

Mr. J. M. Aydelotte, Chairman,

Gentlemen:

Confirming conference of the writer with your Board this afternoon, we submit the following proposal for supply of electric current for light and power purposes to the present Capitol Building and grounds, and any future buildings which may be erected on the capitol grounds.

The rate to govern above consumption to be 2.25 cents per K. W. H., net, subject to a minimum monthly bill of $175.00, net.

In the event that the consumption on above location reaches a point where it will earn a better rate than 2.25 cents, net, on the company's power rate schedule "B", such rate is to apply. This Schedule "B", power rate is as follows::

First	100 K. W. H. per month at 4.5	per K. W. H. Net
Next	100 K. W. H. per month at 4.05	per K. W. H. Net
Next	100 K. W. H. per month at 3.60	per K. W. H. Net
Next	300 K. W. H. per month at 3.15	per K. W. H. Net
Next	400 K. W. H. per month at 2.925	per K. W. H. Net
Next	1500 K. W. H. per month at 2.70	per K. W. H. Net
Next	2500 K. W. H. per month at 2.475	per K. W. H. Net
Next	2500 K. W. H. per month at 2.25	per K. W. H. Net
Next	2500 K. W. H. per month at 2.025	per K. W. H. Net
Next	5000 K. W. H. per month at 1.80	per K. W. H. Net
Excess	K. W. H. per month at 1.575	per K. W. H. Net

This proposition is based upon the theory that we enter into a contract for ten years, with an option of five additional

years, at the same rates, such option to be vested in the State through the State Board of Public Affairs, or their successors in office, and this proposition is further based upon the theory that the Corporation Commission of the State will permit us to combine in one reading all electricity used at the State Capitol Buildings or grounds for light and power purposes, without prejudice to ourselves in our dealings with general customers of the company.

In making the above proposition we wish to explain that the rate named represents the actual average cost per K. W. H. of current delivered to our customers' meters, including taxes, and we feel that it would not be justice to this company to ask it to supply current at a figure below such actual cost. It is only because of the substantial minimum that we can at all see our way clear to make this offer.

Trusting the above proposition meets with your approval and receive your recommendations, we are,

Yours very truly,

OKLAHOMA GAS & ELECTRIC CO.

House Bill No. 70, by Gish, of the House, and Snyder, of the Senate, "An Act amending Section 7633, Revised Laws of Oklahoma, 1910, as amended by Section 1, Chapter 150, Session Laws of 1915, and relating to the building of bridges, and declaring an emergency," and

House Bill No. 390, by Bobo, "An Act making an appropriation for the repair of the plumbing and heating system, and for the repair of the water tank of the School of Mines and Metallurgy, at Wilburton, Oklahoma, and declaring an emergency."

Respectfully,

A. L. WALKER,
Secretary to the Governor.

The following communication was received from the Governor and on motion of Mr. Norvell it was not read at length but ordered printed in the Journal:

To the Senate and House of Representatives of the Sixth Legisture of the State of Oklahoma.

House Bill No. 326, entitled:

"An Act fixing the number of deputies and the amount of their compensation in the offices of the County Clerk, Court Clerk, County Treasurer, County Assessor, and County Superintendent in certain counties in the State of Oklahoma and declaring an emergency,"

has been presented to me in accordance with the requirements of Section 11, Article 6, of the Constitution of this State.

Section 1 of said Act is as follows:

"In all counties of the State of Oklahoma, having a population of not less than fourteen thousand and two hundred (14,200), nor more than fourteen thousand two hundred and fifty (14,250), according to the Federal census of 1910, the County Clerks shall each, with the advice and consent of the Board of County Commissioners, be allowed four deputies, the first deputy in each of said offices shall each receive a salary to be fixed by the Board of County Commissioners at not to exceed One Hundred (100.00) Dollars per month. The second and third deputies in each of said offices shall each receive a salary to be fixed by the Board of County Commissioners at not to exceed seventy-five ($75.00) Dollars per month, and the fourth deputy of said offices shall receive a salary to be fixed by the Board of County Commissioners at not to exceed fifty ($50.00) Dollars per month."

Section 2 of said Act is as follows:

"In all counties in the State of Oklahoma, having a population in excess of fourteen thousand two hundred (14,200), and not to exceed fourteen thousand two hundred fifty (14,250), according to the Federal census of 1910, the County Assessor shall be allowed one deputy for full time who shall receive a salary to be fixed by the Board of County Commissioners at not to exceed One Hundred ($100.00) Dollars per month and two extra deputies for a period of not more than sixty (60)

days in any one year, who shall receive the sum of four ($4.00) Dollars per day for salary and expenses while actually engaged in the work of said office."

Section 3 of said Act is as follows:

"In all counties in the State of Oklahoma, having a population of not less than fourteen thousand and two hundred (14,200), nor more than fourteen thousand two hundred fifty (14,250), according to the Federal census of 1910, the County Treasurer shall be allowed two deputies. The first deputy shall receive a salary to be fixed by the Board of County Commissioners not to exceed One Hundred ($100.00) Dollars per month and the second deputy shall receive a salary to be fixed by the Board of County Commissioners at not to exceed eighty-five ($85.00) Dollars per month. The County Treasurer shall also be, with the advice and consent of the Board of County Commissioners, authorized to employ an extra deputy when necessary, who shall receive a salary to be fixed by the Board of County Commissioners at not to exceed seventy-five ($75.00) Dollars per month."

Section 4 of said Act is as follows:

"In all counties in the State of Oklahoma, having a population of not less than fourteen thousand two hundred (14,200), nor more than fourteen thousand two hundred fifty (14,250), according to the Federal census of 1910, the County Superintendent of Public Instruction shall be allowed one deputy for a period of not more than eight months in any one year, who shall receive a salary to be fixed by the Board of County Commissioners at not to exceed Fifty ($50.00) Dollars per month."

Section 5 repeals all acts and parts of acts in conflict with said Act.

An examination of the Federal census of 1910 discloses that only two counties of the State come within the provisions of this Act, to-wit: Nowata County and Texas County. The population of Nowata County is given as 14,223 and that of Texas County as 14,249. If this is a special Act, it is repugnant to paragraph 46m of Section 46, Article 5 of the Constitution, which is as follows:

"The Legislature shall not, except as otherwise provided in this Constitution, pass any local or special law authorizing:

* * * Creating offices, or prescribing the powers and duties of officers in counties, cities, towns, election or school districts;" * * *

Chickasha Cotton Oil Co. v. Lamb & Tyner, 28 Okla., 275, 114 Pac., 333.

In Hatfield v. Garnett, 146 Pac., 25, Mr. Justice Hardy, speaking for the Supreme Court of this State, said:

"The language of the Act shows that the Legislature has taken the federal census of 1910 as a basis for classification, and has undertaken to classify the counties of the State, with reference to population, as it existed at that time. The court will take judicial knowledge of the facts shown by the census; and by this classification there are five counties in the State that would be entitled to a superior court under the provisions of this Act, if the first paragraph of Section 1 were not affected by the second paragraph thereof. By the second paragraph of said Section 1, it is provided that in counties having a population of more than 33,000, and having a city therein with a population of more than 12,000 and less than 15,000, as shown by the federal census of 1910, said superior courts should continue only until the first Monday in January, 1915, except in counties where said superior court is held in a city of said county other than the county seat, in which event said superior court shall continue until otherwise provided by law. The first part of this provision would affect Pittsburg and Garfield counties, and the superior court in said counties would expire on the first Monday in January, 1915. By the second part of this paragraph the county of Pottawatomie would be the only county in the State to come within its provisions, and the superior court in said county would continue until otherwise provided by law. It is also provided in the same connection that in counties having a population of more than 75,000, as shown by the federal census of 1910, said superior court should continue only until the first Monday in January, 1915; and by this provision it is clearly apparent that only Oklahoma County was intended to be affected, and that no other county within the State would ever come within its provisions. It is also further provided that in all counties having a population of more than 33,000, and having therein a city with a population of more than 15,000, except in counties having a population of more than 75,000, as shown by the federal census of 1910, said superior court shall continue until otherwise provided by law, which

provision can have no application to any other counties than Muskogee and Tulsa. As a proviso to said section it is provided that 'this Act shall not affect courts established by Chapter 47, Session Laws of 1910, approved March 12, 1910,' which Act establishes a superior court at Clinton, in Custer County, and the validity of which was sustained in Chickasha Cotton Oil Co. v. Lamb & Tyner, *supra.*

The census of 1910, being taken as the sole basis of classification, must determine for all future time the status of all counties in this State with reference to the establishment of a superior court therein under the terms of this Act; and the Legislature might as well have referred to the counties affected by name as to have undertaken a classification which could affect only the counties mentioned. If the Legislature has authority to take such a basis for classification and to predicate a general law thereon, then the Act in question must be upheld as a valid exercise of legislative authority. No matter what changes might occur in the population of the State in the future, and how great might be the increase in some counties or the decrease in others, there can never be any change under the terms of that act with reference to the existence of superior courts in the State, unless the Legislature shall make further provision therefor by additional legislation. No provision is made for a probable increase in population which may be shown by the census to be taken by the State authorities during the present year (1915), or by any future census, either State or federal; and while the superior court, under the terms of this Act, would be abolished in Oklahoma County because it has more than 75,000 population, if the population of Muskogee or Tulsa county should reach 75,000 or more, the superior court in that county would not be abolished, but would continue to exist, notwithstanding the population might be the same or greater than that of Oklahoma County.

The question then presents itself as to whether or not this classification presents a substantial distinction between the several counties affected with reference to the subject-matter of the legislation in question, and whether the distinctions arise from substantial differences which are so marked as to call for special legislation and to justify the application of different provisions thereto. The authority of the Legislature to classify the counties or other sub-divisions of the State by population, when not arbitrarily done, has been upheld in a great many cases. * * *

An examination of these cases and the authorities thereunder cited shows that, in every case where the law has been upheld, the opinion of the court has been placed upon the ground that the law is uniform in its operation, that the classification is not arbitrary, and that provision is made for future contingencies, so that changes in the population of the State or subdivision affected by the Acts in question would not bring about inequalities. So far as we are able to discover, where the classification is arbitrarily based upon a certain census, and the Act is not prospective in its operation, the laws have been uniformly held to be local in their character and of a special nature; and, where constitutional provisions similar to ours are in force, the Acts have been held to be void because in conflict therewith.

* * * * * * * * * *

The general rule as to classification, based upon existing or past conditions, is stated in 1 Sutherland, Stat. Const. Sec. 214, as follows:

'A classification based upon existing or past conditions or facts, and which would exclude the persons, places, things, or objects thereafter coming into the same situation or condition, is special and void. Thus, classification of cities or counties, based upon existing population or upon the population shown by a specific census, is of this character.'

* * * * * * * * * *

Applying the rule as laid down by the foregoing authorities, the act in question cannot be said to be general in its nature and uniform in its operation throughout the State, for upon its face it does not operate equally upon all counties in like situation, and has as its arbitrary basis for classification the federal census of 1910, and the Act is not prospective in its operation, and must therefore be held to be local and special legislation; * * *."

This is the ruling of the highest court in this State. House Bill No. 326 is clearly and beyond all reasonable doubt repugnant to the Constitution of this State. So it becomes my duty to return this bill without approval.

Most respectfully,

R. L. WILLIAMS,
Governor.

The following messages from the Senate were read:

Be It Resolved by the House of Representatives:

THAT, WHEREAS, the 22d day of February, 1917, is the 185th anniversary of the birth of George Washington, a man to whom our patriotic people graciously attribute the title of "The Father of Our County," and in whose honor, and in commemoration of whose worth and birth our National Government has seen fit that a general observance of said day to be held, when all citizens cease their avocations and mingle together, and give individual thought, honor and respect to our great and noble hero, and commemoration of the noble acts and deeds of that brave, energetic man who endured untold deprivation and hardships in lifting this country to the divine plane of liberty and opportunity; and,

WHEREAS, The life of this great and good man is a worthy example for honorable men to emulate, and the principle of government outlined and practiced by him have been proven to be pure, wholesome and wise, to such an extent that down to the present day, it has added encouragement to all legislative bodies to look forward to this beacon light of history, and direct the ship of state in accordance with the example set by our beloved first President and great leader.

THEREFORE, BE IT RESOLVED, that the Sixth Legislature of the State of Oklahoma commemorate the 185th anniversary of this great and glorious man, by setting aside a page of the Journal to this Resolution in honor of his illustrious and undying memory; and

BE IT FURTHER RESOLVED, that the 22d day of February, 1917, be declared a legal holiday for this body, and that this House stand adjourned for that time as a tribute of honor and respect to our renowned leader, George Washington.

Section 2. The following fees shall be paid to the Department of Highways upon the registration of a motor vehicle in accordance with the provisions of this Act: An annual registration fee of $5.00 for each motor vehicle as herein provided. Provided, however, that if such motor vehicle be purchased or brought into this State by the persons making application for such registration on or after the first day of July, of any year, the registration fee shall be $2.50. The provisions hereof with respect to the payment of registration fees shall not apply to motor vehicles owned, or controlled, by the United States of America, or any State, city, county, or any department thereof, but in other respects shall be applicable. Nothing in this article shall be construed to exempt any motor vehicle from ad valorem assessment for the purpose of taxation for all general purposes in the same manner as other property."

(2). By adding thereto a new section to be numbered Section 4, as follows:

Section 4, Article 4, Chapter 173, Session Laws of Oklahoma, 1915, be and the same is hereby amended to read as follows:

"Section 4. Upon the sale of a motor vehicle by a manufacturer, or dealer, which has been registered under this article, the purchaser shall be allowed to operate same upon the public highways of this State for a period of fifteen (15) days after taking possession thereof and until he shall be assigned a distinctive number and receive a number plate from the department of Highways as herein provided; provided, that during such period the motor vehicle shall have attached a card showing in plain letters and figures the date of such sale and the date upon which application was made for registration. The manufacturer, or dealer, so registered under the provisions of this Act shall furnish to each purchaser of a motor vehicle required to be registered an application blank as provided for in this article, which blank shall be duly executed by the purchaser, in the presence of such manufacturer, or dealer, and which application so executed shall be forwarded by the manufacturer, or dealer, to the said Department of Highways, with remittance as required by the provisions of this Act, before such motor vehicle shall be delivered to the purchaser by such manufacturer,

or dealer, for operation upon the public highways of this State."

(3). By adding thereto an additional Section to be known as Section 5.

Section 5. Article 4, Chapter 173, Session Laws of 1915, be and the same is hereby amended to read as follows:

"Section 5. No person shall operate or drive a motor vehicle on the public highways of this State unless such vehicle shall have been registered as provided in this Article, and have a distinctive number assigned to it by the Department of Highways, conspicuously displayed on the rear of such vehicle, securely fastened, so as to prevent the same from swinging and so located with reference to the lights on such vehicle that the same can be plainly seen in the night time. Such number plate shall be of a distinctive different color, or shade each year and there shall be at all times a marked contrast between the color of the number plate and that of the numerals, or letters thereon. Such number plate shall be of metal at least 6 inches wide and not less than 12 inches in length. In the upper left hand corner of each there shall be the initials of this State, and to the right of each initial there shall be a distinctive number, assigned to the vehicle, set forth in numerals 4 inches long, each stroke of which shall be at least 5/8 of an inch in width, also the year. Provided, that in case of the motor vehicle being registered by a manufacturer, or dealer, there shall be on such plate, in addition to the foregoing, the initial "M", the same to be placed at the right of the distinctive number, each stroke of said letter to be at least 3 inches long and 1/2 inch in width. Any person owning a motor vehicle failing or refusing to comply with the provisions of this Article shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not less than $50.00 or more than $100.00."

(4). By adding thereto an additional Section to be numbered Section 7, as follows:

"Section 7. The foregoing provisions of this Act relative to the registration of motor vehicles and the displaying of registration numbers shall not apply to motor vehicles owned by any non residents of this State, when being temporarily used in this State by the owners thereof, otherwise than for hire. Any motor vehicle as defined in this Act belonging to a non-resident of this State shall be operated on public highways of this State for a period of twenty (20) days without being registered and

displaying a register number as herein provided. Any non-resident owner of a motor vehicle who shall make proper showing to the Department of Highways to the effect that such owner has complied with the provisions of the law of the foreign state, county, territory or district of his residence relative to motor vehicles and operation thereof for the last period for which a tax is required in this State and such vehicle is not, or shall not be operated in this State for hire or profit, upon a blank to be furnished by the Department of Highways, and upon the payment of $2.00 shall be assigned a distinctive number and without further expense to the owner furnished a certificate of registration and number plate in the form and size ar herein provided. Said number plate to be of metal and not less than 6 inches wide and 12 inches long, in the center of which shall be painted, or stamped, a red disc 6 inches in diameter, bearing the letters "Okla." to the left of said disc shall be the figures indicating the year of registration of such vehicle and to the right of the disc shall be figures indicating the registration number assigned to said owner of a motor vehicle as herein defined, whose permanent place of residence is in a foreign state or territory, and those who shall operate a motor vehicle on the highways of this State for hire or profit shall comply with all the provisions o fthis Act in the same manner as residents of this State."

Section 5. By adding thereto an additional Section known at Section 8, as follows:

"Section 8. Section 8, Article 4, Chapter 173, Session Laws of Oklahoma, 1915, be and the same is hereby amended to read as follows:

"Section 8. Subject to the express provisions of this Act local authorities shall have no power to pass, enforce or maintain any ordinance, rule or regulation over any owner to whom this Article is applicable any tax, fee, license or permit for free use of the public highways or excluding or prohibiting any motor vehicle registered in compliance with this Act from the free use of the public highways, or accessories used thereon, and no ordinance ,rule or regulation in any way contrary to or inconsistent with the provisions of this now in force or hereafter enacted shall have any force or effect; provided, that the powers given to local authorities in cities of the first class, or cities operating under a charter form of government to enact general rules and ordinances applicable equally to all vehicle users of the highways to bring about the safe passage of vehicles upon the streets of such cities, and the power given to lo-

cal authorities to regulate and license persons and corporations and charge therefor and to distinctly number and mark vehicles regulations offered to the public for hire, possessions, assemblies or parades in the streets or public places, of such cities may remain and be in full force and effect; provided, further, that the local authorities shall set aside a specific portion of the public highway, or highways, for speed tests and races to be under the proper restrictions for the safety of the public. And, provided further, that the local authorities may exclude by ordinances, or regulation, motor vehicles used exclusively for commercial purposes, parks and parkways, of this State, provided, that such ordinance or regulation is applicable equally and generally to all other vehicles used for the same purpose. Provided, further, that cities and towns may regulate the speed of motor vehicles."

House Concurrent Resolution No. 30, by Hodges, Memorializing Congress, was read as follows:

WHEREAS, In a bill by the National House of Representatives and now pending in the Upper House of Congress, there is included an item authorizing and introduced by Honorable W. W. Hastings, of the Second Congressional District of Oklahoma, providing for the purchase and preservation by improvement of the site and building historically used as the Capitol for the Creek Nation, at Okmulgee, Oklahoma, and

WHEREAS, the preservation of the old Capitol as a monument to the memory of the great and venerable Creek Nation is a most grateful tribute to a race of people whose national entity has been merged in ours and no longer exists; and,

WHEREAS, such a tribute not alone would soften the pangs of a patriotic Creek Indian as he contemplates the departed glory of his Nation, but it would be at least a partial fulfillment of a duty which is national and which rests upon the dominant Nation in the merger of Nations.

NOW, THEREFORE BE IT RESOLVED, by the House of Representatives of the State of Oklahoma, the Senate concurring therein ,that this bill, known as the Hasting Creek Capitol Bill, be heartily endorsed and special consideration for it at the hands of the Senate and the President be recommened.

BE IT FURTHER RESOLVED, that a copy of this resolution be spread upon the Journal of this House, and a copy sent to the President and to each member of the Oklahoma Delegation in Congress.

The following communications from the Governor were read:

To the Honorable House of Representatives of the Sixth Legislature:

This is to advise you that the Governor has this day approved:

House Bill No. 220, by Ewing: "An Act to make appropriation for repairs on buildings, heating plant and plumbing, laundry and electric wiring, and for purchase of cattle, mules and agricultural implements, etc., for Colored Agricultural and Normal University, located at Langston, Oklahoma," and

House Bill No. 404, by Newman: "An Act making an appropriation for the salaries, expense and maintenance of the State Game and Fish Warden's Department, including fish hatcheries, and for the purpose of purchasing or propagating and distributing game and fish," and

House Concurrent Resolution No. 27, by Shores and Wimbish: "A Resolution inviting William J. Bryan and Ex-Senator Joseph W. Bailey, of Texas, to address the Oklahoma Legislature."

Respectfully,

A. L. WALKER, Secretary to the Governor.

To the Honorable House of Representatives of the Sixth Legislature:

This is to advise you that the Governor has this day approved:

House Bill No. 296, by Thomas, Powell, Draughon and Blackard, of the House, and Edmonson and Vaughan, of the

Senate: "An Act regulating the transfer of pupils to other districts and providing the method of payment therefor, and declaring an emergency."

Respectfully,

A. L. WALKER, Secretary to the Governor.

To the Honorable House of Representatives of the Sixth Legislature:

House Bill No. 173, by Smith, of the House, and Ferguson, of the Senate: "An Act making an appropriation for the support and maintenance of the Connell State School of Agriculture, located at Helena, Oklahoma, also making an appropriation for the repair of the heating plant and the flooring of the basement of said school," which carries an appropriation for the biennium beginning July 1, 1917, in the sum of $32,000.00, is returned without approval.

For the fiscal year beginning July 1, 1914, the sum of $14,000.00 was appropriated for the maintenance of said institution.

According to the sixth biennial report of the Superintendent of Public Instruction, at page 167, said institution for said fiscal year, had fourteen students who completed the full course of this sub-agricultural school, and including said fourteen students there were enrolled in said school during said year 166 students. For the fiscal year, beginning July 1, 1915, the sum of $15,500.00 was appropriated for maintenance and a like sum for the same purpose for the fiscal year beginning July 1, 1916. For said fiscal year of 1915, twenty-five students completed the full course, and, including said number, there were 176 students enrolled during said year. The faculty of said institution is composed of eleven teachers, six male and five female.

This school is located in the Eighth Congressional District. With the sub-agricultural school at Helena, the Eighth Congressional District has two such schools, the other one being at Goodwell, in Texas County.

In the annual report of the Oklahoma State Board of Agriculture, 1916, at page 79, it is said:

"The town of Helena is a small place and not capable of taking care of the surplus number of students that the main school building will accommodate. A dormitory for girls should be built."

According to the last census, Helena has a population of 760, and the distance therefrom, by rail, to the A. & M. College at Stillwater is 114.6 miles. The distance, by rail, from Helena to Alva, where the Northwestern State Normal School is located, is 43 miles. The distance from the other sub-agricultural schools, by rail, to the A. & M. College at Stillwater is as follows:

From Goodwell to Stillwater, 420.1 miles.

From Broken Arrow to Stillwater, 91.8 miles.

From Lawton to Stillwater, 172.5 miles.

From Tishomingo to Stillwater, 189.5 miles.

From Warner to Stillwater, 152 miles.

The territory surrounding this school being immediately accessible and proximate to the A. & M. College at Stillwater, it appears to me that there is no reason why it should be maintained at the expense of the taxpayers of the State for the purpose of a sub-agricultural school, but that the pupils or students from such territory should attend the A. & M. College at Stillwater. The plant for the A. & M. College at Stillwater is both commodious and modern, and is also being enlarged and improved every year, and the facilities increased for the accommodation of students. It has an ample and capable faculty, as well as a dormitory for both boys and girls. Further, the town has ample facilities to provide accommodations for all students outside of said dormitories.

If the A. & M. College is to perform its mission and be a great agricultural and mechanical school it must be adequately and properly supported by the State. If sub-agricultural schools are to be maintained by the State in its proximate and immediate territory, the necessary increase of appropriation for such sub-agricultural schools are to be maintained by the State in its proximate and immediate territory, the necessary increase of approximation for such sub- agricultural schools as the years go by will either handicap the development of the A. & M. College or create an unjust burden upon the taxpayers for its proper development. If such sub-agricultural schools are to be supported by the taxpayers of the State almost within the shadow of the A. & M. College, there can be no great future for such institution, except by impoverishing the taxpayers of the State.

Duty to the highest cause of education, agricultural, technical and otherwise, and to the taxpayers of this State, requires

me to return this bill without approval. It is accordingly done.

This plant can be converted into some useful eleemosynary institution, or conveyed back to the county or school district for high school purposes.

Most respectfully submitted,

R. L. WILLIAMS, Governor.

The following messages from the Senate were read:

To the Speaker of the House of Representatives:

House Resolution No. 39, by Durant, was read the second time.

On motion of Mr. Durant the resolution was adopted, and is as follows:

HOUSE RESOLUTION No. 39.

By Durant.

A RESOLUTION AUTHORIZING AND DIRECTING THE PUBLICATION IN THE PERMANENT HOUSE JOURNAL OF THE SIXTH LEGISLATURE THE PROCEED-

INGS HAD AT THE LAYING OF THE CORNER STONE OF THE STATE CAPITOL.

Whereas, the corner stone of the Oklahoma State Capitol was laid on November 16th, 1915, with appropriate ceremonies; therefore

Be It Resolved by the House of Representatives:

That a copy of the minutes of the State Capitol Commission, same embodying the proceedings had at said time, be ordered printed in the permanent House Journal of the Sixth Legislature. A copy of said minutes containing proceedings is attached to this resolution, and made a part hereof, and is as follows, to-wit:

Pursuant to adjournment of the morning session, the State Capitol Commission, with all members present, met at 1:30 o'clock p. m., this the 16th day of November, 1915, and joined in the parade with other State officials, members of the Grand Lodge of Ancient Free and Accepted Masons, members of the Oklahoma National Guard, officials of the City of Oklahoma City and private citizens of the State, the line of march being through the principal streets of Oklahoma City and then to the State Capitol Building. At 2:30 o'clock p. m the following program was rendered:

Music—Selection ----------India Temple Band
Invocation ----------Bishop Francis K. Brooke
Music—"Oklahoma" ----------Apollo Club

Thereupon, Honorable Robert L. Williams, Governor of the State of Oklahoma and Chairman of the State Capitol Commission, delivered the following address:

"Ladies and Gentlemen:

To this occasion the people of the territory looked forward, and since the erection of the Commonwealth they have anticipated it. This natal day and its dawn is auspicious, and we hope that the same may be an omen of the State's growth, development and prosperity.

In patriotism and reverence the superstructure has been placed. The idea of aiding in any special way the accumulation of material gains, or in any special sense to favor any particular city or portion of the State is foreign to the purpose of those in charge of the construction of this Capitol. Within its walls laws are to be framed and enacted and administered that life,

liberty and property may be preserved and protected and equal opportunity afforded to every citizen in the pursuit of happiness. This should be done with such fidelity that not only the building, but also the city and State in which it is situated may become historic and memorable on account of such achievements.

Whoever views this building with the paramount idea of personal gain, whether in public or private capacity, has not the proper conception of the organization and conduct of civil government. Whoever places his foot within these corridors and halls for personal exploitation desecrates the building. But whoever comes within these walls to promote the enactment of just laws and aid in causing them to be honestly and faithfully administered has the proper conception of building and facilitating a government by, for and of the people and an appreciation of its mission.

Good men and women may differ as to how, in a governmental way, this may be accomplished, but no difference of opinion can exist as to the purpose that should dominate in bringing about such a condition of affairs.

With an appreciation of the mission of government we are in an attitude to gather inspiration in the performance of public service. This may come, too, not only by apprehending the future, but also by looking back into the past.

The retrospect often chastens and brings about a greater appreciation of conditions. We are thus reminded that a greater part of this State formerly lay within the bounds of the Louisiana Purchase. The spirit of Thomas Jefferson, under whose administration that domain was acquired and thereby the extension of the bounds of the Republic and the control of the Mississippi Valley by it made a reality must hover over us today. From that spirit world he doubtless looks with delight at the consummation of his conception in the acquiring of that territory. In the background we catch a glimpse of the figure of Napoleon, that colossal world character, contemplating the realization of his statement that in ceding that territory to the United States he had rendered it impossible for any European power to gain such a foothold on this continent as to dominate it.

Nearer we see the figure of Andrew Jackson, that pioneer, soldier and statesman, under whose administration the greatest of the Five Civilized Tribes were removed from their homes east of the Mississippi to within the confines of what is now this

State. Those primitive sons of this continent, in passing from the aboriginal to the civilized state, for a like period, compare well with the Caucasian in his original home in his beginning in civilization. With those Civilzed Indian Tribes is associated the name of Sam Houston, Governor of Tennessee when a young man and a friend of Andrew Jackson, a sojourner among the Cherokees and later commander of the Texas army at San Jacinto, where independence was wrested from Mexico.

Within this State are located the sites and remains of historic forts at which such soldiers as Generals George B. McClelland, Robert E. Lee, George A. Custer and Jefferson Davis, at different times, while officers in the regular army of their country, were stationed.

We come nearer in backward thought to our own day. Westward to the provisional government formed by that sturdy band of immigrants and would-be homesteaders, forming what was known as Cimarron Territory, we are transported. Then comes in view David L. Payne, the John the Baptist of the homeseekers, and his hosts marching into these bounds seeking lands for settlement. The names and traditions of those great men as well as others which time does not permit me to enumerate and the people who have lived and labored within these prairies and forests will be preserved and cherished by an appreciative and grateful people.

This building is dedicated to liberty, justice and a government whose limitations are marked by a constitution framed by the people as sovereigns. This being such a government of the people no man has a right to say that the law thus enacted is wrong and should not be enforced—not half the right the people who as a rule never did, might have had to say the king is wrong in governments where the accepted theory was that the king could do no wrong.

Our State is fortunately located, both as to soil and climate. The best seems to have been saved for the civilized Indian and the Caucasion homesteaders and homeseekers in which to work out, hand in hand, the problems of government and to meet all new conditions. Nature must have ordained that we should occupy a commanding place in the American Union. This suggests another great American character—the wise, just, patient and liberty loving Abraham Lincoln. But for him and his efforts in the most trying time in our country's history the Union might not have been preserved. In such a contingency the State

of Oklahoma would not have had the privilege or the opportunity of becoming one of the United States.

In the perspective we hear the tread of intellectual giants and leaders through its corridors struggling for the mastery in the contests for right and the uplift of the State.

Great development awaits us. Here midway between the Mississippi Valley and the Rockies and the Lakes and the Gulf, where the buffalo and powerful animals roamed, we have erected a government strong in the hope that in achievement and glory it will rival and excel all governments of the past.

In learning and in industry, in manhood and womanhood—in everything that means true devolopment we must excel. Such destiny is to be realized.

Within our borders we must have our own Yale, Harvard, University of Virginia, Vanderbilt or Johns Hopkins. To this spot may all come in memory of the times and occasions when acts and deeds were done and wrought to settle the ever-rising questions in the evolvement of human government and the protection of human rights. This spot must deserve to be looked upon with the same reverence as Faneuil Hall and Bunker Hill, Independence Hall at Philadelphia and Valley Forge, Richmond and Yorktown, and other great shrines of American liberty.

This giant young State is marvelously rich in agriculture and minerals. The farmer with intelligent cultivation, diversification and industry will cause the earth to produce as by touch of Midas, her oil, zinc, coal, asphalt, lead, cement, granite and marble will be utilized by the enterprising, not only for the production of wealth, but also in raising our civilization to meet the needs and ideals of an honest and just humanity. In the development of wealth there must not be moral decay, but manhood and womanhood must grow stronger and develop in a greater degree in the realization of true ideals.

God forbid that selfish interests, whether entrenched behind special interests or fanaticism backed by great numbers or the mob moved without just reason, shall ever cause or induce her public officials to depart from the law in its just administration. May we ever with the fidelity and patriotism of a Burke, Chatham, Samuel Adams or a Patrick Henry stand within these walls and labor, speak and strive that this government may live forever and exist in strong, healthy and vigorous form, affording protection and happiness to the people.

Every citizen of the State who loves it, though not here in person, is here in spirit. They realize that this building is to be the repository of the liberty and rights of the people. In its halls are to come and go the agents of sovereignty, and within them are to be solved the questions that affect their destiny. When we have finished the work of laying the cornerstone and returned to our homes, may we carry with us such a baptism of patriotism as to ever keep alive in our hearts our responsibility as citizens of this new State.

No capitol of a State can be great unless the State is great. No State can be great unless her people are great. Her fields may be rich and her mines may produce marvelous wealth. Her wells may gush forth oil and her forests may produce timber in abundance, but unless the people are true, loyal, honest and faithful to the great trust of Providence and humanity the State cannot be great. May we ever rise to the responsibilities pressing upon us. May the coming years and centuries evidence the fact that the people who settled within these borders have met every condition. May these walls ever reverberate sounds from the past when we are gone to sleep forever with our fathers that we builded better than we dreamed and that we builded for the right and the good."

Thereupon, Honorable Matthew J. Kane, Chief Justice of the Supreme Court of the State of Oklahoma, delivered the following address:

"Ladies and Gentlemen:

We live in a wonderful age. Events so various and so important that they might crowd and distinguish centuries in Oklahoma have been compressed within the compass of a few short years. As I gaze into the faces of this eager and joyous throng, gathered here from the four corners of a great and populous State, to lay the corner-stone of their State Capitol, my memory sweeps back across the years which have intervened since the opening of Oklahoma to white settlement, and in my mind's eye I behold, as in a moving picture film, a great State in the process of building from its very foundation stone to its present imposing stature. I assure you, my countrymen, that this mental retrospect and the vision it conjures up, and the thought that I have seen all this and participated ever so slightly in the upbuilding and progress of my State, and now I am permitted to take part in celebrating the crowning achievement of its people, fills me with the most pleasurable emotions.

Few, I take it, have had the privilege of witnessing such marvelous changes take place in our beloved Oklahoma since I first set foot within her sacred borders on the 22nd day of April, 1889. The years that have intervened between that historic date and this auspicious occasion are not many, as time is reckoned in contemplating the age of a nation or a state; yet, in the matter of achievement, we are entitled to be classed as a star of the first magnitude in the magnificent constellation of States compising our Federal Union.

Immediately prior to the stroke of twelve, on the day of the opening, Oklahoma might have been described as the universe is described in Genesis at the beginning of time: "The earth was void and empty and darkness was upon the face of the deep, and the spirit of God moved over the waters." But between the first and the last stroke of the clock upon that fateful day, several thousand eager homeseeking Americans, from the North and South and East and West, had rushed into the promised land and immediately commenced to lay the foundation of the future State by establishing homes for themselves and families upon her virgin soil. Then we were without courts, court houses, legislative halls or executive department. We had no local law, either State, territorial or municipal, and no judicial, legislative or executive officer of any rank. But the people carried with them into their new home their natural love for law and order, and before the end of the first week, local provisional governments were created, officers were elected by viva voce vote of the people, and courts were establishd over all sorts of controversies. By way of compliment to the genius for self government of the first settlers of Oklahoma, I take pleasure in saying that these provisional governments and courts admirably met the needs of the people until Congress the following year provided a territorial form of government with the usual legislative, judicial and executive departments. Since those early days, which every Eighty-Niner fondly loves to dwell upon, the people of Oklahoma have performed such wonders in the way of material progress and advancement as to challenge the respect and admiration of mankind, but in my judgment no achievement of their's equals for sublimity their patience and forbearance toward each other and their mutual respect for personal and property rights during the more than a year they lived and worked and hoped and prayed together, without municipal laws, immediately after the opening. Is it any wonder that a people so happily endowed have wrought such marvelous

changes in a few short years as to almost stagger the credulity of even those who have been eye witnesses of it all?

While I do not pretend to speak from personal observations, I venture to say that with a few immaterial variations, the development of Indian Territory prior to statehood followed the general trend outlined. Upon the advent of statehood, or on the 16th day of November, 1907, just eight years ago today, this beautiful land, fertile in soil, rich in mineral wealth and redolent of many an Indian tradition and romance, and the Territory of Oklahoma were joined together in holy wedlock and now these two are one flesh.

My countrymen, such in brief is the Genesis of your State. From this rough and hasty sketch you may fill in the details of the struggles, hopes and fears and aspirations of the early pioneers of Oklahoma. The general excellence of their lives and work is proclaimed by their achievements up to the present times, and will be enduringly attested by the great State they will turn over to their posterity. What wonderful transformations have taken place within their lives; yea, while many of them are still comparatively young-

Now, instead of every man being a law unto himself, we have a progressive constitution which has served as a model for drafting the constitution of every State that has entered the Union subsequent to its adoption, and wise and beneficent system of laws well suited to our condition. We have a splendid common school system and our institutions of higher education, both public and private, are of the very best and well attended. Well governed and populous cities, towns and villages dot our broad prairies and sloping hills wherein the hum of many industries blend pleasantly with the laughter of many happy children.

The State contains a population of approximately two million souls and is steadily growing. Our agricultural lands are being tilled by an intelligent, industrious and prosperous husbandry. Our great coal mines and quarries of building stone and granite are contributing to the wealth of those engaged in these industries. Our great oil and gas fields are pouring constant streams of riches into the laps of a great number of our citizens. But above and beyond all this, my countrymen, while in the midst of this great material development and growth we have not forgotten our spiritual welfare, or that a state, as well as an individual, cannot live by bread alone. Our innumerable and beautiful churches, representing almost all religious denom-

inations, whose graceful spires significantly point toward the sky, proclaim the great principal that religion and virtue may kept pace with the triumphant march of materialism. My friends, when I contemplate all of this, I am deeply impressed that Oklahoma was ordained by Providence for a commanding position in the sisterhood of States. Located as we are within the general parallels of latitude where great results are worked out under the most favorable conditions, we may with confidence aspire to such a destiny.

We are linked to the North by the State of Kansas and to the South by the States of Texas and Arkansas. This proximity and our opportunities for material advancement and mental and spiritual growth have drawn to us a great deal of the best blood of both sections. By the very name of our State, and the many other ties, we are linked with the aboriginal inhabitants of America. And in this favored clime the sons and daughters of the erstwhile cavalier and the sons and daughters of the Indian chief are constantly consummating a gentler union which brings forth the highest type of American citizen. Not the hyphenated variety who is for his country when she is right, as he says, but the patriotic citizen who loves his country devotedly and is willing to die for her, right or wrong.

Do not misunderstand me in saying this; I intend no reflection upon the loyalty of our foreign-born citizens. Save Hobson himself, every man who went with him in that maelstrom of fire and death for the purpose of bottling up Santiaga Harbor, were foreigners. There was an Irishman or two, a Frenchman or two, a German or two and a Swede or two. I say unto you that no greater Americanism has any man than this—that he is willing to lay down his life for the Republic. In my humble judgment, if, which God forbid, it should ever be the tragic fate of such citizens to fight against the armies of their own state or land in defense of their adopted country, it will be necessary only for us to look to our own fealty, and not worry about theirs.

My friends, on an occasion like this, it is not amiss to review in detail our past achievements as a people. This may be called a house-warming of the State, and in our happiness and joy even a degree of boastfulness may be well excused. But if we look upon this celebration as merely the laying of the cornerstone of the magnificent structure wherein the business of the State may be transacted or a great material achievement of which to boast, we miss, indeed, its subtler and most important

significance. This imposing pile of stone, brick and mortar is much more than a capital; it is a monument to law and order; it is a guarantee that the rights vouchsafed to the citizens by the Constitution shall be protected and always held inviolate; it is an adamantine vow that government for the people, of the people and by the people shall never perish from the earth. We wish that this structure may serve as a constant reminder of the importance of this event to every class and every age. We wish that infancy may learn the significance of its erection from maternal lips, and that weary and withered age may behold it and be solaced by the recollection which it suggests. We wish that Labor may look up here and be proud in the midst of its toil.

Finally, in closing, let me admonish you, as today we lay the corner-stone of our Capitol, deep and broad and strong, that it may long resist the ravages of Time; that we also resolve that our glorious State shall forever constitute the most enduring corner-stone of our indestructible Union."

HOUSE RESOLUTION No. 46

By ROBERTSON AND CRAVER

Whereas, the new State Capitol in which this Sixth Legislature has been held, is nearing completion and will be ready for occupancy by the various State departments by July 1, 1917, and

Whereas, this splendid building contains six million, seven hundred thirty thousand cubic feet, covering more ground than the three largest buildings in Oklahoma. The space within its walls is four times greater than the Lee-Huckins Hotel, seven times greater than either the Colcord or Federal Buildings, and fifteen times greater than the Oklahoman Building in the City of Oklahoma; contains two hundred and eighty-two rooms exclusive of corriders, rotundas, stairways, and exhibit spaces, five hundred twenty-two doors, all steel, and not a particle of wood used in the construction of the entire building. Included in this contract are two systems of heating, a lighting system of two thousand lamps, direct and indirect, Thermostatic control, and a modern system of ventilating and a vacuum system for cleaning, and all, when completed, will cost the State but $1,515,000.00. At this time the Commission has $5,000.00 of the original appropriation unexpended and has a one hundred per cent bond and fifteen per cent reservation for the faithful construction of the building according to said contract, and

Whereas, this splendid building was located, begun and will *be finished* within a period of less than four years, and

Whereas, this great undertaking has been accomplished without a suspicion or intimation of graft or extravagance; and

Whereas, the design of the building, the quality of its workmanship and its value to the State is recognized by every tax

Whereas; this work has been brought to completion on the part of the State by the State Capitol Commission, composed of Governor R. L. Williams, P. J. Goulding, S. A. Douglas and W. B. Anthony, therefore,

Be It Resolved by the House of Representatives of the State of Oklahoma,

That we hereby tender on behalf of the people of the State our earnest commendation for their efficient and economic efforts in the building of the Capitol, the intelligent care and su-

pervision they have given to this great responsibility, and for the value of their services in the discharge of this important duty; and

Be it further resolved, that a copy of this resolution be entered upon the Journals of both Houses and a copy be furnished the Governor and each member of the State Capitol Commission.

Mr. Robertson moved that the House suspend the rules and consider the resolution, which carried.

Mr. Craver moved the adoption of the Resolution, which carried.

In addition to the registering of Motor Vehicles and the performing of the duties imposed upon the Engineering Department, we have had certified to us by the State Auditor, for Road Construction purposes, rating on the one-fourth mill State leyy. 390,990.64
and have apporitioned and disbursed in the various Counties a total of 248,274.33
and have on hand to be apportionately disbursed 142,716.31

It will be perceived from this report that the expenses of this Department during the past two and one-half months have been $17,824.99 and we should explain that our expenses during the first four months of the calendar year are greatly in excess of what they will be thereafter, as it is necessary to employ approximately sixty percent more people to handle the registering of Motor Vehicles during the first four months, than will be employed thereafter. However the expenses of this Department are bound to increase from year to year as the registration work becomes heavier as more vehicles are being purchased and more duties imposed upon this Department and the recommendation furnished you for the creating of positions and specifying salaries of employees is conservatively estimated.

In the past we have been compelled to render as expeditious a service as possible but have been handicapped through lack of funds and consequently during a portion of the year 1916 we were delinquent with our work but at the present time we

have been able to render prompt and satisfactory service to the patrons of this department.

We have ordered 70,000 Tags for the current year and anticipate that it will be necessary to order from 5,000 to 10,000 more and estimate that we will register approximately 80,000 vehicles and earn through our ten percent for the General Fund, approximately $80,000.00.

Approximate estimate of expenses for the fiscal year ending June 30, 1918, is $75,000.00 and for the fiscal year ending June 30, 1919, $90,000.00, and on the ratio of increase for the past years, we estimate the number of registrations for the calendar year 1918 at approximately One-hundred thousand Vehicles and the amount for such year at approximately $100,000.00.

Respectfully submitted.

GEO. NOBLE

Commissioner of Highways.

The following communications from the Governor were read:

To the House of Representatives of the Sixth Legislature of the State of Oklahoma:

House Bill No. 297, by McCollister and Headley, being entitled: "An Act making an appropriation out of the income, interest and rentals of New College Permanent funds and lands for the support and maintenance of certain educational institutions for the fiscal years ending June 30, 1918, and June 30, 1919." has been presented to me.

Section 12 of Article 6 of the Constitution provides that every bill passed by the Legislature making an appropriation of money embracing distinct items, shall, before it becomes a law, be presented to the Governor; if he disapporoves the bill, or any item, or appropriation therein contained, he shall communicate such disaproval, with the reasons therefor, to the house in which the bill shall have originated, but all items not disapproved shall have the force and effect of law according to the original provisions of the bill.

All of the items of said bill have been approved by me, except the following:

"For the University Preparatory School, Tonkawa,
salaries, for the fiscal year ending June 30, 1918___$25,796.00

Support and maintenance other than salaries	2,060.00	1,600.00
For the Northeastern State Normal School, Tahlequah	9,594.00	6,400.00
Support and maintenance other than salaries	706.00	1,600.00

All of the items contained in said section, except the items relating to the University Preparatory School, have been approved by me as provided in said Section 12, Article 6 of the Constitution of the State. The items relative to the University Preparatory School have been disapproved by me for the following reasons, to-wit:

The University Preparatory School was created by the Legislature of the Territory of Oklahoma in 1901 (see Session Laws 1901, page 197). At that time, according to my investigation, there was no high school within the state co-ordinating with the State University. Obviously, the reason for creating this institution was to have a high school co-ordinating with the State University. As to why it was not located where the State University was, I am not advised. At the present time the great majority of towns and cities of this State are maintaining high schools at the expense of the school districts, which are co-ordinating with the State University. To my mind there is no earthly excuse for the maintenance of the University Preparatory School, as such, at any other place than at the State University, and then only to the extent of affording a training department for the department of education at the State University. With such a high school maintained at the State University,

students coming to such high school should have preference from school districts not having high schools, and by that means such Preparatory School located at the State University would afford opportunities to boys and girls living in school districts not able to maintain high schools, and at the same time afford a training department in the State University.

Here is set out certain apportionments as to these trust funds as made by this bill and also House Bill No. 293, which are companion bills:

	1917-18.	1918-19.
State University	$43,200.00	$42,000.00
	10,800.00	10,500.00
H. B. 293	55,200.00	38,940.00

A. & M. College	$29,600.00	$29,200.00
	7,400.00	7,300.00
H. B. 293	79,488.00	56,073.60
" "	19,872.00	14,018.40

	$50,750.00	$50,750.00
Colored Agri. & Normal University	$15,608.00	$12,800.00
	3,392.00	3,200.00
H. B. 293	8,832.00	6,230.40
" "	2,208.00	1,557.60
	$30,040.00	$23,788.00

When this administration was entrusted by the people of this State with the administrative power for this quadrennium, it was with the solemn promise of rigid economy. I quote from the written platform:

"We are in favor, not only of rigid economy and honesty, but also rugged thrift and efficiency in the administration of

governmental affairs so that for every dollar that is taken from the treasury at least a commensurate in service or other valuable consideration shall be given therefor. The State, county and municipal governments must be administered so as to reduce expenses, and, in fact, lighten the burdens of the people rather than to continue expense and seek relief by devising new species of taxation and new subjects to tax to bear such burdens.

"Every unnecessary board, officer, or employe of the State, county or municipality must be abolished or dispensed with, and public servants remaining must earn their salaries by actual service. The government must be administered upon the same practicable common sense lines that private business is carried on * * * Our State institutions and schools must be reasonably maintained and supported with a view of attaining the objects for which they were created, and reasonable visitations made with a view of safeguarding the interests of the taxpayers and the highest development of such institutions and their efficiency."

No where in that platform can there be conjured any intimation that the schools or any of the subordinate institutions were intended to be extended, much less to divert such a sacred trust fund in behalf of one of them.

Sction 8 of the Enabling Act, (see Williams' Annotated Constitution, page 251) provides:-

"That Section Thirteen in the Cherokee Outlet, the Tonkawa Indian Reservation, reserved by the President of the United States by Proclamation issued August nineteenth, eighteen hundred and ninety three, opening to settlement the said lands, and by any act or acts of Congress since said date, and section thirteen in all other lands which have been or may be opened to settlement in the Territory of Oklahoma, and all lands heretofore selected in lieu thereof is hereby reserved and granted to said State for the use and benefit of the University of Oklahoma and the University Preparatory School, one-third; of the Normal schools now established or hereafter to be established, one-third; and of the Agricultural and Mechanical College and the Colored Agricultural Normal University, one-third. The said lands or the proceeds thereof as above apportioned shall be divided between the institutions as the Legislature of said State may prescribe. Provided, That the said lands so reserved or the proceeds of the sale thereof shall be safely kept or invested and held by said State, and the income thereof, interest, rentals

or otherwise, only shall be used exclusively for the benefit of said educational institutions."

Obviously this grant to the State Uiversity Preparatory School was to the University as a University, and to the University Preparatory School as a Preparatory School. The Proviso to this item - "That the State Board of Education shall have authority to extend the functions of said institutions of said institution," to my mind violates this grant and operates to that extent as a breach of the trust, for it was the evident intention of Congress in making this grant, that the Legislature should apportion this fund between the State University and the University Preparatory School, but in making this apportionment, it would be made to the State University as a University, and to the University Preparatory School, as a preparatory school, and the very moment that an attempt is made by the Legislature of this State to enlarge the scope of the functions of the University Preparatory School by the use of such trust fund it is a violation of the grant and the trust. Under the provisions of this proviso the State Board of Education could convert the University Preparatory School into another State University, and bring about an institution which would impair the maintenance and support of the State University from this trust fund, and place an additional burden upon the tax payers of the State.

It is with regret that I have to disapprove this item but have reached the conclusion that I owe this duty to the State.

Most respectfully,

R. L. WILLIAMS,

Governor.

To the House of Representatives of the Sixth Legislature of the State of Oklahoma:

House Bill No. 293 by McCollister and Headley, being entitled:

"An Act making an appropriation out of the income and interest on Section Thirteen Permanent funds and rentals on Section Thirteen Lands for the support and maintenance of certain educational institutions for the fiscal years ending June 30, 1918, and June 30, 1919",

Section 12 of Article 6 of the Constitution provides that every bill passed by the Legislature making an appropriation of money embracing distinct items, shall, before it becomes a law, be presented to the Governor; if he disapproves the bill, or any item, or appropriation therein contained, he shall communicate such disapproval, with his reasons therefor, to the House in which the Bill shall have originated, but all items not disaproved shall have the force and effect of law according to the original provisions of the bill.

The University Prepartory School was created by the Legislature of the Territory of Oklahoma in 1901, (See Session Laws 1901, page 197.) At that time, according to my investigation, there was no high school within the State co-ordinating

with the State University. Obviously, the reason for creating this institution was to have a high school co-ordinate with the State University. As to why it was not located where the State University was, I am not advised. At the present time the great majority of towns and cities of this State are maintaining high schools at the expense of the school districts, which are co-ordinating with the State University. To my mind there is no earthly excuse for the maintenance of the University Preparatory School, as such, at any other place than at the State University, and then only to the extent of affording a training department for the department of education at the State University. With such a high school maintained at the State University, students coming to such high school should have preference from school districts not having high schools, and by that means such Preparatory School located at the State University would afford opportunities to boys and girls living in school districts not able to maintain high schools, and at the same time afford a training department in the State University.

Here is set out certain apportionments as to these trust funds as made by this bill and also House Bill No. 297, which are companion bills:

	1917-18.	1918-19.
State University	$55,200.00	$38,940.00

	$30,040.00	$23,788.00

When this administration was entrusted by the people of this State with the administrative power for this quadrennium, it was with the solemn promise of rigid economy.

I quote from the written platform:

"We are in favor, not only of rigid economy and honesty, but also rugged thrift and efficiency in the administration of governmental affairs so that for every dollar that is taken from the treasury at least a commensurate in service or other valuable consideration shall be given therefor. The state, county and municipal governments must be administered so as to reduce expenses, and, in fact, lighten the burdens of the people rather than to continue expense and seek relief by devising new species of taxation and new subjects to tax to bear such burdens.

Every unnecessary board, officer, or employe of the State, county or municipality must be abolished or dispensed with, and public servants remaining must earn their salaries by actual service. The government must be administered upon the same practicable common sense lines that private business is carried on. * * * Our State institutions and schools must be reasonably maintained and supported with a view of attaining the objects for which they were created, and reasonable visitations made with a view of safeguarding the interests of the taxpayers and the highest development of such institutions and their efficiency."

No where in that platform can there be conjured any intimation that schools or any of these subordinate institutions were intended to be extended, much less to divert such a sacred trust fund in behalf of one of them.

Section 8 of the Enabling Act, (see Williams' Annotated Constitution, page 251) provides:

"That Section Thirteen in the Cherokee Outlet, the Tonkowa Indian Reservation, and the Pawnee Indian Reservation, reserved by the President of the United States by proclamation issued August nineteenth, eighteen hundred and ninety three, opening to settlement the said lands, and by any Act or Acts of

Congress since that date, and section thirteen in all other lands which have been or may be opened to settleemnt in the Territory of Oklahoma, and all lands heretofore selected in lieu thereof is hereby reserved and granted to said State for the use and benefit of the University of Oklahoma and the University Preparatory School, one-third; of the normal schools now established or hereafter to be established, one-third; and of the Agricultural and Mechanical College and the Colored Agricultural Normal University, one-third. The said lands or the proceeds thereof as above apportioned shall be divided between the institutions as the legislature of said State may prescribe. Provided, that the said lands so reserved or the proceeds of the sale thereof shall be safely kept or invested and held by said State, and the income thereof, interest, rentals or otherwise, only shall be used exclusively for the benefit of said educational institutions."

Obviously, this grant to the State University and to the University Preparatory School was to the Unievrsity as a University, and to the University Preparatory School as a Preparatory School. The proviso to this item—"That the State Board of Education shall have authority to extend the function of said institution," to my mind violates this grant and operates to that extent as a breach of the trust, for it was the evident intention of Congress in making this grant that the Legislature should apportion this trust fund between the State University and the University Preparatory School, but in making this apportionment, it would be made to the State University as a University, and to the University Preparatory School, as a preparatory school, and the very moment that an attempt is made by the Legislature of this State to enlarge the scope of the functions of the University Preparatory School by the use of this trust fund, it is a violation of the grant and the trust. Under the provisions of this proviso the State Board of Education could convert the University Preparatory School into another State University, and bring about an additional institution which would impair the maintenance and support of the State University from this trust fund and place an additional burden upon the tax payers of the State.

It is with regret that I have to disapprove these items, but have reached the conclusion that I owe this duty to the State.

Most respectfully,

R. L. WILLIAMS,

Governor.

SUBSTITUTE ENGROSSED HOUSE BILL NO. 102.
BY HUGHES AND BUTLER.

AN ACT PROVIDING FOR THE TRANSPORTATION OF CONVICTED PERSONS FROM THE COUNTIES IN WHICH SAID PERSONS MAY BE CONVICTED, TO THE INSTITUTION WHERE SUCH PERSONS MAY BE SENTENCED AND FOR THE EXPENSES; AND DECLARING AN EMERGENCY.

Be It Enacted by the People of the State of Oklahoma:

Section 1. All persons convicted of any offense against the laws of this State and sentenced to serve a term in any penal institution of the State, shall be transported from the County or County Jail of said State to the institution to which said person shall be sentenced by the warden of said institution, or under his jurisdiction as hereinafter provided. Upon final conviction of any person in any county of the State, the sheriff shall immediately notify the warden of the institution where such person shall have been sentenced, and said warden shall immediately receive said person at the jail where said person shall be confined, or designate a subordinate who shall be an agent of the State, to receive said person, and receipt the sheriff for the delivery of said person.

The wardens of the respective institutions shall keep an itemized account of the expenses for transporting said convicted persons, which expenses shall be paid by the State.

Section 2. For the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in force from and after its passage and approval.

The Speaker declared the bill, as amended by conference report, having received a majority of the votes of all members elected to and constituting the House of Representatives, passed.

The following conference report was read:
Mr. Speaker:

We, your Conference Committee, to whom was referred House Bill No. 314, by Thomas, Blackard, Powell and Shirley, entitled,

"An Act providing for assistant or deputy clerks, treasurers, assessor, court clerks and county superintendents of public instruction and undersheriffs and fixing their salaries, and declaring an emergency," beg leave to report that we have had the same under consideration and herewith return the same with the recommendation that it do pass, with the following amendments:

Amendment No. 1. By amending the title to read as follows:

"An Act providing for an increase in the salary of the deputies of the various county officers in each county in this State, and their appointment in certain counties."

Amendment No. 2. By making Section 1 read as follows:

"The County Commissioners in each county in this State are hereby authorized and empowered to grant a flat raise of 10 per cent in the salary of each and every deputy county official, as now provided by law."

Amendment No. 3. By making Section 2 read as follows: "In counties having a population according to the last decennial Federal census or any subsequent decennial Federal census in excess of 30,000 and not over 40,000 and in which the taxable valuation, according to the last preceding assessment, was in excess of $50,000,000.00, the County Assessor may, by and with the consent and approval of the Board of County Commissioners, expend for deputy hire not to exceed five thousand ($5,000.-00) dollars per annum. In such counties the County Clerk, Court Clerk, County Treasurer and County Superintendent, may each, whenever an emergency arises in their office, appoint such additional deputies at such salary and for such length of time as the Board of County Commissioners may, by resolution authorize. Provided, that the salary of any such deputy shall not not exceed the sum of seventy-five ($75.00) dollars per month."

Amendment No. 4. By making Section 3 read as follows: "In counties having a population of more than thirty-one (31,-000) thousand and not exceeding thirty-two (32,000) thousand, the first deputy in the court clerk's office shall be appointed by the Court Clerk, upon written recommendation of the County Judge and shall be especially assigned to the work of the County Court."

Amendment No. 5. By making Section 4 read as follows: "Provided, in counties having less than twenty thousand (20,-000) inhabitants, where the assessed valuation of property is over twenty-five million dollars, the salaries of the county officers of such counties shall be equal to that of the officers of counties having a population of thirty thousand."

Amendment No. 6. By making Section 5 read as follows: "Provided, when it shall be made to appear to the satisfaction of the Board of County Commissioners upon application of the County Clerk, County Superintendent of Public Instruction, County Treasurer, Court Clerk or County Assessor, that an emergency has arisen and that additional deputies are necessary for the proper conduct of the office, the above named officers shall have the power to appoint such additional deputies by and with the consent of the Board of County Commissioners. The number and compensation of such additional deputies shall be

fixed by the Board of County Commissioners at a salary not to exceed seventy-five dollars ($75.00) per month.

Amendment No. 7. By making Section 6, read as follows: "None of the provisions of this act shall go into effect or become operative until on and after July 1, 1917."

Amendment No. 8. By striking the remaining Sections of the Bill.

The Speaker declared the bill, having received a majority of the votes of all the members elected to and constituting the House of Representatives, passed, and signed the engrossed copy thereof in open session.

Mr. Chapman, on behalf of the majority members of the House, presented Mr. Speaker with a leather rocking chair, and made an address which is as follows:
"Mr. Speaker and Gentlemen of the House:

"There is a little duty we want to perform. About two months and a half ago the Honorable Paul Nesbitt, of McAlester, Oklahoma, was selected by this body as its Speaker, which was a great responsibility. And from the hour that he was elected to that responsible position until the present time his mind and his heart have been full of many things; not only for the advancement of those who assisted him in that responsible position, but for the people of the State of Oklahoma. Immediately after his election it was necessary for him to appoint various committees in order that the work might be done, and done properly in this Legislature. Every member of the Legislature well knows how these duties have been performed, and Mr. Speaker, I desire to say to you now that I believe but few men, if any, within this State could occupy the position that you have occupied, and have dealings with 'Free Text Book' Speer, with 'Parliamentarian' Haile, with 'Valid Policy' Harper, with 'Look-out' Wimbish, with 'Mental Anguish' Newman, and with 'Bath-tub' Ewing from Logan County, and with 'Poll Tax' Rowland from McCurtain County, and with our esteemed Knight Stevenson from Gravin County, and there might be others named whose dispositions are not easy to handle, but we

know with all the valued influence and connections that the work which you have directed has been done under the direction of and by men, who at times may have differed in their views, we feel you have been one of the best Speakers that has ever been in the State of Oklahoma. We realize, too, that in the associations here there are friendships that will live in the hearts of each of us that cannot be eradicated by time, and in all of that you shall be held supreme with each of us.

"And in this connection I desire to say that every member of this House, no one objecting, thought it would be well to give you a token of our friendship so that you may take it home with you and remember us in the pleasure of your home, and "unbeknownst" to you I consulted your better-half as to what we ought to get and she was kind enough to give us the desired information, and I say to you that from the heart of every member of this House, we desire to present to you the chair sitting to the right, and when you are at home you may enjoy it and think of us and the things you have done for the State of Oklahoma, and when, in the evening, you are at home by your fireside, with the loved wife and children with you and sitting in that chair of ease, we trust that you will remember every member of this Legislature as they are now before you.

"And now, Mr. Speaker, in presenting this to you, may the God in His infinite mercy uphold your hands and assist you to be even a greater help to the people of the State of Oklahoma in some future responsible position of this State as you have been in the present position, and when we shall have departed we shall carry the kindness that you have extended to us, in our hearts and in our memory, and when you are far away our thoughts will be of you and of the honesty, integrity and manhood that you have shown, and the assistance you have given the State of Oklahoma in the good legislation that has passed this House.

"And now in conclusion may I say, may God be with you all through life as we cannot be, and trust that your life may be fraught with many years, and peace and good will to you after this life has passed away."

Judge Craver, on behalf of the minority members of the House, presented Mr. Speaker with a smoking set, cigars, and a shaving set, and made an address which is as follows:

"Mr. Speaker and Gentlemen of the House:

"To me this is a very important occasion. To me, perhaps it is one of the most feeling and touching scenes that we have passed through since we first gathered together. And this occasion will be one that I shall never forget. When I came to meet with you gentlemen I did not have the pleasure of the acquaintance of the splendid man who has so faithfully performed his duty as Speaker of the House, but since forming that acquaintance I have learned to love you, learned to respect you and I trust that that love and respect, as we live longer will grow stronger.

"The important position that you occupy we all realize is a very trying position; when men are called upon to preside over a body like this they have many trials that we as members do not appreciate. Many things, perhaps in our excitement we are forced sometime almost to criticize, but when it is all over and looking back we say 'he acted his part admirably.'

"I want to say to you Mr. Speaker for the first time, I understand, since statehood, that this legislature has been free from the domination of political parties. I will say I believe that this is a good omen, and I trust that in time to come that this precedent that we have established will ever be followed. On the part of the minority we have tried at all times to uphold your hands. When questions of importance came, we did not play politics, we did not stop the trend of legislation, but we all gave you our heartiest and best support, and for this reason this legislature has accomplished more for the people of the State of Oklahoma than any other assembly that Oklahoma has ever had.

"Mr. Speaker, I fear I am trespassing upon the time and the business we have before us. I cannot well afford to detain you much longer on this day. I want to say to you that we have endeavored to show our appreciation to you by presenting to you a few things that you will ever treasure. And I want to say more, that in your declining years you will look back upon this occasion with loyal and loving friends, I want to say that the present that has been given to you as a token of the good wishes of the friends on the part of the majority, will not be complete unless we too, add to that. We add to that for this reason, we know the pleasure of sitting by the fireide, and knowing the habit you have formed, and also the fact that

in lying in this easy resting place therefore we present to you as our kindest token this little smoking set and cigars. Not only that Mr. Speaker, we realize too that you may at some time have what we might term "a close shave" in getting through, and to assist you in the future we take great pleasure in presenting to you the shaving set. And I say to you Mr. Speaker, may God be with you 'till we meet again.

Mr. Speaker, in thanking the members both the majority and minority sides of the House, made the following address:

"Mr. Chapman, Judge Craver, and Gentlemen of the House:

"I cannot say very much, but I know that you know how much I appreciate this. I have tried to give good service to you, and I know that you have been very kind to me. There never has been a time in this session when I have asked something of any of you man but you have given it, and you have treated me with the greatest consideration.

"I would be an ingrate if I didn't hold every man in this house in the highest esteem, and I assure you that when we do part that so far as I am concerned there is not a man in this House whom I not only admire and respect, but whom I love.

"The gentlemen of the majority were kind enough to select me to this position, and to them I owe a great deal, and I feel that we have been successful in doing what we came here to do.

"The gentlemen of the minority have been Oklahomans, and have worked as I believe for the interests of the state, and there has been no dividing line in this House, and I have appreciated that, gentlemen, more than anything that has been done in this legislature. I don't like enemies, I like friends. I don't like politics that make enemies; I don't like politics that divide friends, and that is why, when I had an opportunity, when a great deal depended on what I did and what I said, I say that when that opportunity came, it was one of the greatest pleasures of my life to show the respect I think is due all men, and if I have done that successfully, and if I carry away your friendship, I shall have all I am entitled to, and I assure you all that I expected.

"I appreciate these presents, and they will be reminders in

my home of the friendships of this session. I hope, gentlemen, this is not the last time we will meet. I hope, as citizens of this state, we can meet, if not in a place of this kind, in such places as carry the responsibility of state, because the men whom I have seen tried and tested, I believe are the men in whose hands should rest a part of the responsibility of the government of this state. And so I can only say, I thank you, and I wish you all the good things that you have been wishing me, and may we meet many, many times. I thank you."

Mr. Meacham, on behalf of the members of the House, presented Mr. Waldrep, Speaker Pro Tempore, with a watch chain.

Mr. Christopher, on behalf of the members of the House, presented Mr. Waldrep, Speaker Pro Tempore, with a set of silverware and extended congratulations to him on his approaching marriage.

To the Speaker of the House of Representatives:

I am directed by the Senate to transmit herewith the engrossed copy of Senate Bill No. 367, by Committee on Fees and Salaries: "An Act realting to the Secretary of the State Industrial Commission and other assistants and stenographers in that department," and Senate Bill No. 227, by Killam, Davis, Kerr, Keller, Bickel, Tucker, Knight, O'Neill, McIntosh and Snyder: "An Act to create and legalize revolving funds at State institutions and providing for additions or accretions thereto and for the maintenance of such fund and for the disbursement of such fund, and declaring an emergency," and to inform you, and through you, the Honorable House of Representatives, that the Senate has adopted the conference report of Conference Committee on same.

Respectfully yours,
JOE S. MORRIS, Secretary.

The following conference report was read:

To the President of the Senate and Speaker of the House of Representatives:

We, your Conference Committee, to whom was referred Senate Bill No. 367, by Committee on Fees and Salaries: "An Act relating to the Secretary of the State Industrial Commission and other assistants and stenographers in that de-

partment," beg leave to report that we have had the same under consideration and herewith return the same with the recommendation that the Senate accept the House amendment, and that the bill do pass as amended.

CHASE,

McALISTER,

Senate Conferees.

HARPER,

NORVELL,

BLACKARD,

House Conferees.

On motion of Mr. Harper the House adopted the conference report on Senate Bill No. 367.

The following conference report was read:

To the President of the Senate and the Speaker of the House of Representatives:

We, your Conference Committee, to whom was referred the matter of the disagreeing votes on Senate Bill No. 227, by Killam, Davis, Kerr, Keller, Bickel, Tucker, Knight, O'Neill, McIntosh and Snyder: "An Act to create and legalize revolving funds at State institutions and providing for additions or accretions thereto and the maintenance of such fund and the disbusement of such fund, and declaring an emergency," beg leave to report that we have had same under consideration and beg leave to report as follows:

First: That the Senate concur in House Amendment No. 1.

Second: That the Senate concur in House Amendment No. 2.

Third: That the following be substituted for House Amendment No. 3:

"Amendment No. 3. Strike out Section 4 and insert in lieu thereof a new section, to be known as Section 4, as follows:

'Section 4. The revolving fund for the University of Oklahoma to be known as the "University Revolving Fund" so as to distinguish it from the Hospital Revolving Fund, shall con-

sist of all appropriations made for such purpose and as a part of such revolving fund, and of all incidental, registration, library and laboratory fees established by the State Board of Education. The financial clerk of the University shall collect all laboratory deposits and other fees, and after all proper refunds have been made, shall transfer the net proceeds to the revolving fund. The State Board of Education shall fix a reasonable rental for the use of musical instruments, scientific instruments, and engineering instruments, with a view to keeping said instruments in repair and yielding an annual income of at least six (6) per cent on the cost of said instruments, which rental shall be paid into said revolving fund. Said revolving fund may be used for the purchase of material, apparatus, equipment, books, supplies, and for the repair of instruments, but shall not be used for salaries, except that fees collected for service rendered may be used to pay the persons employed to render such services. Expenditures from the revolving fund shall be made by the State Board of Public Affairs, or the successors of said Board, under the rules and regulations and by means of such vouchers as may be prescribed by the State Examiner and Inspector, the voucher to bear the verification of the chairman or vice-chairman of said Board of Public Affairs, and its Secretary, and shall not be authorized or approved by said Board unless properly vouchered or approved by the President of the University of Oklahoma and the financial clerk. Provided, that with the consent given in writing by the Governor, a fund in cash not to exceed one thousand dollars ($1,000.00) may be drawn from said revolving fund to be used in making cash payments in cases of emergency.' "

To the President of the Senate and the Speaker of the House of Representatives:

We, your Conference Committee, to whom was referred the differences existing between the Senate and the House of Representatives on Senate Bill No. 252, by Kerr and Logan: "An Act relating to the Supreme Court, and declaring an emergency," beg leave to report that we have had the same under

consideration and hereby suggest the following amendments to said bill, and recommend that the respective House adopt the same:

First: Amend Section 1 to read as follows:

Section 1. The Supreme Court shall consist of nine justices. Immediately upon the passage and approval of this Act, the Governor shall appoint, by and with the advice and consent of the Senate, one Justice of the Supreme Court from each of tthe following judicial districts hereby created, to-wit: Supreme Court Judicial District No. 6; Supreme Court Judicial District No. 7; Supreme Court Judicial District No. 8, and Supreme Court District No. 9, each of whom shall serve until the second Monday in January, 1919, and until his successor is elected and qualified."

Second: Amend Section 2 to read as follows:

"Section 2. The State is hereby divided into nine Supreme Court judicial districts, as follows: Districts Number One, Two, Three, Four, Five, Six, Seven, Eight and Nine.

District No. 1 shall comprise the territory comprising the State of Oklahoma, excluding Ottawa county, and the Honorable John B. Turner, of Craig county, the present justice from Supreme Court judicial district No. 1, shall continue to be Justice of said district until his present term shall have expired.

District No. 2 shall comprise the territory comprising the State of Oklahoma, excluding McCurtain county, and the Honorable Summers Hardy, of Choctaw county, the present Justice from Supreme Court judicial district No. 2 shall continue to be Justice of said district until his present term shall have expired.

District No. 3 shall comprise the territory comprising the State of Oklahoma, excluding Okfuskee county, and the Honorable Matthew J. Kane, of Kingfisher county, the present Justice from Supreme Court judicial district No. 3, shall continue to be Justice of said district until his present term shall have expired:

District No. 4 shall comprise the territory comprising the State of Oklahoma, excluding Cotton county, and the Honorable J. F. Sharp, of McClain county, the present Justice from Supreme Court judicial district No. 4, shall continue to be Justice of said district until his present term shall have expired.

District No. 5 shall comprise the territory of the State of Oklahoma, excluding Cimarron county, and the Honorable Chas. M. Thacker, of Greer county, the present justice from Supreme Court judicial district No. 5, shall continue to be Justice of said district until his present term shall have expired.

District No. 6 shall comprise the territory comprising the State of Oklahoma, excluding McClain county.

District No. 7 shall comprise the territory comprising the State of Oklahoma, excluding Choctaw county.

District No. 8 shall comprise the territory comprising the State of Oklahoma, excluding Greer county.

Distirct No. 9 shall comprise the territory comprising the State of Oklahoma, excluding Kingfisher county.

All of said districts being overlapping districts, and being separate and independent districts.

Third: Amend Section 3 to read as follows:

"Section 3. At the regular biennial election in 1918, a justice shall be elected for each of said four additional Supreme Court districts, to-wit: Supreme Court Judicial District No. 6; Supreme Court Judicial District No. 7; Supreme Court Judicial District No. 8 and Supreme Court Judicial District No. 9, each of whom shall be nominated by the electors of such district in which he resides, at the primary election next preceding such general election. The Justices in districts numbered 6 and 9 shall be elected for a term of six years, the Justice for district No. 7 for a term of four years, and the justice for District No. 8 for a term of two years; and thereafter, three of the Justices of the Supreme Court shall be elected at each general biennial election, to serve for a term of six years each, from the second Monday in January succeding his election. The successors to the existing five Justices shall be elected at the time authorized by existing laws, it not being the purpose of this Act to disturb the terms of such Justices."
